GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following papers:—

From J. W. RUNDALL, Esq., M.I.C.E., Superintending Engineer, VI Circle, to the Chief Engineer, Public Works Department, dated Kumbakonam, 9th May 1888, No. 72 R.N.

I have the honor to submit the accompanying statement of demands for incomplete major works of 1887-88 in the Ramnad Division, for which funds are required in the current year.

2. In the budget-estimates submitted on the 8th October 1887, in Nos. 213 R.N. and 214 R.N. (on which no orders have yet been passed), no provision was made for the works in the present statement; specific allotment for each of them is necessary in order that the current year's outlay thereon may be admitted by the Examiner.

3. For several of the works, proposed in the budget, estimates have not yet been prepared, and it is not likely that several of them can be put in hand this year. The present Executive Engineer has, therefore, been ordered to submit, in consultation with the manager of the estate, a revised scheme of expenditure for the current year; but, pending receipt of the same, it is necessary to proceed with all works and repairs that remained incomplete on the 31st March 1888.

From the same officer, dated Trichinopoly, 28th June 1888, No. 164 R.N.

In continuation of my No. 72 R.N., dated 9th May 1888, giving cover to a statement of demands for incomplete major works of 1887-88 in the Ramnad Division, and with reference to G.O. No. 1602 W., dated 2nd June 1888, I have the honor to submit, for early orders of Government, the accompanying revised scheme or budget-estimate of works proposed to be carried out in that division during 1888-89.

2. The present budget is in supersession of the statement of incomplete works above referred to, and of the original budget-estimate approved by Government in their order No. 1544 W., dated 25th May 1888. It has been prepared by the Executive Engineer Mr. Jopp, in consultation with the manager of the estate, and provides for all works and repairs which are considered necessary, and which, it is hoped, can be carried out.

3. The revised budget amounts to Rs. 95,571; of this Rs. 68,636 are required for works and repairs that remained incomplete at the end of March last, leaving the remainder, Rs. 26,935, for fresh works and repairs to be put in hand this year.

4. When the original budget, which amounted to Rs. 1,50,000, was prepared, Mr. Target, the then Executive Engineer, probably anticipated and being able to do more work last year, and therefore that the demands for incomplete works would not amount to so large a sum. It moreover includes several works for which estimates could not be got ready in time. The latter have been excluded in the present budget, as it is necessary that incomplete works should be proceeded with in preference. The last year's short outlay and the consequent high demand this year for incomplete works were chiefly due to scarcity of labor and to the utter want of interest on the part of ryots in the safety of their irrigation works; it is not, therefore, advisable to start too many fresh works, as the original budget contemplated, and leave them all or most of them incomplete at the end of the year.

5. The present budget, however, provides for some fresh minor works which are considered necessary, and for which estimates are being prepared; also for emergent agricultural works which are not at present foreseen. Under buildings a provision of Rs. 4,500 is made for a bungalow for residence of the Executive Engineer. This is much needed. At present the Executive Engineer is put to great personal inconvenience in not having a house or any accommodation. The estimate for the building is under preparation by the Executive Engineer, and will be submitted for sanction in due course.

6. It has been lately settled that this department should carry out certain devastanam works (Civil Buildings), to the inspection of which no objection will be taken; provision for such works is also made in the present budget.

P.S.—Since the above was written I see from the Gazette of 26th that Supervisor Vaithilingam Pillay, whose transfer to Ramnad Division was notified in my No. 133 R.N. of the 16th instant, has been posted to the Periyar project. The Executive Engineer will not be able, unless he is assisted by a competent staff, to carry out the programme of works now forwarded. He has hitherto had most inferior Overseers. I request, therefore, that a capable upper subordinate of the Supervisor or Sub-Engineer grade (Native) be posted at once to Ramnad Division.

2. Unless this is done, the expenditure of the sum now asked for is improbable.

ENCLOSURE.

PART I.

Forwarded.

OOTACAMUND,
23rd July 1888.

(Signed) C. A. GALTON,
Ag. Secretary to Government.

ORDER—dated 14th August 1888, No. 2477 W., Public Works.

With the first of his letters above recorded, the Superintending Engineer, VI Circle, submitted a statement of demands for incomplete major works of 1887-88 in the Ramnad Division, and with his second letter he submits a fresh programme of works in supersession of the statement of incomplete works referred to above, and of the budget-estimates for 1888-89, circulated with G.O. No. 1544 W., dated 25th May 1888.

