The Superintending
 Engineer, V Circle, reports that
 the cost of converting the
 building known as the stu-
 -dinary Medical School at
 Rayapuram into quarters for
 an apothecary and one
 hospital assistant will be
 about Rs 2000. After personal
 inspection the Government
 are of opinion that the building
 is not suited for apothecary's
 quarters, and that it is cer-
 -tainly not worth the while
 to incur an outlay of Rs 2000
 to

to fit it for such occupation.
The rent of the building according
according to Public works
rules, is out of all proportion
to the amount of compensation
which would be saved by
accommodating the all medical
subordinates in question in it.
It would require considerable
and constant repairs, and the
roof seems bad.

2. In these circumstances
the Government consider that
an attempt should be made
to sell the building, and the
Superintending Engineer I Circle
will accordingly publicly
invite tenders for its purchase,
reporting the result in due
course.
