9TH AUGUST 1889, No. 687, REVENUE.

GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

READ—the following Proceedings of the Board of Revenue (Land Revenue), dated 6th July 1889, Mis. No. 4047 :—

THE HON. J. GROSE, M.A.

Read—the following letter from W. G. UNDERWOOD, Esq., Collector of Anantapur, to the Secretary to the Commissioners of Land Revenue, dated 21st June 1889, R. No. 696 :—

In reply to Board's Proceedings, Mis. No. 7481, dated 20th December 1888, I have the honor to submit, herewith, copies of the Executive Engineer's letters, dated 12th February 1889, No. 2770, and 6th June 1889, No. 651, with ground plans (to be kindly returned), which will furnish the necessary information therein called for.

2. The approximate cost of each of the building is estimated at Rs. 25,000 including the cost of site.

3. There are no private buildings available for rent.

ENCLOSURES.

From H. W. CLIFT, Esq., Executive Engineer, Bellary Division, to the Collector of Anantapur, dated 12th February 1889, No. 2770.

With reference to your letter, No. 29 of the 11th January 1889, I have the honor to inform you that I cannot report in detail on the state of cutcherries alluded to therein, but can only say generally that they are all in such a state and built in such a manner as to render it impossible to repair them. Walls are generally mud, when not mud they are very rough stone in mud, roofs mud with, however, in some cases pot-tiled roof verandahs. I do not know how to repair or enlarge any of them satisfactorily. I have, therefore, sent a copy of the ground plan of the present taluk cutcherry at Tadpatri to Lieutenant J. Nicholson and asked him to make a report in detail on the present state of each of the cutcherries.

From the same officer, dated 6th June 1889, No. 651.

I have the honor to forward, herewith, ground plans of the following taluk cutcherries :—

Tadpatri.	Gooty.
Dharmavaram.	Hindupur.

Madaksira is similar to Hindupur. They have generally outside walls of rough stone in mud pointed with mortar, inside junglewood posts with junglewood beams, mud roofs rotting away pot-tiled inner verandahs. They are all bad, perhaps Madaksira may be the worst, and Gooty the best. The treasury rooms are generally wooden cages, the safest under the circumstances as they can be more easily seen.

2. If I had to repair them I should not know where to begin, and would resist all responsibility in connection with the work.

Resolution—dated 6th July 1889, Mis. No. 4047.

In the first of the papers read above, the Collector of Anantapur reports that most of the taluk offices in the district, especially Hindupur and Madaksira, are in a wretched state, and requests that Government may be moved to sanction funds for constructing new buildings at least at the last two places.

2. The Board considering that the information furnished was too indefinite, requested the Collector to submit a detailed report after consultation with the Department of Public Works. The Collector was at the same time asked to ascertain if any private building could be rented.

3. The second paper read above is in answer to the Board's reference.

4. With that paper the Collector forwards two communications and four ground plans forwarded to him by the Executive Engineer. It is stated that the taluk offices "have generally outside walls of rough stone in mud pointed with mortar, inside junglewood posts with junglewood beams, mud roofs rotting away pot-tiled inner verandahs." The Executive Engineer further states that the offices are all bad, Madaksira and Hindupur being the worst.

5. In these circumstances the Board consider that it will be necessary eventually to erect new offices at all the taluk head-quarters, Madaksira and Hindupur being taken up in advance of the others. They accordingly request that Government will issue early orders for the preparation of the necessary estimates for constructing new offices first at Madaksira and Hindupur and later on at the other places referred to by the Collector.

(True Copies and Extract.)

(Signed) M. HAMMICK,
Secretary.

To the Secretary to Government, Revenue Department,
with letter and six enclosures, in original, to be
returned and copy of Board's Proceedings,
dated 20th December 1888, Mis. No. 7481.

Copy to the Collector of Anantapur.

ENCLOSURE.

Proceedings of the Board of Revenue (Land Revenue), dated 20th December 1888, Mis. No. 7481.

THE HON. J. GROSE, M.A.

Read—the following letter from the Collector of Anantapur, dated 13th November 1888, No. 779:—

I have the honor to bring to notice that the Hindupur taluk cutcherry is reported to be in a dangerous condition. It leaked very badly during the last rains and some of the records have been spoiled. The building is in a wretched state and is so unfitted for an office that I can only suggest the advisability of constructing a new building. It is waste of money repairing it and I doubt if any building can be hired for a cutcherry in Hindupur.

2. I beg at the same time to point out that the Madaksira is, if possible, a more wretched hovel than the Hindupur taluk cutcherry. Tadpatri, Gooty and Dharmavaram are very little better. Pennukonda is built on the new design and leaks like a sieve. I believe the Department of Public Works are looking to it. An estimate for Rs. 3,000 has been forwarded, I believe, to adapt Sir Thomas Munro's hall into a jail and cutcherry at Anantapur.

3. I am aware that Government have been spending a great deal of money on buildings in the district, but, owing to starvation in former years, it is now very badly off. It would have been more profitable to have devoted the grant for a Collector's house to more useful purposes. That building is now too far advanced for Government to go back. I request that Government be moved to graciously sanction funds for two taluk cutcherries, at least, viz., Madaksira and Hindupur.

2507

Resolution—dated 20th December 1888, Mis. No. 7481.

The Collector's report is too indefinite. A detailed report on the present state of the buildings should be made after consultation with the Department of Public Works, and it should be ascertained definitely if any private building could be rented: the approximate cost of the new cutcherries and their sites should be reported.

(A true Copy and Extract.)

(Signed) H. A. SIM,
Acting Secretary.

To the Collector of Anantapur.

ORDER—dated 9th August 1889, No. 687, Revenue.

Miscellaneous.

The Government sanctions the construction of new taluk offices for all the taluks of the Anantapur district.

2. Orders will issue in the Public Works Department for the preparation of the necessary plans and estimates for all the offices beginning with Hindupur and Madaksira.
