14th February 1889, No. 429 W., Public Works.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

Read—the following paper:—

From G. T. WALCH, Esq., Superintending Engineer, I Circle, to the Chief Engineer, Public Works Department, dated Dowlaishweram, 28th June 1888, No. 197 G.L.

With reference to G.O., No. 1144, dated 16th April 1888, I have the honor to say that the Deputy Examiner is mistaken in saying that "one cannot tell from its records what jobs the press has done;" a book is maintained in which all indents received are entered and also a work-book showing all work turned out; he is correct in saying that it cannot be ascertained what each job has cost, because, as the only work done is that for the department for which no payments are made, it is thought unnecessary to multiply office and accounting work with no adequate result.

2. I have no objection to offer to the proposal made by the Examiner in para. 3, but I would remark that the press is only a little office affair, which has been found most useful for certain kinds of departmental work, which it is not easy to get done elsewhere, and if it is brought into the general maze of special accounts, statements, returns, &c., which will make it more costly, troublesome and less handy, I shall advocate its abandonment altogether.

Office-note from the Examiner, Public Works Accounts, dated 10th January 1889, No. 19.

Adverting to your office-note No. 2606, dated 10th July 1888, I beg to inform you that I have consulted the Superintendent, Government Press, regarding some suitable way of keeping simple accounts to show the value of work done by departmental presses, and I now submit, for orders of Government, the Superintendent's report and the marginally-noted papers on which it is based.

Examiner's No. 1024 X., dated 21st July 1888, to the Superintendent.
Superintendent's reply, No. 1238, dated 26th July 1888.
Examiner's letter No. 799 S.E.1., dated 9th August 1888, to the Superintending Engineer, I Circle.
Examiner's letter No. 500 S.E.2., dated 9th August 1888, to the Executive Engineer, Kistna Eastern Division.
Reply from the Superintending Engineer, I Circle, No. 373 G.L., dated 19th September 1888.
Reply from the Executive Engineer, Kistna Eastern Division, No. 3118, dated 29th September 1888.
Examiner's letter No. 1264 X., dated 19th October 1888, to the Superintendent.

2. If the establishment of the press at Dowlaishweram is reduced, as proposed by the Superintendent of the Government Press, there will still be a loss on the Superintendent's valuation of work done, unless the work can be increased. It does not, however, follow that it is desirable to close the presses altogether, as the convenience may be worth the extra work cost. It might, perhaps, be worth while to provide more work by supplying the presses with vernacular type and so enabling them to undertake vernacular and biglott printing, or the Superintending Engineers concerned may be able to suggest other ways of providing more work.

3. There should not, I think, be any difficulty in keeping a work-book in the form suggested by the Superintendent, and such a record of the quantity and value of the work done would, I think, be found useful by the Superintending Engineer.

ENCLOSURE.

From R. HILL, Esq., Superintendent, Government Press, to the Examiner of Public Works Accounts, dated Madras, 3rd December 1888, No. 2995.

With reference to your letters Nos. 1024 X and 1264 X of 21st July and 19th October 1888, respectively, I have the honor to inform you that I have valued the work done at the Bezváda and Dowlaishweram presses from January to June 1888 and both presses are worked at a great loss to Government. At Bezváda, the value of work done for the half year is Rs. 211-1-0 and the estimated cost of establishment and sundry articles is fixed at Rs. 372-8-0; at Dowlaishweram the value of work done for the same period is Rs. 287-8-9 and the establishment and articles are fixed at Rs. 504.

2. If it is decided to maintain these presses, more work should be sent for printing to keep the establishment fully employed. At Bezváda the sundry charges can be reduced by Rs. 36 and the pressmen's salaries from Rs. 14 to Rs. 12; at Dowlaishweram the establishment should be reduced to the same strength as at Bezváda.

3. Of the accompanying statements marked A, B, C, A and B show how the accounts in each office are to be kept and C is a sample work-book with rates for valuing the work.

