PUBLIC WORKS DEPARTMENT.

READ—the following paper:—

From W. HUGHES, Esq., Superintending Engineer, VI Circle, to the Chief Engineer, Public Works Department, dated Trichinopoly, 30th March 1889, No. 2 T.J.

Vaigai Bridge.—The employment of the temporary clerk on Rs. 15 and five lascars is sanctioned up to the end of the present month, when orders have been given to dispense with the clerk and one lascar. As, however, their pay will be audited only in April, the Madura division officer applied to have their salary for one month included in the establishment statement for next year. The remaining four lascars will be required for the whole year, as there will be other work for Assistant Engineer, Mr. Smith, when the bridge is finished. I cannot say when this will be. It will depend upon whether you sanction the estimate for dressed stone parapets which will be submitted to you in a few days.

3. *Timevelly Division*.—In reply to an inquiry from this office, the Executive Engineer reports: "I cannot definitely say how long the services of the temporary Draughtsman will be required, because his work depends more on the sub-division officers and overseers sending the sketches of site plans, &c., which they send whenever they go to the locality, and this they do when they have no important works to inspect, take levels for preparing estimates, &c. The work turned out by the Draughtsman up to date may be half what he has to do." It is evident from this that

a reply cannot be given to para. 4 of your memorandum. If you think a Draughtsman not required for the whole year, I would suggest that sanction for six months may be given. As regards the continued employment of a clerk on Rs. 15 for the Thenkarai sub-division the Executive Engineer reports that the work of the division office is much more than one clerk can do, as the sub-division contains all the works of the Srivaikuntham Anicut system which necessitates considerable references to the Revenue and other departments regarding their maintenance and proper regulation of water.

4. *Tanjore Division.*—I consider it is necessary to have assistant clerks in both the Tanjore and Mayavaram sub-divisions. There is large number of works in both sub-divisions and a very extensive correspondence. All the time that I have known the division the sub-division clerks have been overworked and have been able to carry on the work only by getting assistance from overseers' clerks, volunteers and others. The employment of volunteers has been lately forbidden in this circle, and this makes it more difficult than ever for the sub-division clerks to get the work done.

5. *Trichinopoly Division.*—The reason given for the demand for an extra clerk for the Musiri sub-division is that the area of the sub-division has been much increased of late. It now comprises the whole of Trichinopoly district north of the Coleroon, an area of 2,400 square miles. The sub-division officer finds it necessary to take his clerk into camp with him, as in many places there is a difficulty about arranging for the receipt and despatch of letters, and there would be much delay in correspondence, if the clerk were left at head-quarters. It is apparently chiefly in order to have some one to put up papers and arrange for their despatch from the office that a second clerk is considered necessary. If sanction is given at all, it should be for the whole year.

6. I have corrected the portion of the statement of establishment which refers to the Madura division, leaving the rest for your disposal.

From W. HUGHES, Esq., Superintending Engineer, VI Circle, to the Chief Engineer, Public Works Department, dated Trichinopoly, 2nd April 1889, No. 15 T.J.

In my letter No. 2 T.J., dated 30th March 1889, I omitted by oversight to reply to para. 6 of your memorandum No. 1573 C., of 26th March 1889. When the Ramnad division was constituted in 1885, two temporary clerks were allowed for the Superintending Engineer's office and were subsequently dispensed with in the reduction of February 1887.

2. Subsequently, the Superintending Engineer, finding his office overworked, applied for the services of one temporary clerk: please see para. 6 of his endorsement printed with G.O., No. 1004 W., dated 28th March 1888.

3. The extra clerk is still required, but may be dispensed with when the Ramnad division is abolished in September next.

Office note from the Examiner, Public Works Accounts, dated 25th April 1889, No. 534.

STATEMENT of Proposition for Temporary Establishment required for the year 1889-90--*cont.*

ORDER—dated 11th May 1889, No. 1250 W., Public Works.

ORDER—dated 11th May 1889, No. 1234—
The temporary establishment required in the VI Circle during 1889-90, as detailed in the statement annexed, is sanctioned.
The Government does not consider that sufficient cause is shown for the

2. The Government does not consider that sufficient cause is shown for the entertainment of an additional clerk in the Trichinopoly division. The demand is accordingly disallowed.

3. The services of the individuals whose retention has been sanctioned for a limited period should be dispensed with on the dates specified in the proposition statement.

4. The Superintending Engineer will report whether the number of works in progress in the Madura Division has increased since 1887-88, and if so, by how many.

5. The sanction accorded in para. 1 of the Proceedings has been registered as Provincial No. 6 W. of 1889-90, and classified as Establishment, Temporary.

Almuth L. J. R. S.
Superintending Engineer

3280
Copy of letter from W. Hughes Inquire,
Executive Engineer, Madras Division, to the
Superintending Engineer II Circle, No. 407. C.E.
dated 25th October 1889.

When it was reported that the services
of the Temporary Draughtsman employed
to copy Tank Restoration Estimates, could
be dispensed with at the end of September
it was not anticipated that there would
be so much difficulty as there is in getting
works carried out in certain parts of the
District, or that it would be necessary
to put in hands this year, works in other
parts. As however it is found necessary
to arrange for commencing work in the
Lower Kodavara and Arumangalam
minor basins almost immediately I am
obliged to ask you to obtain sanction
for the employment of a Draughtsman
from 1st November. I have in my office
some 250. Estimates which with the ac-
companying plans have to be copied and
find that my draughtsman can do
little more than deal with the ordinary

Current

current work of the Office, and revised estimates for Tank Restoration works.

2. I enclose a proposition statement in the usual form for the employment of a draughtsman on Rs 20 for 5 months.

No 878nd.

Forwarded to the Chief Engineer P.W.D., with a recommendation that under the circumstances stated by the Executive Engineer, the ^{employment} retention of the temporary Draughtsman up to the end of the current Official year be sanctioned. In G. O. No. 1250. Dt. of 11th May 1889 the Draughtsman was sanctioned up to end of Sep. 1889; Several estimates have been sanctioned lately for Tank Restoration Works.

2. The required proposition statement is submitted herewith. In this statement provision is also made for a sweeper on Rs 2-8-0 per month for the Dinnavelly Division Office. The Executive Engineer states that a sweeper is very much required for his Office, which is a large one, as the messengers, who have been hitherto keeping the building clean, are now required to go out alternately every

every day when the Executive Engineer is in camp.
