Sir,
I have the honor to acknowledge your

No 228 NL dated 18th June 189 and bearing
Executive Engineer Nellore Division Encl.

No 4992
27.6.89

2. You are so good as to offer to send on an application for my transfer to Chottern India.

3. If such transfer can be made at the public expense, I shall be much obliged if you will ask Government to have me transferred to Chottern India.

4. I do not base this request on any consideration for my health

5. I make the request on the following grounds.

frontiers - As far back as 1884, the Government of India called for volunteers to serve beyond the North West Frontier on the defence works. I volunteered for this work and my services were accepted in February 1886, and from that date till July 1889 I served on the North West Frontier. It is well known that the work done there was of a most arduous nature. The service was temporary and it was understood that at its conclusion I should return to Bengal. So far however from this being the case, I was transferred to Railways, and at the end of my services beyond the frontier, I found myself again transferred for temporary service in Madras.

I think therefore, considering the circumstances under which I left Bengal and further that I won my appointment in that popular province by my position in passing out from Cooper's Hill College. I may reasonably ask Government to permit me to return to the Irrigation Branch of that Province at the public expense.

6. On the North West Frontier, I was engaged

2000

in the Frontier Road Circle. The Engineers who were employed on the Railways were very substantially rewarded in various ways. We of the Frontier Roads had no rewards. We at least supposed that we should ~~reward~~^{meet} with so much consideration as be allowed to return to the provinces of our choice when our services were no longer required. Some of these Engineers was not allowed this privilege. Government, I think, recognized this claim. Mr Davies my late Executive Engineer was ordered to Madras at the same time as myself. He however, had time to protest against this transfer and Government recognized his claims to return to Bengal. I received my orders to go to Madras by telegraph and had neither time nor opportunity to lay my case before Government, though I came to Madras very much against my will. 4

7. To recapitulate, I respectfully request the Government to take into consideration my voluntary services beyond the North West Frontier and as

Some slight recognition of them to
permit me return to the Bengal
Irrigation Branch, which Branch
I only left to serve temporarily over the
North West Frontier.

8. Finally should I continue to
serve in Madras while my name still
remains on the Railway list, I have
no prospect of promotion, as promotion
in the Railway is very backward and
many of my juniors here will become
Executive Engineers while I shall remain
an Assistant Engineer and may possibly
serve under them.

9. If I cannot be transferred to
Bengal, I should be willing to serve
in the North West Provinces or in the
Punjab.

I have the honor to be,
Sir,

Your most obedient Servant
