GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following papers:—

From Lieut.-Colonel A. C. SMITH, R.E., Superintending Engineer, VI Circle, to the Chief Engineer, Public Works Department, dated Ammayanayakanúr, 5th July 1889, No. 732 T.J.

Adverting to G.O., No. 2221 W., dated 20th July 1888, I have the honor to submit herewith six plans and an estimate, amounting to Rs. 9,910, for repairing the palace buildings at Tanjore.

2. The estimate provides for demolishing and repairing the buildings noted below and the report attached to it fully explains the necessity for the work:—

	RS.
(1) Upper arched buildings round the courtyard in front of Rajah's hall	3,900
(2) Basement and upstairs buildings round Rajah's hall	790
(3) Arched rooms along the western side of Jarenthkan	1,130
(4) Arched room on the south side of Arsenal	375
(5) Princess Durbar hall	290
(6) Arcaded room on the south side of library	325
(7) Clock tower	2,180
(8) Archways in the Princess Durbar hall	920
Total	9,910

3. The estimate is countersigned by the Government Agent, Tanjore, in token of his approval.

4. In the statement of demands for repairs during the current year, submitted in this office No. 279 T.J., of the 10th May 1889, Rs. 3,000 were applied for for the Tanjore division; if the estimate now submitted is sanctioned in time, I would request sanction to an additional grant of Rs. 4,000.

Note by the Chief Engineer, General, Buildings and Roads Branch.

It is observed that more than half the amount of proposed expenditure is made up under the head "Demolition," and the rate allowed, which, it is assumed, is approximate, is as high as 1 anna 3 pies per cubic foot or Rs. 2-1-9 per cubic yard. The allowances for petty supervision and contingencies are also very liberal, and in these circumstances it is considered advisable that the work of demolition should be carried out by departmental agency, and not entrusted to a contractor. With an energetic subordinate to look after the work, a large saving under this head will, it is thought, be effected.

(Signed) R. R. E. DRAKE-BROCKMAN, Lt.-Col., R.E.,
Chief Engineer, P.W.D.
17th July 1889.

ORDER—dated 23rd July 1889, No. 1978 W., Public Works.

The estimate, amounting to Rs. 9,910, for repairing the palace buildings at Tanjore, is sanctioned.

2. The work of demolition should be carried out by departmental agency as suggested by the Chief Engineer.

3. The allotment of Rs. 4,000 applied for by the Superintending Engineer in addition to the grant of Rs. 3,000 provided for the Tanjore division in the orders on the statements of demands, cannot be given at present. The question will be considered later in the year if funds become available.

4. This sanction has been registered as Provincial No. 41 W. of 1889-90, and classified as Civil Buildings, Repairs.

Dated 5th July 1889

From the Supg. Engr. II Civil

Sanction. The additional
grant of Rs 4,000 for the current year
has been approved.

NOTE OF REMARKS.

The Est. under review
amounting to Rs 9,910
provides for repairing
the Palace buildings
at Jangoi.

The Est. is divided
as follows -

- (1) Repairing upper and lower
building round
the Court yard in
front of Rajah's Hall - 3900
 - (2) Repair to basement
and upper building
round Rajah's Hall - 790
 - (3) Repair to arched
rooms along side
of the Jangthi Kan - 1130
 - (4) Arched room on
the South side
of Arsenal - 375
 - (5) Prince's Durbar Hall - 290
 - (6) Arched room on the
South side of library - 325
 - (7) Clock Tower - 2100
 - (8) Archways in the Prince's
Durbar Hall - 92
- Total Rs 9910

It is explained in this report accompanying Mr. Est: that the buildings are in very bad order and are very much in need of repairs.

The following rates are in excess of the rates given in the schedule.

(1) Excavating foundations Rs 4 per 1000 ft. against Rs 3-00 in the schedule for the Tanjore Div.

(2) Demolishing brickwork Rs 7-13-00 per 1000 ft. against Rs 2-1-00 - It is probable that the work done in this particular instance is greater in the upper story & that the load is considerable. There are similar items in the Est: with varying rates.

(3) Sanding Rs 16 per 1000 ft. for work for this item is given in the Est: - The unit adopted is incorrect. It should be 1000 ft. instead of 1000 cft.

Contingencies & P.L. Super. vision are charged for

at 5% + 3% per cent respectively.

The Est: has been examined and being Mr. Est: Agent Engineer

C. M. P.
