To

The

Executive Engineer

Ganjani Division.

Reference

No.

dated

With reference to his letter No. 289 &c dated the 28th August 1889, has the honor to inform him that piece workers and daily Coolies should be shown separately with the headings entered in red ink "Daily Coolies" "Piece Workers" as otherwise it will not be possible to ascertain in this office what class the Coolies belong to.

2. The earnings of piece workers on the 3rd & 4th works are less by 3 pice per man & 2 pice for woman & child than what they are allowed by Section 105 of the Famine Code - when the raji was selling 18 Seers per rupee - the difference

difference should have been paid to them. The Division Officer should state why their earnings were less than those of daily Coolies.

3. The wages earned by daily Coolies employed on No 2 Work are more than what are allowed by section 185 & it appears from the Division Officers letter under reply that this was the result of the work turned out by them. Only the total number of all the 3 classes of daily Coolies has been entered in the report. In all future reports the total number of each class of Coolies should be shown.

(4) The expenditure and balance on the 2nd & 3rd Works should have been entered & this omission should be supplied in future reports.

Returned to the Division
officer who is requested
to be good enough to show
in the remarks column the
prices at which Raaga was
sold on the 3rd August as
the four works enumerated
in this report. In the ab-
sence of this information it
is not possible to check in
the office whether the wages
have been paid according
to Section 185 of the Tamme
code.

2 It is presumed that
the classification of the
codes has been decided
according to Section 192
of the code.
