Establishment.

READ—the following papers :—

From G. T. WALCH, Esq., Acting Chief Engineer for Irrigation, Tank Restoration Scheme, to the Chief Engineer, Public Works Department, dated Ootacamund, 12th July 1889, No. 1349.

The services of an additional draftsman being necessary in No. IV Party, Tank Restoration Scheme, for a period of three months, to clear off the arrears of work in hand, I have the honor to submit a proposition statement showing how it is proposed to meet the cost of the appointment from savings already effected, and to request that you will be so good as to obtain the sanction of Government to the same so as to obviate objections on the part of the Examiner of Public Works Accounts.

2. A complete revised statement is not submitted as the proposed appointment is only for three months and the existing sanctioned scale will, in other particulars, hold good.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General-
Establishment.

READ—the following papers:—

Note by the Chief Engineer for Irrigation.

No. 19 E.W.

The accompanying proposition statement of establishment required from 1st March 1889 to 28th February 1890, for the Tank Restoration Scheme, is submitted for the sanction of Government.

2. The first statement printed with G.O., No. 767 L., of 22nd December 1888, shows that the margin between investigation and execution was about 5 lakhs at the end of September 1888. This is considered sufficient, and since the six parties, as at present constituted, turn out estimates exceeding in amount the annual grant available for "works," it is proposed to further reduce the strength of each party to one overseer, three surveyors, and proportionate office and petty establishment. The office and petty establishment may be reduced at once, from 1st April, and reduced provision for these has accordingly been made in the accompanying statement; but as resignations are frequent in the Tank Restoration establishment, it is proposed to effect the reduction among overseers and surveyors gradually, as vacancies occur, and not by dispensing with the services of the extra men at once, since the latter course would only involve the loss of practised men, while the vacancies that are sure to occur in the next few months would have to be filled up by men unaccustomed to the work. It is anticipated that the proposed scale will be worked down to in six months or less; meanwhile the numbers at present actually employed are provided for in the statement.

3. As proposed in the note accompanying G.O., No. 3978 W., dated 19th December 1888, two sub-parties will be started in the Godavari district, from 1st April, one to be under the Executive Engineer, Eastern division, and one under the Executive Engineer, Western division; each sub-party to consist of one overseer, two surveyors, and office and petty establishment. These sub-parties will be furnished with overseers and surveyors by transfer from the existing parties.

4. It is also proposed to start a small party in Vizagapatam district, which will be under the orders of the Executive Engineer, Vizagapatam division, and will similarly be furnished with an overseer and two surveyors from the existing parties, whose proposed reduction will thus be almost wholly effected.

5. The amount of sanctioned estimates in Chingleput being about 4 lakhs in advance of the expenditure up to date in that division, it is considered inexpedient to add to the former by preparing more estimates, many of which would probably be rendered obsolete by breaches, weather, &c., before there can be any hope of their being worked out. It is therefore further proposed to transfer No. II Party on the completion of the Chembrambakam minor basin in May to Tinnevely, in which district it will begin work at the southern extremity, working northwards to meet

3

No. I Party which will shortly be entering the northern part of the district from Madura. No. II Party while in Tinnevely will be under the Executive Engineer, No. I Party, and as No. IV Party will be entering Salem district about the same time that No. II Party moves to Tinnevely, No. V Party (North Arcot) may conveniently be combined under the Executive Engineer with No. IV Party, and one Executive Engineer thus set free for employment on the ordinary Public Works establishment or elsewhere. The completion of Chingleput district may meanwhile be deferred until some of the large amount of estimates relating to it has been worked off.

6. A statement of the upper subordinates required is submitted for the first time; it cannot, therefore, contain a comparison with the "present scale;" it is, however, in exact accordance with present actuals.

7. The estimate for surveyors and for petty establishment chargeable to "works" will be disposed of in the Irrigation Branch.

CHEPÂK,
8th March 1889.

(Signed) G. T. WALCH,
Ag. Chief Engineer for Irrigation,
Tank Restoration Scheme.

To the Chief Engineer, Public Works Department.
