17TH JUNE 1889, No. 1588 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following paper :—

From A. A. JOPP, Esq., Director-General of Stores, to the Secretary to the Government of Madras, Public Works Department, dated India office, Whitehall, S.W., 23rd May 1889, No. S D.O. 2706.

In the indent for stores for the Madras Public Works Department, forwarded with your letter No. 530 W. of the 21st February 1889, a demand occurs (item 427) for 50 feet of wire-netting at an estimated cost of £3-12-11.

2. It is uncertain what description of netting is required, the indent affording no precise information on this point; but I have arranged for the supply of 50 feet of galvanized iron wire-netting 2 feet wide, 1" mesh, No. 18 S.W.G., at a cost of 4s. 2d. in the hope that it may prove suitable.

ORDER—dated 17th June 1889, No. 1588 W., Public Works.

Communicated to the Superintending Engineer, V Circle, with reference to G.O., No. 529 W., dated 21st February 1889. Care should be taken that articles indented for are fully described including the purposes for which they are to be used.

(True Extract.)

(Signed) R. R. E. DRAKE-BROCKMAN, Lt.-Col., R.E.,
Ag. Joint Secy. to Govt., P.W.D.

To the Superintending Engineer, V Circle.

SUPERINTENDING ENGINEER'S OFFICE

V Circle, Madras,

Bangalore 20 July 1889

From

Colonel W. H. Burton R.E.

SUPERINTENDING ENGINEER, V CIRCLE,

To

The Chief Engineer

His Department.

SIR,

Enclosures.

In order that full description of articles required from England be given in the indent. Sent home through Mr. Workshops and my office, it is essential that Executive Engineers and Suptg. Engineer who forward their indents fully describe materials &c they want.

2 It is impossible for the General Superintendent to do more than copy the wording of the indents received from other Circles. I would ask therefore that G.O. No. 1588 W. dated 17th June 1889 be circulated to each of the other Suptg. Engineers and that they be directed to send not only full and ample descriptions

things they want purchased in
 and but state the purposes for
 which required in the case of iron
 rails for instance should be stated
 length, approximate weight per
 lineal foot, safe distributed load
 each will have to carry at any
 particular space, greatest depth
 permissible & so on - generally
 speaking most of these essentials
 are absent from the requisitions for
 English materials

I have the honor to be
 Sir
 Your most obedient servant

W. A. Benton
 Collyer
 Suptg. Engineer to circle

From P. M. C. 8: 7106
 THE SUPERINTENDING ENGINEER,
 V. CIRCLE,

To
 THE Chief Engineer
 W. Department

Dated 30th
 Recd. 1. 8. 89 July 1889.

Enclosures
 No. 2887.

The foregoing letter
 from the Suptg. Engr
 V Circle with a copy
 of G.O. No. 1588W of 17th
 June 1889. will be
 communicated to Suptg.
 Engr of other circles
 for information and
 guidance

It will be sufficient
 to circulate the G.O.
