GOVERNMENT OF MADRAS.

PUBLIC DEPARTMENT.

READ—the following paper :—

From R. HILL, Esq., Superintendent, Government Press, to the Chief Secretary to Government, dated Madras, 27th July 1889.

I have the honor to submit the annual report on the working of the Government Press, and its Branch at the Penitentiary, for the year 1888-89.

2. *Accounts.*—The cash realizations for the year amounted to Rs. 26,250-7-8, and were Rs. 365-5-10 less than in the previous year. There was an increase in subscriptions to the Gazette, in sales of Indian Law Reports, and sales of Acts and other publications; but a reduction in nearly all the other items. Under Adjustments, there was an increase of Rs. 4,826-7-5. The total receipts for the year were Rs. 45,503-13-11, against Rs. 41,042-12-4 in 1887-88. (See next page.)

3. The budget grant for the year was Rs. 1,90,000; the total expenditure amounted to Rs. 1,99,224-5-8, against Rs. 2,03,376-9-3 in 1887-88.

4. The new form of cash book suggested by the auditor in January last will be introduced from 1st April, and the long-standing credit and debit balances in the personal ledger account will be realized or written off during the present year.

5. *Publications.*—During the year there was an increase of Rs. 291-1-5 in the sales of Acts and other publications; and a very considerable decrease in free issues to public offices, as compared with 1887-88.

6. *Plant.*—As desired in paragraph 7 of G.O., 20th May 1889, No. 441, Public, a statement showing values of plant, stationery and stores is now given. The depreciation on types has been taken at 12 per cent. There is a considerable reduction in the cost of articles received from Secretary of State, as types are no longer obtained from England.

8. *Profit and Loss Account.*—This account (statement No. 1) has been prepared in accordance with paragraphs 8 and 9 of the G.O. above quoted, and shows a balance to the credit of the press of Rs. 26,297-8-7 upon the valuation rates adopted for the year.

9. *Bills checked and passed for payment.*—During the year 484 bills were checked and passed amounting to Rs. 1,05,531-3-3 (statement No. 5).

10. *Printing.*—With the exception of the Agricultural Committee's report and the progress of the third volume of the Manual of Administration, the work printed during the year was of the usual descriptions, viz., proceedings, reports, returns, gazettes, book-work and miscellaneous forms; and does not call for special remark. The expenditure on the third volume of the Manual of Administration was Rs. 9,131-10-9, bringing the total cost up to Rs. 32,627-5-3.

11. The very large increase of 12,000,000 impressions under "3. Land Revenue," was for revised village account forms issued to all collectors; the increase of nearly 1,000,000 impressions under "15. Post Office," was for the Postmaster-General, but this work has been discontinued; the increase of 3,350,000 impressions under "19. Law and Justice," was caused by District Magistrates' forms being properly separated from Collectorate forms; under "30. Stationery and Printing," there were 500,000 extra impressions for the Gazette, 1,300,000 impressions for District Gazette supplements, and the remaining 1,676,000 impressions for Civil Procedure Code forms for the Superintendent of Stationery.

12. Although there was this large increase in the number of impressions, it will be seen from statement No. 2 that the value of work printed is considerably less than in the previous year. An endeavour was made to bring the valuation of work as near as possible to the expenditure by a reduction of 25 per cent. in the striking-off charges, and in the binding rates, and the value of all the work done for the year only exceeds the total expenditure by Rs. 6,457-8-8. There was a decrease in cost in consequence of a reduced number of pages being printed.

13. The following statement shows the number, description and sizes of original matter set up during the year :—

There were also 9,471 pages remade-up. Reduced to an equivalent of pica foolscap folio, there were 21,104 pages less than in 1887-88, and 2,404 less of remade-up matter; of impressions there was an increase of 14,360,047 :—

	1888-89.	1887-88.	
Government Press—			
Original matter equal to foolscap pages	148,925	168,980	— 20,055

Impressions struck off	44,285,012	30,147,960	+ 14,137,052

14. In consequence of the decrease in pages printed, the cost per page is in excess of the preceding year, and the reverse is the case as regards impressions :—

