OFFICE NOTE No. 1164.

To Enc 1

W.

With reference to G.O.No.1680W. dated 26th.June 1889 recording Executive Engineer's explanation of the several points noticed in the inspection report of the Buckingham Canal Division dated 12th.December 1888,I beg to offer the following remarks -

2. Para 10 of Examiner's office note dated 10th. May 1889 item 10 of summary. I submit herewith a list of works which are all being carried out on the piece-work system,and as to which it seems desirable that the piece-work agreements should be terminated,and proper contracts entered into,as the works are clearly such as should not be executed by piece-work.

3. Para 11 of office note, item 24 of summary. Further report regarding attestation of service books,will it is presumed be made.

4. Para 12 of office note, item 25

of summary. It is not clear whether the Executive Engineer is now observing the rule or not. It has been settled that these petty travelling allowance claims have to be test audited at inspections and this cannot be done unless the information required is furnished in the manner prescribed.

5. The other items call for no further remarks.
