6. Under "Civil Works" the demands for Original Works, Telegraph, amount to Rs. 1,257, but in the case of items 2, 3 and 4 no appropriation is necessary under Code para. 1908, part III. The Superintending Engineer, IV Circle, will apply to the Director-General of Telegraphs for the allotment required for alterations to the outhouses attached to the Telegraph office at Ootacamund.

7. The demands under Postal repairs amount to Rs. 7,730 against the budget grant of Rs. 9,000. As the requirements under Telegraph repairs are much in excess of the budget provision, the sanction of the Government of India to the transfer of Rs. 1,000 from Postal to Telegraph repairs will be separately applied for. Of the balance Rs. 8,000 thus available under Postal repairs, allotments have been made to the extent of Rs. 7,730 applied for by Superintending Engineers and the Consulting Architect, and the difference Rs. 270 will be held in reserve.

8. The demands under Telegraph repairs amount to Rs. 5,010, while the budget grant is only Rs. 4,000. The latter sum has been distributed to all the divisions, except the Architect's, for which the necessary allotment will be made on receipt of the sanction of the Government of India to the transfer of funds proposed in para. 7 of these Proceedings.

9. As the system of distributing the repair grants in the statements of demands is productive of inconvenience, these grants will be finally distributed in the budgets of ensuing years. Superintending Engineers and the Consulting Architect to Government in framing their budgets of future years will carefully consider the requirements under Repairs and include the same in their budget estimates.
