21st OCTOBER 1889, No. 860, REVENUE.

GOVERNMENT OF MADRAS.
REVENUE DEPARTMENT.

READ—the following Proceedings of the Board of Revenue (Revenue Settlement, Land Records and Agriculture), dated 22nd November 1888, No. 659 :—

W. WILSON, Esq., M.A., C.S.

Read—again the following Proceedings of the Board of Revenue (Revenue Settlement, Land Records and Agriculture), dated 10th August 1888, Mis. No. 1968 :—

Read—the following letter from W. G. UNDERWOOD, Esq., Acting Collector of Anantapur, to the Secretary to the Commissioner of Revenue Settlement and Director of the Department of Land Records and Agriculture, dated Anantapur, 16th July 1888, No. 512 :—

With reference to Board's Proceedings, 24th January 1888, No. 27, I have the honor to forward a list of minor famine works that could be taken in hand by the Revenue Department. The lists from the Divisional officers are anything but satisfactory, and I should be sorry to place any reliance on the accuracy of the estimates. There are also too many roads entered. The district is furrowed with useless and abandoned communications formed during the famine of 1876-77 and 1878.

2. In round numbers the population of the district was 600,000 at the last census. The number of children has probably increased. As all the estimates are vague, I think I need not try to get any nearer :—

Taluk.	Area in acres.	Population in round numbers.	5 per cent. thereof.	Number of days work in a year required.	
Anantapur	472,724	92,000	4,600	1,679,000	No allowance has been made for Sundays nor other holidays.
Dharmavaram	711,174	97,000	4,850	1,770,250	
Gooty	605,083	111,000	5,550	2,025,750	
Hindupur	274,193	73,000	3,650	1,332,250	
Madakasira	288,856	55,000	2,750	1,003,750	
Penukonda	611,196	73,000	3,650	1,332,250	
Tadpatri	369,956	99,000	4,950	1,804,750	
Total ..	3,332,182	600,000	30,000	10,950,000	

3. The Divisional officers have sent in estimates for Rs. 15,80,100, and it is a very difficult matter to decide how many days work they will provide. Taking for granted, which I very much doubt, that the estimates are fairly accurate, it may be assumed that a famine cooly will turn out, for four annas, work which would be done for one and-a-half annas by strong men. I take one and-a-half annas as an initial as being the day's pay on famine works. Then I am making no allowance for women and children. Then allowing that four-annas worth of work is turned out daily by a strong man, we get the following table :—

Taluk.	Estimate of works in rupees.	Days labor to strong men.	Multiplied by 2 to give days for famine coolies.	Days labor required.	Excess or deficiency of column 4 over column 5.
1	2	3	4	5	6
Anantapur	22,800	91,200	243,200	1,679,000	— 1,435,800
Gooty	2,15,000	860,000	2,293,333	2,025,750	+ 267,583
Tadpatri	1,97,800	791,200	2,109,866	1,804,750	+ 305,116
Dharmavaram	3,56,000	1,424,000	3,797,333	1,770,250	+ 2,027,083
Penukonda	3,97,000	1,588,000	4,294,666	1,332,250	+ 2,962,416
Hindupur	2,84,000	1,136,000	3,029,333	1,332,250	+ 1,697,083
Madakasira	1,07,500	430,000	1,146,666	1,003,750	+ 142,916
Total ..	15,80,100	6,320,400	16,854,400	10,950,000	+ 5,904,400

21ST OCTOBER 1889, No. 860, REVENUE.

4. I submit this report with lists of the works proposed in obedience to the Board's order; but I place no reliance on the figures. The enormous excess of work provided occurs in three taluks of the Head Assistant Collector's division where some works, such as the known projects, have been entered. They would be subject to supervision by the Department of Public Works.

5. The season has happily opened favorably and works will not be wanted just a while. I can only suggest that all tanks, whose repair is not advisable from a money point of view, be estimated for. In addition, the forest settlement should be pushed on. The reserves would provide work everywhere in fencing and digging up. It was one of the most valuable suggestions made by Mr. Nicholson with no establishment available; to form plans as asked for by the Government of India will take years. But they can be got at in time. Meanwhile a famine may occur.

ENCLOSURE No. 1.

List of Famine Relief works in the Anantapur district.

