2265 Having ascertained
from the Railway
Time Table that the
distance from —
Tripurati Railway
station to Kanciput
is $7\frac{1}{2}$ miles, I have
put up a scale on
map - 100 chains or
 $1\frac{1}{4}$ miles = 1 inch -
which shews the
distance from
the house of the
Mahant at
Tripurati to Srimisam-
nagarum to be little
over 10 miles -

or 6600 feet = 1 inch
or 10 furlongs = 1 inch
or 100 chains = 1 inch

Government of Madras.

PUBLIC WORKS DEPARTMENT.

To

The Secretary to the Govt of India
P. W. Department.

Ootacamund, 188 .

SIR,

Adverting to your indorsement

I don't see any valid objection to the permission sought. The local boards don't seem to have been consulted, and the objection of the Residents to the posts being set up is frivolous. It can easily be made a condition of the grant of permission that the posts should be removed if at the demand of the local board if necessary arises or any inconvenience is felt. As to the matter being only a copying of the present map and whose tenure of office is uncertain, it does not concern the posts. I forward the application with remarks to this effect. I observe that no scale is given on the map. This scale can be ascertained from some of the known distances - Residants to Tirupathi or Tirupathi to Chendragiri & wherever extent is sent in

N^o 62 of 1st March 1889 on copy of a letter from the Agent and Attorney, Oriental Telephone Company, and in continuation of my letter 507 D of 11th July 1889,

I am now directed to submit copy of a report N^o 842 of 26th July 1889 from the Collector North Arcot; and, in the circumstances mentioned by that officer, to say that

2

11/10/89

His Excellency the Governor
in Council does not
recommend the grant
of a license to the
Oriental Telephone Co. for
the erection of the proposed
line from the house of
the Mahant at Inipati to
Srinivasanagar, a village
about ten miles distant.
