GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following :—

Circular from the Government of India, Public Works Department (Account—
General), dated Simla, 23rd October 1889, No. 14, Public Works.

Divisional Accountants.

Read—the following extract from the Report by the Committee on Public Works
Accounts :—

SUBJECT No. XX.

Accountants

395. *Divisional Accountants.*—The Committee is of opinion that it is necessary to have in the office of every Executive Engineer who compiles his own accounts a properly trained accountant. No one should be entrusted with this duty who has not passed the necessary educational tests and also a test in book-keeping, and who has not had at least two years' actual experience in accounts in an Executive Engineer's office or under a Sub-divisional officer.

396. *Head of the Office Establishment.*—The Committee thinks that, as a rule, the accountant should be treated as the head of the Executive Engineer's office establishment. Where there is a separate and independent head clerk there is often much friction and interruption to business. The man entrusted with the accounts needs a complete grasp of the business of the division, and he should be in a position to distribute the work in the office to the clerical establishment.

397. The Committee is of opinion that the definition of the duties of the accountant and of his relation to the Executive Engineer contained in Code I, III, 143 to 146, and II, XIII, 7, is suitable. Some slight verbal modifications are required to make the subject quite clear.

398. *Special arrangements sometimes necessary.*—The Committee recommends that special circumstances should be recognised as calling for exceptional arrangements, e.g., when the construction of a large original work embracing special difficulties is undertaken, an accountant of a senior grade, or even a gazetted officer of the Accounts Branch with special powers, might be posted to relieve the Executive Engineer of much of his office work.

Resolution.—The Government of India accepts the recommendation of the Committee that no person shall be appointed accountant of a division until his qualifications have been proved in the manner indicated. The principle advocated in para. 396 with respect to the accountant being treated as the head of the Executive Engineer's office establishment is correct and important and should be carried out as far as possible. The Examiner should invariably obtain the concurrence of the Superintending Engineer before transferring a divisional accountant.

2. The necessary modifications of the rules on this subject in volumes I and II of the Public Works Code will be carried out in the next edition.