Taluk.	Description of work.	Estimate.
		RS.
	(1) Removing silt from the following tanks and strengthening their bunds with the earth so removed—	
	Yenkatampalli	1,000
	Vobicherla	1,000
	Karadikonda	1,000
	Nagasamudram	1,000
	Abbedoddi	3,000
	Goolinukonda	1,500
	Yerragudi	1,500
	Ayavaripalli	500
	Nelagonda	500
	Racherla	2,000
	Sakusanipally	500
	Lathavaram	1,000
	Thondapadu	1,000
	(2) Completing the road works commenced during the famine of 1876 but left unfinished—	500
	(a) From Gooty to Yadiki via Anantapur and Chithrachedu, 20 miles	12,000
	(b) From Gooty to Karur via Nagasamudram, 18 miles	10,000
	(c) From Pamidy to Singanamala via Kanampalli, 11 miles	6,000
	(d) From Uravakonda to Rupavagudi of Bellary taluk via Haviligi, 13 miles	7,000
	(3) Levelling and clearing village sites in 50 villages	15,000
	(4) Digging ditches and forming banks in the aloe hedges around 30 village forest reserves and digging the whole area of the same so that seeds of indigenous trees might be sown, taking on an average the extent of each block at 1,000 acres and the cost of it at Rs. 5,000	1,50,000
	Total ...	2,15,000
	I. (1) A second-class road from Tadpatri to Dadithota via Yellanur, 28 miles	44,800
	(2) A road from Igadur on the Bellary high road to Pedda-Yekkalur via Pennér Railway station, Narasapuram, Kumetta, Pasalur and Garladinna, 10 miles	16,000
	(3) A road from Pedda-Yekkalur to the Bellary high road via Nagarur, Thutrallapalli and Rayalchervu, 8 miles	8,000

Taluk.	Description of work.	Estimate.
		RS.
	II. Removing silt from the Boppapalli tank and strengthening its bund with the earth so removed	2,000
	(1) Levelling and clearing village sites in 40 villages.	12,000
	(2) Digging ditches and forming banks with aloe hedges around 23 village forest reserves and digging the whole area of the same so that seeds of indigenous trees might be sown, taking on an average the extent of each block at 1,000 acres and the cost of it at Rs. 5,000	1,15,000
	Total ...	1,97,800
	New roads to be made up.	
	(1) From Brahmavayalér to Palacherla, 7 miles	3,000
	(2) From Muddalapuram to Korakodu, 3½ miles	1,500
	(3) From Chiyadoo to Tadmarri, 5 miles	1,000
	Repairs to roads.	
	(4) From Talapur to Koodair, 3 miles	500
	(5) From Bukkaroyasamudram to Narpla, 10 miles	2,000
	(6) From Singanamala to Rachepally via Salakan-chervoo, 7 miles	1,000
	(7) From Malyavantham to Peddakolla via Tadmarri, 11 miles	1,000
	(8) From Garladinna to Singanamala, 7 miles	1,000
	Tanks and Nalas.	
	(1) Filling up the breach in Kodimi-Balappu tank	500
	(2) Do. do. in Danduvaripully tank	4,000
	(3) Repairing the Chitravati, Yerrakalva irrigating, Cherlopally and Dumpetla wet lands	300
	(4) Raising, strengthening and revetting the bund of Chinnakotla tank	1,000
	(5) Repairs to Chennampally tank; filling up the breach in the bund	3,000
	(6) Repairs to Pennér nala near Nidavinada; to be banked on the side of the river; to be provided with aprons in five places	1,000
	Reserve.	
	(1) Fuel reserve at Siddarampuram, hamlet of Paramati Yalir. Block, 1,246 acres, cost of ditching and hedging, &c.	2,000

Resolution—dated 10th August 1888, Mis. No. 1968.

It is presumed that the lists are submitted in reply to paragraph 4 of the Proceedings quoted. Paragraph 2 of the Proceedings has not been replied to.

2. In the lists submitted, there are many Professional Agency works which should have been excluded as it was only a list of Civil Agency works (section 21 of the Famine Code) that was called for.

3. The Board understand that similar lists have been called for from local bodies in the Local Fund and Municipal Departments. The Collector is requested to report if the Local Fund works (Roads, &c.) included in the present list have also been entered in the statement submitted by him to Government as President of the District Board.

(True Copy and Extract.)

(Signed) P. RAJARATNA MUDALIAR,
Secretary.

To the Collector of Anantapur.

3

READ—also the following letter from W. G. UNDERWOOD, Esq., Acting Collector of Anantapur, to the Secretary to the Commissioner of Revenue Settlement and Director of the Department of Land Records and Agriculture, dated Anantapur, 14th November 1888, No. 785 :—

Referring to paragraph 1 of Board's Proceedings, No. 1968, dated 10th August 1888, I have the honor to state that the list therein referred has been sent in reply to paragraphs 2 and 4 of Board's Proceedings, No. 27, dated 24th January 1888. The places where the tanks or other works are situated will themselves show the chief villages in each taluk where relief works may be opened whenever there is occasion arising.

2. As regards paragraph 3, I have to state that few of the roads referred to in the list sent with my letter above cited find place also in the list submitted by the President of the District Board.

- | | |
|-------------------------------------|------------------|
| 1. Singanamala. | 8. Durgam. |
| 2. Narpala. | 9. Marur. |
| 3. Chennumpalli. | 10. Atmakur. |
| 4. Tadmarri. | 11. Kuder. |
| 5. Cherlopalli, hamlet of Dampetla. | 12. Korapadu. |
| 6. Kandakur. | 13. Brahmayalér. |
| 7. Chigicherla. | 14. Ipperu. |
| | 15. Bukkacherla. |

3. The General Duty Deputy Collector further proposes that the work of filling up fort ditches in the marginally-noted villages in the Anantapur taluk may be undertaken.

Resolution—dated 22nd November 1888, No. 659.

Submitted to Government, with reference to G.O., dated 29th November 1887, No. 1109, Revenue Department.

