QUARTER MASTER GENERAL'S OFFICE,

Ootacamund,

20th July 1889.

No. 2135 A.

It is requested that the heading, number, and date of this communication may be quoted in any subsequent correspondence on this subject.

From

BRIGADIER-GENERAL M. PROTHEROE, C.B., C.S.I.,

QUARTER MASTER GENERAL,

To

THE SECRETARY TO GOVERNMENT,

MILITARY DEPARTMENT.

SIR,

The padding of gunny-sacking stuffed with sand, with which the sties placed in rear of the horse standings in the Royal Artillery stables at Bellary were originally covered, having been reported by the Officer commanding 3 Battery, 1st Brigade I.A. to be completely worn out, the local Subbi Works Department were called upon by the Officer commanding Bellary, to renew the work, in order to prevent further injury to kicking horses, but the Executive Engineer states, that as the padding is not a fixture, or a part of the buildings, the Subbi Works Department cannot undertake the work.

2. As it is very necessary that the padding should be renewed, I am desirous to solicit the orders of Government, as to whether

the cost of carrying out the work in question, estimates at Rs. 105/-, would be a legitimate charge against the repair grant, or whether it should be met from the grant placed at the disposal of the General Officer Commanding for the execution of "Minor New Works."

3. It is believed that in the first instance, the padding, etc., was put up by the Public Works Department, the cost being met from the sanctioned estimate for construction of the stables.

I have the honor to be

Sir,

Your obedient servant,

Mr. P. M. M. Brig. General.

Your office note No.563 D.dated 24th.
July 1889.

The Executive Engineer Bellary Division appears to have been quite correct in refusing to supply the padding of gunny sacking for the Royal Artillery stables at Bellary required by the military authorities, on the score that it was not a fixture or part of the building.

2. The article is not included in appendix E of P.W.Code and under para IO74 the supply would not devolve on the P.W.Department, and the cost should not be met from any P.W.grant whether for "repairs" or "minor works". The supply apparently devolves on the military department.
