No 1277 P.R. 28

Chief Engineer, P. E. Project, Division, to the Secretary, P. E. Project, dated 19 July 1889, No 1426 P.P.

19 July 1889, No 1426 P.P.

With reference to your endorsement to P.R.D/14 June last on Chief Engineer's memo to 2/10/59, I have the honor to report that in order to complete the boats which he had undertaken to construct, the contractor bought at my request the iron in question for the purpose of building the boats. In order to ensure his getting the full amount he may have anticipated would be immediately required, I promised to take over from him the balance which was not used on the boats then in hand.

2. The figures in question represent this balance of the iron then unused, which was taken over from the contractor for future use on boats

3. This might have been
to materials at site for
it was required.

4. That this iron was for
article of European make
and therefore that the transaction
might require the sanction of Govern-
ment escaped my attention.

Copy forwarded to the Chief
Engineer I. W. D. with reference to
his letter 2717C of 10 June 1889 with
the request that the sanction
to which was obtained
to purchase.
