SUPERINTENDING ENGINEER'S OFFICE,

V Circle, Madras,

Chepāk, 20th June 1887.

From

Colonel W. H. Burton R.E.

SUPERINTENDING ENGINEER, V CIRCLE,

To

THE Chief Engineer

C. E. Department.

SIR,

Enclosures.

The Executive Engineer Chingleput brings to notice that he finds it impossible to carry on the work of his office with his present office Establishment, and asks that in addition to the temporary Clerks and Draftsman now given him, his office Establishment may be raised to the scale of that of a first class Division which would give him an extra Clerk on the permanent Establishment.

2. The Executive Engineer states that the present Establishment is altogether inadequate for the work to be done - and that until it is made a first class Division which it formerly was, he cannot hope to be able to carry on his office work satisfactorily.

shown in the margin -
all which work did
not exist in former
years in such an
accumulated and
aggravating manner.
~~and~~ a great
deal of extra work
has been imposed
on the Executive
Engineer and his
Office Establishment -
and I have the
honor to recommen-

Wm Brewster
Colonel R.R.
Superintending Engineer & Carols

Cat. 5692

Nov 1889

In the accompanying letter the Superintendent Engineer V. C. Ciala recommends that, in addition to the temporary clerk and draftsman already sanctioned for the Chicago Division, the office establishment of the Division may be raised to that of a First Class Division. This proposal will involve the addition of a permanent clerk 10 Class 1st grade \$40-50, and the extra cost will be \$47 $\frac{1}{2}$ x 12 or \$570 per annum.

The temporary establishment already allowed for the Division is excessive and was ordered to be reduced before 1890-91. vide G.O. at 2111 W dated 4 June 1889. (Please also see H. A. H. memo on the original of the G.O.)

6 The

The Superintending Engineer not paying any attention to the order, now recommends a permanent increase to the Office Establishment of the Division.

The following are the reasons advanced for the increase applied for:-

(1) The Division was formerly a first Class Division and if the present Establishment is not raised to that standard the work cannot be carried out satisfactorily. As stated by the Executive Engineer the Division was a First Class Division before 1880 and its Establishment then consisted of:-

	Financial value
1 Clerk on Rs 60-80	75
1 do 40-50	47½
1 do 30-40	37½
1 do 20-30	27½
1 Draftman 50-70	65
1 do 20-30	27½
1 Messenger on Rs 7	7
1 do 6	6
	<u>Rs 298</u>

* Vide G.O. 3675 Wd/18.9.78. A.

20-

to a Second Class Division its present Establishment

	Financial value
1 Clerk on Rs 60-80	75
1 do 30-40	37½
1 do 20-30	27½
1 Draftman on Rs 50-70	65
1 do 20-30	27½
1 Messenger on Rs 7	7
1 do 6	6

Total Rs 273

There is a difference of Rs 20- between the cost of an old First Class Division & that of a present Second Class Division, but there is no difference in numerical strength, the number of clerks of an old First Class Division and of a present second class Division being one and the same viz 4. In the place of a clerk on Rs 40-50 in an old first class Division, there is now a clerk on Rs 20-30 in a second class Division. It is thus apparent that the present Single post Division

1800
It has the same numerical strength as it had when it was a First Class D.A.

(1) The abolition of the Red Hills Tank Sub-division. There was a separate Sub-division for the Red Hill as there was much work to be done there. The work having now considerably decreased, that Sub D.A. has been abolished. The argument of the S. Engr. that the abolition of the Red Hills Sub D.A. has entailed additional work is not therefore sufficiently strong.

(2) The building or contemplated erection of Barracks at Ponnammallee and St Thomas' Mount. During the few previous years, there were several large Military Works in progress at St Thomas' Mount and there is now hardly any large work except minor works

// and

- 30 -

and repairs at that Station. In place of those large works, the barracks at Ponnammallee are now being constructed. The contemplated building of barracks at St Thomas' Mount has not yet met with the approval of the Govt of India, and even if approved, it will not be before some time that they will be commenced. The necessity for the increase of the establishment is not established in the circumstances above stated.

1 Repairs to be carried out to 252 tanks which were breached in the cyclone of 31st October 1888.

The additional work that may be entailed by repairs to these tanks is only of a temporary nature and does not justify an increase to the permanent establishment. A large
↑ tent =

1800
Temporary Establishment
has already been sanctioned
for the division and it
should be able to get
on with the work.

In the circumstances
above stated it is proposed
to decline sanction.

Submitted for orders.

Order ^{Maj 27/6.}
The Govt cannot entertain
the proposal of the S.E.
V Circle, to increase the
strength of the permanent
establishment of the
Chingput Division.
2/ It is observed that
although the financial
value of the existing 2nd class
establishment is slightly
less than that of a
1st class division, on the
old scale; the number
of clerks &c is the same;
and in addition to the permanent
staff there is a temporary
establishment of ¹⁰⁰⁰
