Superintending Engineer's Office,

3RD CIRCLE.

Bellary 22^d June 1889.

FROM.

Col W. Smalley R 2

SUPERINTENDING ENGINEER

IIIRD CIRCLE.

To,

THE Chief Engineer

P. W. Department

In order as

Sir,

Referring to R.O. No 479th of 16th February 1889
I have the honor to return the Inspection Report
of the Turnout Division and the summary
together with the Executive Engineer's replies
to the various points referred to in the summary
2. The present Executive Engineer is taking
stock of the Company's stores with a view to
valuing them. The special attention of the present
Executive Engineer has been directed to the
submission of estimates in good time for
annual repairs of boats and to accounting for
discrepancies in the Tools return.

I have the honor to be
Your most ^{Per} Obedient servant

H. Mallety Colld
Superintg Engineer & C. C.

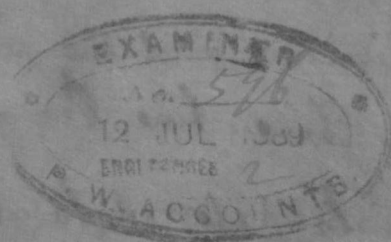

No. 3158 C of 11 July 1889

To

C

For favor of any further remarks you may have to offer.

Wm

D. at.

O. N. 1146 of 16.8.89
L. 2

To W.

Returned with the following remarks:-

2. Item 6 of summary. Code para 434 refers to salaries and to allowances akin to salary. It does not refer to travelling allowances which are dealt with in a separate chapter of the code and for which preaudit is required in all cases.

3. Item 18. The Supg. Engineer might be asked to inquire into and report on the matter, showing clearly (if he concurs in the recommendation) in what respects this division

From, PWC N. 5829
The Superintending Engineer,
IIIrd Circle,
Befery.

differs from others. In any case it would seem to be the duty of the Executive Engineer to observe rules until he obtains exemption therefrom by competent authority.

4. Item 19. Sub-divisional vouchers need not be signed by Executive Engineer, unless the forms specifically require Executive Engineer's signature; but divisional office vouchers should as a rule be signed by the Executive Engineer as soon as possible after payment.

5. Item 24. The Executive Engineer has not explained how the contractor was allowed to commence a work of such magnitude (estimate Rs. 14,234) without first executing a written agreement. This seems a serious irregularity.

6. Item 35. Sanction to the annual repair estimate for current year has not been communicated up to date and the outlay on repairs of boat to end of June 1889 amounts to Rs. 924-3-3. I trust Government will be pleased to issue such orders as will ensure the estimate being sent in without further delay for the current, and a great deal earlier in future years.

7. Item 40. The Executive Engineer has not reported on the item as

2

G. O. Buis 477 W 7/16. 2. 87.

required. He might be instructed to do so now.

8. Item 4I. Will be inquired in-
to again at next inspection.

9. Item 46. The Executive Engi-
should be required to report further
after the overpayment has been recover-
ed.

10. Item 50. The quarterly re-
port referred to by the Executive Engi-
neer is a general report of the num-
ber of service books verified. The
present question is as to specific
irregularities, on which the quarter-
ly report can throw no light, and the
Executive Engineer should, it is thought,
report specifically on the point no-
ticed.

11. Items 51 to 54. The Executive
Engineer might be required to re-
port on these items, regarding which
he has said nothing.

12. The other items call for no
further remarks.
