Account.

READ—the following paper:—

From Colonel W. H. BURTON, R.E., Superintending Engineer, V Circle, to the Chief Engineer for Irrigation, dated 17th August 1889, No. 3314.

The Executive Engineer, South Arcot division, has submitted, for sanction, an estimate of Rs. 1,160 for repairing the embankment of the Gadilam river to protect the town of Tirupápuliyúr. The construction of the embankment was completed in March 1888 from Provincial funds, as per G.O., No. 361 W., dated 10th February 1886.

2. With reference to your inspection notes, para. 16, printed in G.O., No. 770 I., dated 21st December 1888, I have the honor to request to be informed, upon what department the future maintenance of this embankment is to devolve and to what funds the present repair estimate of Rs. 1,160 should be charged.

From the same officer, dated Bangalore, 27th August 1889, No. 3534.

In continuation of my report No. 3314, dated 17th August 1889, I have the honor to inform you that the Cuddalore Municipality and South Arcot Local Fund Board have agreed to contribute Rs. 50 and Rs. 70 annually to maintain two lascars under orders of Executive Engineer for purpose of preventing damage by cattle to Gadilam flood-bank referred to in your note 16, published with G.O., No. 770 I., dated 21st December 1888.

2. As the Executive Engineer appears to have not succeeded in obtaining any small sum necessary for making good again the gaps made by these cattle, I presume this may be met from Miscellaneous Public Improvements, as was the cost of the embankment; when this has been done, the embankment should, I think, be formally made over to the Cuddalore Municipality.

No. 26 W.

Transferred to the Public Works Secretariat for disposal of the question of the incidence of cost of the repair estimate of Rs. 1,160, referred to in the Superintending Engineer's letter No. 3314, dated 17th August 1889; as also of the cost of making good the damage done to the embankment by cattle.

2. This office is in correspondence with the Superintending Engineer in regard to the transfer of the charge of the embankment to the Municipality.

CHEPÁK,
26th September 1889.

(Signed) G. T. WALCH,
Ag. Chief Engineer for Irrigation.

Order—dated 7th October 1889, No. 2799 W., Public Works.

Pending settlement of the question as to the proposed transfer of the maintenance of the embankment to the Municipality, the expenditure referred to in the foregoing correspondence will be charged to Provincial, Miscellaneous Public Improvements.
