2014

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

Read—the following paper:—

From Colonel J. PENNYCUICK, R.E., Superintending Engineer, Periyár Project Works, to the Chief Engineer, Public Works Department, dated Kodaikánal, 13th June 1889, No. 986 P.R.

I have the honor to request the sanction of Government to the establishment of two sub-divisions, additional to the two now existing in No. II division.

2. The two existing sub-divisions practically cover the first reach of the main channel and the first branch channel; the work on the second reach of the main channel now forms a third sub-division under the direct charge of the Executive Engineer—an arrangement which I consider undesirable for many reasons; the extension of work to the third reach requires a fourth sub-division.

3. I have satisfied myself by personal inspection and inquiry that this arrangement is desirable.

4. I take this opportunity of pointing out that there is at present no Assistant Engineer attached to this division, and that it is highly desirable that two should be posted as soon as possible.

5. One of these should be an officer of sufficient standing to take charge of the division in case of the absence of the Executive Engineer—a contingency which the state of the latter's health renders not improbable.

6. The scale of establishment attached to my report of 1882 provides three Assistant Engineers for this division; but two will, I think, be enough. I of course count Mohmed Quasim Sahib against the sanctioned scale of subordinate establishment and not as an Assistant Engineer.

Order—dated 26th July 1889, No. 2014 W., Public Works.

The proposal of the Superintending Engineer, Periyár Project, to form two additional sub-divisions in No. II division is sanctioned.

2. Since the date of the Superintending Engineer's letter, Mr. G. P. Carless, Executive Engineer, has been posted to No. II division as an attached officer, and the question of transferring an Assistant Engineer to it as early as possible will be kept in view.

G.O., 26th July 1889, No. 2014 W.

JULY.

Additional Sub-Divisions in No. II Division, Periyar Project

Proposal to form two —, sanctioned with remarks as to posting of officers to the sub-divisions.

16th June 1888, No. 1791 W., Public Works.

2014

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

Read—again the following :—

G.O., dated 8th February 1888, No. 456 W., Public Works.

Read—the following paper :—

No. 12 E.W.

Note by the Chief Engineer for Irrigation.

The Superintending Engineer, Periyár works, in his programme of work proposed to be done on the project during his absence in England, forwarded with letter No. 498 P.R., dated the 7th instant, states that the existing establishment for the Periyár division will, up to the end of May next, be sufficient, except that one or two subordinates may be required whose entertainment may be sanctioned on receipt of an application for their services when found necessary.

2. The Superintending Engineer proposes the formation of a second division for work in the plains ; this to have effect from the date on which the establishment of the first division returns to the Periyár valley to resume the work there. This proposal is approved. Two more Overseers, at Rs. 100 each, for the first division and the following establishment for the second division will be required from 1st June next :—

1 Executive Engineer, 4th Grade.
1 Assistant Engineer, 2nd „
1 Supervisor.
2 Overseers.

A 1st-class division office establishment may be allowed to each of the first and second divisions, the salaries of the appointments being fixed at the average rates for the various grades, as no increments are admissible to members of the temporary establishment.

3. The following office establishment for the Superintending Engineer from 1st July next, the probable date of his return from England, may also be sanctioned :—

	RS.
1 Head Clerk	100
1 Clerk	60
1 Do.	40
1 Draughtsman	60
2 Messengers, Rs. 10 each	20
4 Lascars, Rs. 9 each	36
Total ...	316

4. A proposition statement showing the present and proposed establishments is enclosed. Later on, when the works get into full swing, the necessity for a further increase to the establishment may be considered. It is suggested that at least half the number of upper subordinates may be men of the permanent establishment with some experience.

1 A

5. The Superintending Engineer suggests that, during his absence, the Executive Engineer of the Periyár division may be placed under the immediate orders of the undersigned, and be vested with the powers of a Superintendent of Works under para. 240 of the Public Works Code. This proposal is approved on the understanding that no claim for higher salary or allowance for exercising special functions will be preferred on behalf of the Executive Engineer.

Chepák,
24th January 1888.

(Signed) H. R. MEAD, Colonel, R.E.,
Chief Engineer for Irrigation.

To the Chief Engineer, Public Works Department.

Order—dated 8th February 1888, No. 456 W., Public Works.

During the absence in England, on special duty, of Colonel Pennycuick, R.E., Superintending Engineer, Periyár Project Works, the Executive Engineer of the Periyár division will be under the immediate orders of the Chief Engineer for Irrigation, and will exercise the powers of a Superintendent of Works, as defined in para. 240 of the Public Works Code. It must be understood, however, that this order gives the Executive Engineer no claim to extra allowances on account of the special powers temporarily vested in him.

2. Orders will be passed hereafter on the other points in the Chief Engineer's Note above recorded.

(True Extract.)

(Signed) W. L. C. BADDELEY, Captain, R.E.,
Under-Secy. to Govt , P.W.D.

Read—also the following paper :—

From H. S. TAYLOR, Esq., Superintendent of Works, to the Chief Engineer for Irrigation, dated Madura, 19th May 1888, No. 128 P.R.