4. All the papers forwarded for reference with your letters under reply are herewith returned.

Forms of 5 columns with one or two columns of plain matter .. .. Forms of 6 to 11 columns with or without one column of plain matter	0 12 0	0 10 0	1 4 0	1 14 0
Forms of 6 to 11 columns with two or three columns of plain matter	0 15 0	0 12 0	1 8 0	2 4 0

(1) Letter heads of note-paper size to be valued at 4 annas.

(2) Envelopes and small covers to be valued at 4 annas, large covers at 6 annas.

(3) Half-page foolscap dockets to be valued as half a page; if only a quarter of a page in length to be valued as a quarter page.

(4) Foolscap letter headings to be valued as half page of foolscap folio; when tail pieces are added to be valued at ¾ of page of foolscap folio.

Press work.—Every 250 impressions to be valued at 8 annas up to 1,000 impressions; after the first thousand 4 annas to be charged for every 250 impressions.

Work-book of Public Works Department Press at with valuation.

Month and date.	From whom.	Description of forms.	Consecutive number of jobs.	Size of forms.	Number of copies.	Date of despatch.	Impressions.	Setting charge.	Striking charge.	Total.	Remarks.

NOTE.—At the end of the month, total the value of work done and deduct the charges, viz., establishment, contingencies, &c., and the difference will be profit or loss.

Office-note from the Chief Engineer for Irrigation, dated 2nd February 1889, No. 29.

I have no hesitation in saying that the presses in connection with the Superintending Engineers' offices are worth keeping up, even though the valuation of the work done shows it to be somewhat expensive. I would *not* provide them with vernacular type and so let them grow into big offices; any alteration should be in the direction of reduction not expansion, as private presses are springing up in places near at hand. The work-book form, suggested by the Press Superintendent, might be brought into use, but I do not anticipate any important results from the introduction of a new form. Everything depends on the personal attention of the officers concerned to the matter of making most use of these presses and keeping down their cost.

3

Order—dated 14th February 1889, No. 429 W., Public Works.

The establishment of the printing presses attached to the offices of the Superintending Engineers at Dowlaishweram and Bezváda will be reduced as suggested in para. 2 of letter from the Superintendent, Government Press No. 2995, dated 3rd December 1888, and the working forms mentioned in para. 3 of the same letter will be adopted forthwith.

2. The Government do not approve the suggestion that the presses should be supplied with vernacular type.

3. In submitting the next annual estimates for the maintenance of the two presses, the Superintending Engineers concerned must show good cause for their further upkeep.

5th October 1889, No. 2778 W., Public Works.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

Read—again the following papers :—

Proceedings of Government, dated 14th February 1889, No. 429 W., Public Works.
" " " 13th July 1889, No. 1862 W., Public Works.

Read—also the following paper :—

From J. HANNAN, Esq., Superintending Engineer, II Circle, to the Chief Engineer, Public Works Department, dated 19th September 1889, No. 1361 K. S.

I have the honor to forward herewith, for your approval and sanction of Government, an estimate, amounting to Rs. 712, for the annual maintenance of the Public Works Department Printing Press at Bezváda. The amount of the estimate is the same as that sanctioned for last year in G.O., No. 2173 W. of the 17th July 1888, the scale of office establishment being the same.

2. With reference to para. 2 of G.O., No. 429 W. of the 14th February 1889, directing certain reductions in the Press establishment, &c , I have to state that the salary of pressman now employed is only Rs. 10 against Rs. 12 fixed in the above Government order. As regards the reduction in sundry charges of Rs. 36 proposed in the above Government order, I beg to state that the number of articles required being considerable, and the amount of Rs. 124 being made up of small amounts for each article, no reduction is possible. I request, therefore, that the sum of Rs. 124 usually allowed may be sanctioned.

