I. Read G.O. dated 11th April 1889 No 409 M passing remarks on resolution No 1 dated 20th February 1889 regarding the sanitary condition of Coonoor.

Referring to para. 2 measures will be taken, as desired, to fence or cover for the present the water supply Channel where it is most exposed to contamination. As regards an estimate for piping it throughout, the Council having no competent agency for preparing an estimate for so large a scheme, beg to suggest that as soon as the services of such an Engineer as that referred to in para 40 of G.O. dated 16th March 1889 No 312, 313 M are available, he may be requested to prepare one.

Referring to para 3 the drainage scheme will receive attention as soon as the finances of the Municipality have been put in proper order as remarked by Government.
