23RD SEPTEMBER 1889, No. 791, REVENUE.

GOVERNMENT OF MADRAS.
REVENUE DEPARTMENT.

Read—the following Proceedings of the Board of Revenue (Revenue Settlement, Land Records and Agriculture), dated 15th March 1889, Mis. No. 1083:—

W. WILSON, Esq., M.A., C.S.

Read—letter from the Collector of Nellore, dated 6th March 1889, No. 679-Tour.

ABSTRACT.—Submitting a list of works in his district suitable for famine relief and offering explanation of the delay in the submission of the same.

Resolution—dated 15th March 1889, Mis. No. 1083.

The Board regret that they cannot regard the Collector's explanation as satisfactory. In the first place two of the Divisional officers, the Sub-Collector and the Head-quarter Deputy Collector, were not called upon to furnish the lists until three months after the receipt of the Board's Proceedings. This is attributed to some mistake on the part of the despatching clerk, though it is not clear how the mistake could have occurred if the officers to whom the reference should have been sent had been duly noted on the draft by the drafting officer. If the entries had been omitted it was the duty of the head clerk to have supplied the omission. In the next place, though some of the lists were received in May, they were not returned for revision until August following.

2. The list furnished by the Collector is not in a condition to be submitted to Government. In the case of a large number of works the estimated cost is not given. In the case of several works, the number of laborers that could be employed is given, but neither the probable cost of the works nor the period for which they would afford employment. Constructing a branch railway is a Professional Agency work and should not have been included in the list. There are also other large works which would properly fall under Professional Agency works. The list will, therefore, be returned to the Collector. A revised list should be submitted at a very early date.

MR. WILSON.

Read—again Proceedings of the Board of Revenue (Revenue Settlement, Land Records and Agriculture), dated 15th March 1889, Mis. No. 1083.

ABSTRACT.—Returning, with remarks, the list of famine relief works submitted by the Collector of Nellore.

Read—also the following letter from C. D. MACLEANE, Esq., Collector of Nellore, to the Secretary to the Commissioner of Revenue Settlement, Land Records and Agriculture, dated Nellore, 17th July 1889, No. 1596-Ver. :—

With reference to paragraph 5 of this office letter, No. 725-Ver., dated 9th April 1889, I have the honor to forward, herewith, an amended list of famine relief works.

2. The estimated cost of the works entered in the list according to the returns furnished by the Divisional officers is Rs. 18,63,580—sufficient to provide relief for 50,294 persons for 296 days at 2 annas per diem. I have not found it practicable to bring the list up to the figure mentioned in paragraph 4 of Board's Proceedings, No. 27, dated 24th January 1888; but if the District Board and Municipal proposals are added (these containing separate works) the whole comes to Rs. 22,73,580, and this affords relief for 53,360 persons, which is not much less than one-twentieth of the population (61,000) for nearly 341 days.

3. The latest return was received in this office on the 12th instant, and hence the delay.

Resolution—dated 25th July 1889, No. 369.

Submitted to Government for information.

2. The following abstract shows the estimated cost of the famine relief works proposed by the Collector of Nellore :—

3. Most of the works proposed are new roads. Large sums are provided for the improvement of village-sites, water-supply, &c., for which no details are furnished. The detailed lists prepared by the Collector should be submitted for record in the Board's office.

4. The total cost of the several works amounts to Rs. 18,63,580, which, at annas 2 per diem, would afford employment for one year to 40,845 persons or 3·3 per cent. of the population of the district, which was estimated at 1,220,236 in the census taken in 1881.

5. Separate proposals as to the estimated cost of Municipal and Local Fund works appear to have been already submitted to Government.

6. The Collector's statement shows the number of men to be employed on each work and the number of days they would be employed, instead of showing the number that could be employed on each work for a year.

ORDER—dated 23rd September 1889, No. 791, Revenue.

Miscellaneous.

The estimates detailed in the statements appended to this order amount to Rs. 21,83,080, and the works would thus afford employment for 12 months to 3·9 per cent. of the population at an average of 2 annas per diem or to 5·23 per cent. of the population at 1½ annas a day.

2. Besides this a sum of Rs. 4,000 for roads and Rs. 2,000 for drainage can be made available in the Nellore Municipality. This would give employment for 131 persons for 12 months at 2 annas a day.
