Enclosures.

I have the honor to request that sanction may be given to the appointment of P. Chinna Rao my Brother as a surveyor on the Tungabhadra Project.

2. The Examiner objects to his appointment, as he has only passed for a draughtsman and not for a surveyor.

3. The Resident Engineer on special duty states that his testimonials are far better than those of any other applicants for a Surveyor's post, and that during the time he has been working under him, he has done very fairly. He further states that work on the Project will be delayed in case his appointment is not sanctioned.

4. It is extremely difficult to get passed candidates for such work in this Circle.

I have the honor to be

Requesting sanction
to the appointment
of *[Name]* as a Surveyor
on the *Boongabadra*
Project

It has always been the practice to require a Civil Engineering College certificate in such cases, with reference to P.W. Code para II3, and to consider that under para I73 A of the code, sanction of Government is necessary for exemption from the test; but it does not appear that, as regards appointments of surveyors, there are any prescribed tests such as are referred to in code para I73 A. Apparently it is now advisable to consider whether the test, which is understood to be applied in such cases by the Civil Engineering College, as regards both Surveyors and upper subordinates, is to be a prescribed test, in which case it should be embodied in code para I72, and code para II3 modified accordingly. Exemption by Government in this particular case will then be required. otherwise code para II3 will have to

be cancelled, and if there is no prescribed test, no exemption will be required.
