READ—the following paper:—

G.O., dated 30th July 1889, No. 325, Marine.

From the Presidency Port officer, dated 8th July 1889, No. 103/273 G.

In January last, on the approval of Government conveyed in the order marginally quoted, I sanctioned a sum of Rs. 470 from Port funds for effecting certain improvements to the lighthouse at Negapatam. Since then the following additional improvements have been found requisite, viz.—

- (a) A third iron gaff. This is necessary for hoisting the additional storm signals recently sanctioned by Government.
- (b) A new earth connection for the lightning conductor, which is also necessary.
- (c) An iron railing and gate round the lighthouse column. This is to prevent people getting up the ladder to the roofs of the rooms, and to keep the base of the column clean, which at present is in a very dirty condition.

2. These additional works will cost Rs. 1,230 (*vide* estimate from the Superintending Engineer, VI Circle, herewith sent with accompaniments as per margin). The revised accounts of the outports exhibit a deficit against the ports in the Tanjore district, and the question arises as to how the proposed expenditure is to be met; but the works being all of them necessary,

those under (a) and (b) imperatively so, I see no other way but to suggest that the amount required should be advanced by the port of Madras from the balance of Port funds to the credit of that port. I beg, therefore, that the expenditure may be sanctioned accordingly, and that a further sum of Rs. 417 may be included in the sanction to cover the usual Public Works centage on Rs. 1,700, that is, Rs. 1,230 amount of the present estimate, *plus* Rs. 470 already sanctioned.

Order—dated 30th July 1889, No. 325, Marine.

The estimate is approved and transferred to the Public Works Department.

2. The expenditure, being on account of a lighthouse, will be a general charge against Port funds, and should not be debited to any particular district or port.