I have the honor to forward herewith, for early sanction, a revised proposition statement showing the temporary establishment required for the Periyár project works for the year 1888-89, as requested in your memorandum No. 45 M.D., of 12th instant.

No. 51 E.W.

Forwarded to the Chief Engineer, Public Works Department, with the recommendation that the temporary establishment proposed for the Periyár project may be sanctioned from 1st June next or from the date of entertainment.

Chepâk,
29th May 1888.

(Signed) C. J. SMITH, Colonel, R.E.,
for Chief Engineer for Irrigation.

From the Examiner of Public Works Accounts, dated 7th June 1888, No. 1616.

Order—dated 16th June 1888, No. 1791 W., Public Works.

The statement, printed above, of temporary office and menial establishment required for the Periyár project works during 1888-89 is sanctioned with effect from date of entertainment.

2. The formation of No. II Periyár division for work in the plains is also sanctioned. The existing division will hereafter be known as No. I Periyár division.

Mr. C. A. B. Target, Executive Engineer, 1st grade, has been posted to the charge of the second division, and the additional executive staff will be ordered to the works as early as practicable.

3. The salary of an Apothecary on Rs. 50 per mensem, now attached to No. I division, has been omitted from the statement. The Superintendent of Works will submit a supplemental statement showing the subordinate medical establishment required for the works.

4. The Examiner, Public Works Accounts, will submit proposals for the accounts establishment needed for the new division.

5. The sanction accorded in para. 1 of the Proceedings has been registered as Provincial No. 23 W. of 1888-89, and classified as establishment temporary.

Orders sanctioning the statement of temporary establishment required for the —, during 1888-89, and the formation of No. II Periyár division for work in the plains.

16TH JUNE 1888, No. 1798 W., PUBLIC WORKS.

2014

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

READ—the following paper:—

No. 55 E.W.

Note by the Chief Engineer for Irrigation.

The following is the establishment that will be required for the Periyár Works—*see* Statement III, page 7, of the Periyár report:—

—	On the Hills.	On the Plains.	Total.
Superintending Engineer	1	...	1
Executive Engineer	1	1	2
Assistant Engineers	2	3	5
Mechanical Engineer	1	...	1
Sub-Engineer	1	1	2
Supervisor	1	1	2
Overseers	5	6	11

Most, if not all, of this establishment will be required in the course of the official year, and I would suggest that Government may be asked to sanction its entertainment as it is required. I suppose it will be made up partly from officers transferred from other provinces and by temporary appointments, some of the temporary men appointed being employed elsewhere in the place of men on the permanent list transferred to the Periyár.

2. The establishment appointed will be, of course, at the disposal of the Superintending Engineer for employment on the hill or in the plains as he thinks best.

3. At present the following establishment is employed on the Periyár:—

1 Superintending Engineer.
1 Executive Engineer.
2 Assistant Engineers.
2 Overseers.

Up to March they were employed on the hill, since that they have been at work in the plains near Madura; they all belong to the permanent establishment, and their transfer to the Periyár has crippled the work in the other divisions, as the permanent establishment is not large enough to allow the services of four officers and two upper subordinates being taken away from their ordinary duties. As this is the case, I would suggest that, as soon as possible, temporary men may be appointed in their place.

5

4. In Colonel Pennycuick's Note, dated 7th January 1888 (paras. 5 and 6), printed in G.O. No. 69 I., dated 30th January 1888, the following establishment in addition to that already on the works is asked for in this month (June):—

2 Upper subordinates for work on the hill.

For the second division in the plains—

1 Executive Engineer,
1 Assistant Engineer,
3 Upper subordinates,

and these should all join as soon as practicable.

Arrangements have been made, I believe, for an Executive Engineer and two Assistant Engineers to join in July. It is to be regretted that one of them cannot join at once to take over the work of demarcation, &c., that has been commenced in the plains. I have directed, until the Executive Engineer or one of the assistants join, that the Executive Engineer, Mr. Taylor, in charge of the hill division (who will probably move his party up to the hill before the end of the month), should leave one of his assistants in charge, so that the work in the plains may be properly handed over as soon as another assistant joins.

5. I request that arrangements may be made for the posting of the five upper subordinates required as soon as possible, three of them should join before the end of the month. I would propose they should consist of—

1 Sub-Engineer,
1 Supervisor,
3 Overseers,

6. When more establishment is required application will be made; but as suggested in para. 1, sanction of Government is asked for the whole establishment required, so that they may be appointed by the Chief Engineer as required without the necessity of special sanction being required in each case.

OOTACAMUND,
12th June 1888.

(Signed) H. R. MEAD, Colonel, R.E.,
Chief Engineer for Irrigation.

To the Chief Engineer, Public Works Department.

ORDER—dated 16th June 1888, No. 1798 W., Public Works.

The formation of the second Periyár division should be proceeded with at once. The Government are now in correspondence with the Government of India in regard to providing officers of the engineer establishment for the works. The Chief Engineer will arrange for posting the requisite upper subordinate establishment as soon as possible.

