Account.

READ—the following :—

Circular from the Government of India, Public Works Department (Account—General), dated Simla, 15th October 1889, No. 11 P.W.

Payments and Adjustments by Examiners.

Read—the following extract from the Report by the Committee on Public Works Accounts :—

SUBJECT No. XXIII-A.

Payments by Examiner.

419. *Payments of Head Office Establishments, &c.*—The Committee recommends that at the head-quarters of every Local Government and Administration where there is an Examiner stationed, that officer should be entrusted with all payments to head-quarters establishments and for miscellaneous purposes, the acceptance of all transfers from outside the province, and the adjustment generally of every item which does not affect the outlay on any work in progress in a division, including all transfers between funds. This would relieve the Executive Engineer of the head-quarters division of much non-professional work, and other Engineers of some. The part of the Examiner's office concerned with payments should be kept quite separate from the rest of the office, especially the audit-portion.

420. *Relief of Executive Engineers of all payments.*—The question whether there are not circumstances in which the Executive Engineer might be relieved entirely of payments, and the duties of disbursement as well as of compilation taken over by the Examiner, under some such arrangement as is followed on open lines of State Railway, was discussed.

421. The Committee does not see its way to make any suggestions of practical reform in this direction. If an Executive Engineer's works were all concentrated at the station at which the Examiner had his head-quarters it would be possible to introduce this system. The Executive Engineer would merely certify bills for claims; and the payment, accounting and audit, would rest with the Examiner.

Resolution—The Government of India accepts the recommendations of the Committee and desires that the procedure suggested in paragraph 419 be, as far as may be practicable, introduced as soon as possible. This should relieve Executive Engineers at head-quarters of a considerable amount of office work.

2. The Government of India is not prepared to make any change in the direction referred to in paragraphs 420 and 421.

Order—Ordered that the foregoing be communicated to the Local Governments and Administrations and the officers noted in the margin, for information and guidance.

Payments and Adjustments by Examiners.

Read—The following extract from the Report by the Committee on Public Works
Accounts:—

Subject No. XXIII A.

Payments by Examiner.

419. *Payments of head office establishments, &c.*—The Committee recommends that at the head-quarters of every local government and administration where there is an examiner stationed, that officer should be entrusted with all payments to head-quarters establishments and for miscellaneous purposes, the acceptance of all transfers from outside the province, and the adjustment generally of every item which does not affect the outlay on any work in progress in a division, including all transfers between funds. This would relieve the executive engineer of the head-quarters division of much non-professional work, and other engineers of some.

The part of the examiner's office concerned with payments should be kept quite separate from the rest of the office, especially the audit portion.

420. *Relief of executive engineers of all payments.*—The question whether there are not circumstances in which the executive engineer might be relieved entirely of payments, and the duties of disbursement as well as of compilation taken over by the examiner, under some such arrangement as is followed on open lines of State Railway, was discussed.

421. The Committee does not see its way to make any suggestions of practical reform in this direction.