3. As regards para. 3 of the Government order quoted in para. 2 above, requesting me to show good cause for the further upkeep of the Press, I have to state that I consider that the Press is worth keeping up, as it will facilitate work and will be a convenience in printing the forms required by the five divisions in this circle with a despatch and accuracy probably not attainable at presses not under our control. This, taken with the consideration that Government has already gone to cost of purchasing type, seems to me sufficient ground for its maintenance.

4. I send herewith a statement of proposition for Rs. 588 for the establishment required being sanctioned under temporary establishment agreeably to the instructions contained in G.O., No. 1318 W. of the 17th May 1889. The balance, viz., Rs. 124 (712—588), is to be sanctioned under office contingencies of the Kistna Eastern division, to which the Press is attached in this circle.

Order—dated 5th October 1889, No. 2778 W., Public Works.

The statement of establishment, amounting to Rs. 588, required for the Bezváda Printing Press during 1889-90, is sanctioned and registered as Provincial No. 40 W. of 1889-90, Establishment, Temporary. The balance, Rs. 124, of the estimate for the upkeep of the Press will be charged to office contingencies.

5

2. The Government considers that the reasons urged for the continued maintenance of the Printing Presses both at Bezváda and Dowlaishweram are inadequate, and directs their abolition from the 31st March 1890. The Superintending Engineers, I and II Circles, will accordingly arrange for the sale of the plant and the discharge of the establishment by that date.

DOWLAISHWERAM, 13th April 1889

SIR,

With reference to G. O No. 429 W. dated the 14th February 1889, I have the honor to submit herewith an estimate amounting to Rs. 612 for the maintenance* of the press attached to this Office and to request sanction for the same. The cost of the Press Establishment has hitherto been at Rs. 78 per mensem, exclusive of sundry charges. but the estimate now submitted provides for the Establishment at a cost of Rs. 49 per month, which is the amount of the Establishment charges of the Bezwada Press. The contingent charges Rs. 2 per month provided in the estimate are for leather cotton cocoanut oil soap &ca.

*For 1889-90.

I have the honor to be,
Sir,
Your most obedient Servant
D. McN. Campbell Major R.E.
Supg. Engr. 1st Circle.

THE CHIEF ENGINEER
PUBLIC WORKS DEPARTMENT.

DOWLAISHWERAM, 13th May 1889.

SIR,

With reference to your Memorandum No. 2090C. dated the 30th April/89, I have the honor to state that the Printing Press attached to this office has been found useful in printing forms and Circulars &c required for this and the Divisional officers and that it has been in existence for the last 30 years and I therefore recommend that the estimate submitted with my letter No. 30 dated the 13th April/89 may be sanctioned. It is believed that on that small estimate the work can be done cheaper than elsewhere and with less delay.

I have the honor to be
Sir,
Your most obdt Servant

D. McN. Campbell
Major R.E.

Madras, 19th June 1889.

Office Note No. 857

To

W.

With reference to G.O.No.1506 W dated 6th.June 1889 sanctioning an estimate for Rs.612 debitable to establishment "contingencies" for the maintenance of the press attached to the office of the Supg.Engineer Ist.circle during 1889-90, I beg to point out that under code para 826 as modified by × standing order No.656, the salary portion of the estimate is chargeable to establishment "salaries" and should be sanctioned by Government as temporary under code para 183.

2. The other charges for oil, soap etc. can be sanctioned by the Supg. Engineer Ist.Circle and charged to the contingencies of his office.

Note.

The establishment required for the Press attached to the Office of the S. E. I Circle was sanctioned as usual under "Office Contingencies" vide G.O. No: 1506 W d/6 June 1889

The Examiner in his office note No: 857 d/19th June 1889 brings to notice that the establishment in question should be sanctioned under Temporary with reference to Standing Order No: 836 which was not received in the Secretariat before the 22nd June 1889.

Draft order revising G.O. No: 1506 W d/6th June 1889 is accordingly submitted for approval.
