No. 302. S.

Goavare Eastern D. Off.
Dowlachwarum 22 Aug 1909

From J. S. Nelson Esq.
Offg. District Engineer
Eastern D. Goavare.

To The Supg Engineer
1st Circle.

Sir, With reference to your No. 252. Of 1st July 1909 on O.O. No. 1732H. of 1st July 1909, I have the honor to submit a statement showing the details and the present estimated value of all plant, buildings & forming assets of land & kilns account.

2. The manufacture of lime at Dowlachwarum is now virtually closed as the small quantity of lime required for works is obtained from Western D.

3. There are therefore only two manufactures to be paid out in this D. i.e. "Stone and Surki" against which I propose to adjust the amount paid for Land & Kilns in 10 years while, I think, they be stated for account.

expenses for the probable further period
of duration of manufacturing.

4. The project works in the divisions
are approaching completion but I believe
stone and Surke will, nevertheless be
required hereafter for works under
"Extensions & Improvement & Maintenance
of Aqueducts and Head Works" repairs
to irrigation & factory works in canals
Channels & drains "River & navigational works,
Construction of sluices and surplus works
to tanks &c." I consider therefore that
the probable average extent & value of
annual operations of Stone & Surke
during the next 10 years may be estimated
at Rs. 20,000 and Rs. 2000 respectively.

5. The balance of Rs. 26,177 referred
to by the Examiner Public Works acct &
in para 1. of his office note printed
with the C.O. under reference has since
been reduced to Rs. 21,910 owing to the
adjustments made in June/89 as
the estimate of manufacture and one

225 and Surke of 1888-89.
6. Rupees 4997 were spent for constructing
Engine and Surke shed, wharf wall and
widening quarry channel. Of this amount
Rs. 1150 were charged against the estimate
of Manufacture of Surke for 1888-89
leaving Rs. 3847 still to be adjusted
against the operations of Surke. Deducting
Rs. 3847 out of the amount at debit
of "Land & Kilns" referred to in para 5
above, there remains a balance of
Rs. 81063 to be charged against the
operations of stone. The amount at debit
of Land & Kilns should, I think, be
accordingly dealt with in separate
account in future as suggested by
the Examiner Public Works Account in
para 4 of his office note.
7. As regards period or rate of
adjustment, I have the honor to state
that as stone is obtained by contract,
I do not anticipate any further debits
or charges to "Land & Kilns" but, as

4. I have therefore the honor to request that you will be so good as to obtain the sanction of Government to the 10 years duration for adjusting the balance (Rs. 24910) under the two heads "Stone & Surki" at Rs. 2490 per annum as detailed in the margin.

Rozb. — Surki
" 2106 — Stone
2490.
