Forwarded, observing that the
range of the light is six miles and
not 19 as stated by the Executive
Engineer; that the light is intended
to warn vessels of the dangerous
shoals in the vicinity, and that
it is besides one of Chance Brothers
for which a lantern is not
necessary.

2. A wooden dome to keep off the
rain might be placed over the lantern as
at Tellicherry and Cannanore. The
wooden trestle should be secured
and the ladder fixed. An estimate
for carrying out this work might
have been submitted with the report.