2. Taking 5 per cent. of the population at 30,000, a sum of Rs. 13,68,750 would be required to provide them with work for a year at 2 annas a day, and the works proposed (including the Professional Agency and Local Fund works named in the list), which are estimated to cost Rs. 15,80,000, would therefore suffice for their employment.

(True Copies and Extract.)

(Signed) P. RAJARATNA MUDALIAR,

Secretary.

To the Secretary to Government, Revenue Department.
" Collector of Anantapur.

READ—Proceedings of the Madras Government, Local and Municipal Department, dated 17th January 1889, No. 59 M. Mis.

ABSTRACT.—Communicating letter from the Chairman, Municipal Council, Anantapur, reporting the probable estimate for digging a drinking-water well and for laying a road from Anantapur town to the Railway station.

ORDER—dated 21st October 1889, No. 860, Revenue.

Miscellaneous.

- | | |
|---|-------|
| 1. Construction of a road from Muddalapuram to Korakodu ... | 1,500 |
| 2. Repair of road from Malyavantham to Peddakolla ... | 1,000 |
| 3. Repair of road from Garladinna to Singanamala ... | 1,000 |

Of the works specified in the list embodied in the Board's Proceedings read above, those noted on the margin are included in the statement submitted by the Collector as President of the District Board. Excluding these as well as the Professional Agency works which are included in the list forwarded by the Public Works Department, the cost of the works proposed by the Collector amounts to Rs. 10,48,032. To these must be added the District Board, Municipal and Professional Agency works, which are estimated to

3188

cost Rs. 20,41,220. All the works together will thus afford employment for one year for 11 per cent. of the population at an average wage of 2 annas a day and for 15 per cent., if the average daily wage be taken at one anna and a half. In addition to the above, the Guntakal-Hindupur Railway would provide employment for a number of people.

2. The amount of work available is therefore ample, but endeavours must be made to gradually get more complete estimates than those upon which the foregoing calculation is based.

34. Road from railway gate of the Anantapur road commencing from 32nd mile to Shamapalli ...	2,000
35. Road from Chukkalar to Varadayypalli ...	2,000

Water-supply.

1. Rebuilding the rivetment Rangumagundlabhani at Gooty ...	50
2. Rebuilding the southern rivetment of Khandajibhani at Gooty ...	180
3. Repairing the fresh-water well, called Narsinga Rao's well in Surlepalli ...	30
4. Repairing the fresh-water well at Kachapalli, hamlet of Gooty, Anantapur village ...	40
5. Repairing the two fresh-water wells used by Malas in the Uravakonda union ...	200
6. Removing silt from and deepening the old wells, and excavating new ones in the western part of Gooty and in other places where necessary ...	1,000

Improvement of Village Sites.

1. Removing prickly-pear ...	500
Total ...	1,53,950

III.—List of Works proposed by the Anantapur Municipality—

	RS.
1. Digging of a good-water drinking well for the use of the towns-people ...	1,000
2. Laying a road from Anantapur town to the proposed railway station ...	3,000
Total ...	4,000

IV.—List of Professional Agency works available for the employment of Famine labour—

AMOUNT OF ESTIMATES.		
Earth works.	Other works.	Total.
RS.	RS.	RS.
Hindupur project *		
Roddam do. †		
1,10,200	58,850	1,69,050
48,280	54,940	1,03,220
Total ...	1,13,790	2,72,270

* The project is for supplying eleven tanks by building an anicut across the Pennér river. Preliminary investigation of this project was made by Mr. Garrett. The Superintending Engineer, III Circle, considers that it may possibly pay 2 per cent. As a protective work, its effect would be insignificant.

† This project provides for an anicut across the Pennér to supply Roddam large tank. Preliminary investigation of this project was made by Mr. Garrett, when he was in charge of the C. Project division. The estimates for the masonry works may be allowed to stand, but the channel portion will require revision. The Superintending Engineer, III Circle, estimates the net return at a little over 2 per cent. Both financially and as a relief work, it is to be preferred to the Hindupur project. If required, it could be submitted in a complete shape in three months.

3188

V.—List of Professional Agency Works which could be made available for the employment of Famine labour after further investigation—

Nature of work.	AMOUNT OF ESTIMATES.		
	Earth works.	Other works.	Total.
	RS.	RS.	RS.
Bukkacherla project * ...	13,98,560	1,96,440	15,95,000
Potalakonta do. † ...	12,000	4,000	16,000
Total ...	14,10,560	2,00,440	16,11,000

VI.—List of Railway Works available for execution by Famine labour—

	Miles.	Cubic yards per mile.	Total.
Guntakal-Hindupur ...	62½	32,400	2,008,800
Total ...	62	32,400	2,008,800

* This project is for feeding the Bukkacherla, the Singanamala, and Anantapur tanks from the Pennér river. The project needs revision; it is thought it is far from being one likely, even if practicable, to give any return to speak of.

† To store water for irrigating 600 acres of land. Partially investigated prior to 1877; nothing done since.

‡ Total length of line, 111 miles; the earth work of 49 miles was completed in 1885.