	1888-89.	1887-88.
	RS. A. P.	RS. A. P.
Government Press, cost per page	0 14 8	0 13 8
Cost per forme for 1,000 impressions	1 4 7	1 5 5
Penitentiary Branch, cost per page	1 3 4	1 1 4
Cost per forme for 1,000 impressions	0 5 1	0 6 1

15. With reference to paragraph 11 of the G.O. referred to above, the increase in the number of impressions under Stamps from 1886 to 1888 was caused by printing the words "For Copy" at the head of the two-anna non-judicial stamped paper, and dotted lines for writing on. In my office-note recorded in G.O., 21st January 1888, No. 77, Public, I drew the attention of Government to this unnecessary printing, and the words now form part of the stamp. The increase in impressions under Stationery from 1885 up to the present time is for printing judicial forms under the Civil Procedure Code.

16. *Binding.*—For the reason stated in paragraph 12, a reduction of 25 per cent. was made in the binding charges, and the value of the binding work is less than in 1887-88. There was also a decrease in expenditure. There was no change in the class of work done, the larger quantity being of the commoner descriptions.

2767

17. When the two-anna non-judicial stamped paper was received with the words "For Copy" on it, lines ruled with blue ink were substituted for the printed dotted lines. Recently ruled stamped paper has been received at the Stamp Office, and this work will very shortly be discontinued altogether. There were 1,372,626 rulings done during the year.

18. *Type Foundry.*—This important branch of the Government Press is being gradually developed to meet the increasing requirements of the Printing department, and it is hoped that by next year it will be able to produce a quantity of type equal to the annual indents formerly obtained through the Secretary of State. During the year 2,342 lb. of english types, 1,594 lb. of vernacular types, 2,235 lb. of quadrats, 5,145 lb. of leads, 1,074 lb. of stereotype plates, and 93 lb. of quotations, were cast. 2 type moulds, 208 punches, and 184 matrices were also made, besides attending to other miscellaneous work. There was an increase in the outturn and value, and a proportionate increase in cost. 12,485 lb. of metal were cast, as against 10,688 lb. cast in 1887-88.

19. *Establishment.*—On the 31st March 1889, there were 8 clerks, 270 printers on the permanent and 345 on piecework, 93 binders and 16 casters in the Government Press; and at the Penitentiary Branch there were 17 printers on permanent and 21 on piecework, and 34 binders—total, 804 employés. The average monthly earnings of each compositor was Rs. 14-15-9 at the Government Press and Rs. 10-2-10 at the Penitentiary Branch, as compared with Rs. 16-7-0 and Rs. 13-2-0 in 1887-88.

20. *Convict Labor.*—The average daily attendance of prisoners was 118 adults and 8 juveniles.

21. *Service Registers.*—262 service registers of the permanent establishment have been verified; the remainder (98) will be verified during the present year.

22. *Removal.*—The removal of the Government Press from the Fort to the Mint Buildings was commenced on the 28th July and finished on the 14th September 1888, at a cost of Rs. 1,199-14-2. There was no greater delay than four days with the work in any department, and the issue of the Gazette was not suspended. There were only a few small breakages during the removal. The permanent establishment worked well in getting types and formes ready for carting, and in re-arranging the departments. The needed extra accommodation has been obtained in the new premises.

23. *Valuation scales in use.*—As desired in paragraph 6 (ii) of G.O., dated 20th May 1889, No. 441, Public, the enhanced valuation for work, the cost of which is recoverable, will be carried out from 1st April 1889. With regard to paragraph 7, I have written to the Superintendent of Government Printing India for some detailed information, and will report upon the subject later on.

24. The submission of the report is nearly a month later than the time fixed, but is caused by my desire to carry out, as far as possible, the changes directed in the G.O. quoted in the above paragraph, which did not reach me until the middle of June.

ORDER—dated 18th September 1889, No. 760, Public.

The report of the working of the Government Press for 1888-89 is drawn up on nearly the same lines as in the previous year, pending information called for by the Superintendent as to the modes of calculating the actual cost of production, &c., adopted in Calcutta. The only changes made during the year under review would appear to be the reduction of 25 per cent. in the striking-off charges and binding rates (paragraph 12 of the report), and in the percentage allowed for depreciation of type from 17 to 12 per cent., as directed in G.O., 20th May 1889, No. 441.