2. The office establishment required for the project has been sanctioned in G.O. No. 1791 W., dated 16th June 1888.

Letter—from

Colonel H. R. MEAD, R.E.,
Ag. Secretary to the Government of Madras,
Public Works Department,

To

The SECRETARY to the GOVERNMENT of INDIA,
Public Works Department.

Sir,

I am directed to acknowledge the receipt of your letter No. 2496 G., dated 25th September 1888, and in reply to para. 2 to say that, in the opinion of this Government, the Rushikulya and Periyár divisions should, for purposes of calculation of the scale of Engineer establishment, be classed among the permanent divisions. These divisions must necessarily be maintained continuously for a number of years and be officered to a great extent from the permanent staff; and although, on completion of the works, the scale of establishment will be greatly reduced, and it may then be possible to absorb the works into adjoining divisions. provision will still have to be made for their supervision. The scale of establishment requisite for maintenance purposes can best be considered when the necessity arises.

2. The rearrangement of establishment given in the last column of the statement in para. 3 of your letter under reply is accepted. As regards the number of Assistant Engineers required for sub-divisions, I am to point out that while the total number of permanent sub-divisions is 79, only 31 Assistant Engineers are asked for. The fact that all but 19 sub-divisions are held by upper subordinates goes to show not that no more than 19 Assistant Engineers are needed, but that the scale of Assistant Engineers is much below actual requirements. On return to duty of the Assistant Engineers now away, they would replace upper subordinates in the charge of the more important sub-divisions, the latter being relegated to less responsible charges.

I have the honor to be,
Sir,
Your most obedient servant,

ENCLOSURE

Sir,

I have the honor to request your sanction to the formation of two Sub-Divisions — for the present I would suggest that the first should consist of the headworks and the channel as far as and including the fall — and the second to extend from the fall in the 3rd mile to the end of the first reach and to include the laying out of the channels ready for next year's operations to be under the charge of Mr. Somers Eve — and as the work will be moving next year towards Madura, the first

CS

branch

4

branch channel ending near that place, that his Head Quarters be fixed in Madura — the more so that there is no nearer place where a house can be found. He is well aware that he will have to be almost ~~constantly~~ continually in camp.

I have the honor to be,
Sir,

APA, P97

No. 1057 P.R

Letter No 430 dated 27th October 1888 from the Executive Engineer No 2 Periyar Dn

— 30/11

28/11

Submitted to the Chief Engineer P.W.D with the request that the proposed distribution of sub-divisions which is approved by this office may be sanctioned.

2. If a fixed head quarters for the first sub-division be essential, it should be at Sholavandan; this place is ten miles from the work but there is no town or large village nearer except Nellacotta, and there is no decent road from the latter to the line of the channel.

3. The head-quarters of the second sub-division should be at Madura as proposed by the Executive Engineer.

Sub Divisions — Approves the proposed distribution of — & requests to sanction the same ~~for~~ No II. Periyar Division —

With order

No 986. P.R

Office of the Supg Engineer
Periyar Project Works
Kodaikanal 13 June 89

From
Colonel J Pennycuick R.E.
Superintending Engineer
Periyar Project Works

To
The Chief Engineer,
P. W. Department.
Madras.

Sir,

I have the honor to request the sanction of Government to the establishment of two sub divisions additional to the two now existing in No II Division

2. The two existing sub divisions practically cover the first reach of the main channel and the first branch channel; the work on the second reach of the main channel now forms a third sub division under the direct charge of the Executive Engineer an arrangement which I consider undesirable

undesirable for many reasons; the extension of work to the third reach requires a fourth sub division

3 I have satisfied myself by personal inspection and enquiry that this arrangement is desirable

4 I take this opportunity of pointing out that there is at present no assistant Engineer attached to this Division and that it is highly desirable that two should be posted as soon as possible

5 One of these should be an officer of sufficient standing to take charge of the Division in case of the absence of the Executive Engineer, a contingency which the state of the latters health renders not improbable -

6. The scale of establishment attached to my report of 1882 provides three assistant Engineers for this Division, but two will I think be enough - I of course count Mohmed Quasim Sahib against the

× Vide page 57 of Mr Bourne's Volume relating to Sirhind Project

Sanctioned

Sanctioned scale of subordinate establishment, and not as an assistant Engineer

Sub-divisions in No. II Periyar Division.

Requests sanction of Government to the establishment of two — in addition to those in existence —

With memo

17 O 20/6

Dw.

20/6

As desired, I submit the file relating to the application of two young R.E. officers to join the P.W. Dept.

On looking through the file, I found in it Current No. 5451, which does not appear to have been disposed of.

The S.E. P. Project will want a reply to his request for two more sub-divisions in No. II division. He also wants one more Asst. Engr. for the division.

Proposed to draft an order sanctioning the formation of the two new sub-divisions, & saying that the question of posting another Asst. Engr. to the division will be kept in view.