2. The revised scheme, however, amounts to Rs. 95,571 only, while the lump sum provision assigned by the Court of Wards, in their Proceedings noted in the margin, for works in the Ramnad estate during 1888-89 is Rs. 1,50,200. No further
- No. 1276, dated 18th June 1888.
" 1391, " 2nd July "

action is, therefore, necessary. The excess provision of Rs. 54,629 or Rs. 67,194 inclusive of the per-centage charge for "Establishment" is replaced at the disposal of the Court of Wards, to whom the list of works referred to in these Proceedings will be communicated, through the Revenue Department, for information.

3. The postscript to the Superintending Engineer's letter of 28th June 1888 will be communicated to the Chief Engineer for attention.

Account.

READ—the following papers:—

From W. JOPP, Esq., Executive Engineer, Ramnad Division, to the Superin-
tending Engineer, VI Circle, dated 14th December 1888, No. 2669 R.N.

In submitting the enclosed revised statements of demands and savings for the
current year, I have the honor to state that the first modification statement, forwarded
with this office No. 1636 of 18th September last, has not as yet been sanctioned and
it has since become useless.

I beg, therefore, that the present modification statement may be substituted for
the first one and early sanction obtained for it. The expenditure is being incurred as
per the present rearrangement of allotments.

* Sanctioned in G.O., No. 2477 W., of 14th August 1888.

(Signed) W. JOPP,
Executive Engineer.

1944

Explanatory remarks on the statement of savings or second modification statement.

Item 1.—This work was delayed in starting in consequence of a request by the manager of the estate to deviate from the sanctioned plan. Thus most part of the working season was lost and expenditure will in consequence fall short.

Item 2.—The Court of Wards not having yet sanctioned the estimate, it is presumed that they do not intend to do so. The grant is, therefore, surrendered.

Item 3.—This reduction of grant is due to the abandonment of the original intention of constructing granaries at Mudukkancolam and Anaikulam owing to there not being time to complete them before the minor zemindar's attaining his majority.

Item 4.—The greatest difficulty has been experienced ever since the work was started in obtaining labor, and the best part of the working season having passed the whole grant cannot possibly be utilized; hence the necessity for the reduction.

Item 5.—Minor works.—Ain and Devastanam.

Item 6.—Do.

Item 7.—The reduction is caused by a saving on certain estimates.

Item 8.—The surrender proposed is due to one tank having become full, thus preventing further progress on the masonry works in it.

Remarks on the statement of demands.

Item 1.—It has been found necessary to revise the estimate, which was found to be exceeded by various causes. The increase in grant is, therefore, necessary in order to complete the work. Revised estimate of Rs. 6,590 submitted for sanction.

Item 2.—The increase is necessary as certain works are put in hand, which, at the time of preparing the budget, there was doubt whether the Public Works Department would be allowed free inspection of.

Items 3, 4, 5, 6.—Better progress having been made on these works than was anticipated, increased allotments are asked for.

Item 6a.—Required to start the work.

Item 7.—The increase is necessary for paying for work done on certain temples, &c., to which the inspection of Executive Engineer was refused and the amount of which could not be accurately ascertained at the time of preparing the budget.

Item 8.—Better progress has been made on most works than was anticipated, hence the necessity for increases.

(Signed) W. JOPP,
Executive Engineer.

OFFICE OF THE SUPERINTENDING ENGINEER,
6TH CIRCLE.

Camp: Kodaikanal 22nd June 1889
Recd 24th

No. 116RN

From Mr. C. B. M. Smith R.E.

The Superintending Engineer,

6th Circle.

To

The Chief Engineer
P. W. D.

Through the Examiner
P. W. Accounts

Sir,

ENCLOSURES.

For improvements to the Ramnad Large
Tank in the Ramnad Division, Rs. 6,500 were
granted for the last year in G.O. No. 2477
of 14th August 1888 and 422.W of 2nd February 1889,
but Rs. 7056 were spent by the Secy. Engineer
up to the 31st March last against that grant.
It is observed that a large sum was
spent late in March when there was no
time to apply for an additional grant.

In incurring the excess outlay, the Executive
Engineer appears to have had in view the
desirability of pushing on with Major Works
to their completion before handing over
the State to the Zemindar.

I have the honor to request,
under para 1969 of the D. W. Code,
sanction to the outlay of Rs. 556 incurred
in excess of the grant.

I have the honor to be,
Sir, most respectfully,
Yours truly,
C. B. M. Smith
Superintending Engineer