2. *Receipts.*—(1) The sale-proceeds of Indian Law Reports show a progressive improvement, having risen from Rs. 6,029 in 1886-87 to Rs. 10,753 in 1887-88 and Rs. 11,614 in the year under review. The cost of printing the Madras reports amounted to Rs. 3,956 in 1887-88 and Rs. 4,714 in 1888-89.

	RS.	
(*a*) 1887-88	15,863	(2) The other cash receipts of the Press were Rs. 1,227 less (*a*) than in the previous year.
1888-89	14,636	

(3) Under adjustments, the increase of Rs. 5,658, which occurs (*b*) in the cost of printing Municipal and District Boards' proceedings, would appear to be due to recoveries being made in arrears, as the actual work executed during the year is shown in Statement 4 attached to the report to have cost only Rs. 12,883, against Rs. 14,973 in 1887-88.

	RS.

1888-89	13,086

	Rs.
(a) 1886-87	3,184
1887-88	3,090
1888-89	2,144

3. *Expenditure.*—(1) The steady decrease in the payments (*a*) on account of overtime work is noticed with satisfaction.

	(b) Cost of materials received from Secretary of State.	(c) Local purchases of plant and stores.
	Rs.	Rs.
1886-87	19,516	11,440
1887-88	10,759	5,565
1888-89	7,160	7,632

(2) The large saving in the cost of materials received from the Secretary of State (*b*) is counterbalanced to some extent by the increase under local purchases (*c*) of plant and stores.

(3) The value (*d*) of types, &c., cast at the Press foundry was Rs. 970 more than in the previous year, the cost (*e*) of production showing a corresponding increase of Rs. 637. The report does not show how far the system sanctioned in G.O., No. 992, Financial, dated 10th September 1887, has been brought into operation.

	(d) Value of types, &c., cast.	(e) Cost of production.
	Rs.	Rs.
1887-88	4,082	4,031
1888-89	5,052	4,668

4. *Quantity of work executed for each Department.*—There was a very satisfactory decrease (*f*) in the total number of pages printed for Government departments during the year. The details given in Statement No. 4, however, show that while some (*g*) departments (chiefly the Board of Revenue) have reduced their printing very considerably, a few others (*h*) have resorted to the Press to a somewhat greater extent than in the preceding year. The large increase in the cost of the *Fort St. George Gazette* appears under the column headed "Proceedings" (Rs. 18,286 against Rs. 10,658 in 1887-88), and is not accounted for; while under District Gazette Supplements, the increase occurs in the value of paper, and is explained, in paragraph 11 of the report, to be due to the much larger number of impressions (*i*) struck off during the year.

Fort St. George Gazette	21,074	28,164	7,090
District Gazette Supplements ..	6,761	9,941	3,180

* The above comparison is vitiated to some extent by the reduction in the valuation rates referred to in paragraph 1, *supra*.

	1886-87.	1887-88.	1888-89.
(i) Total number of impressions in thousands	48,906	48,730	62,954

The expenditure on account of the Manual of Administration, as shown in paragraph 10 of the report, would appear to include the cost of printing only, binding and

paper being entered in separate columns in Statement No. 4. Special work of this kind should in future be shown under a separate entry, so that its total cost may be correctly calculated.

5. The figures in Statement 5 appended to the report would tend to show that very nearly half the amount of work shown in the Government Press accounts is done at private presses. Considering that additional accommodation has been provided in the Mint Buildings, the Superintendent should report whether some portion of the work executed solely for Government departments might not in future be undertaken at the Central Press.

	Central Press.			Penitentiary.		
	Rs.	A.	P.	Rs.	A.	P.
(a) 1887-88	16	7	0	13	2	0
1888-89	14	5	9	10	2	10

The fact that the average earnings of compositors have fallen (*a*) considerably, both in the Central Press and the Penitentiary branch, would seem to show the possibility of both presses taking in more work.

6. Orders on the profit and loss account will be deferred pending the receipt of the Accountant-General's audit report, and the further information called for by the Superintendent (paragraph 23 of the report).

7. The Government notes with satisfaction that the move into the new Press premises was carried out with but little hindrance of any kind to the current work—a result very creditable to those concerned.
