GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

Read—the following papers :—

From Colonel H. SMALLEY, R.E., Superintending Engineer, III Circle, to the Chief Engineer, Public Works Department, dated Bellary, 9th September 1889, No. 1651.

Forwarded to the Chief Engineer, Public Works Department, for sanction of Government to the entertainment of these watchers under temporary petty establishment as the Examiner objects their pay being charged to tools and plant, as hitherto, and requires authority to debiting of their pay to petty establishment under para. 19 of Public Works Code. These watchers are required for watching famine tools.

(Signed) H. SMALLEY, Colonel, R.E.,
Superintending Engineer, III Circle.

3298

From Colonel H. SMALLEY, R.E., Superintending Engineer, III Circle, to the Chief Engineer, Public Works Department, dated Bellary, 16th September 1889, No. 1748.

In continuation of this office No. 1651, dated 9th September 1889, I have the honor to request that you will be good enough to cause one additional watcher for 8 months at Rs. 5 per mensem for Kurnool division included in the proposition statement.

From the Superintending Engineer, III Circle, dated 15th October 1889, No. 2055.

From Colonel H. SMALLEY, R.E., Superintending Engineer, III Circle, to the Chief Engineer, Public Works Department, dated Bellary, 5th November 1889, No. 2351.

In reference to your memorandum, No. 4942 C., dated 30th October 1889, I have the honor to explain that in Kurnool division the tools are for the most part stored in sheds on the banks of the canal where they can be watched by lock or sluice lascars or other canal employés. In Cuddapah and Bellary there is no such establishment.

2. We are forced to keep a vast number of tools in these districts and we have very inefficient accommodation for them and unless they are watched night and day, we cannot be held responsible for their safety.

3. At Bellary there was an attempt at robbery in the Executive Egineer's store-yard only lately.

ORDER—dated 20th November 1889, No. 3298 W., Public Works.

The statement of temporary establishment required for watching the tools' sheds in the Bellary, Cuddapah and Kurnool divisions is sanctioned.

2. Steps should be taken to close several of the sheds in the Cuddapah division as promised by the Superintending Engineer in his No. 2055, dated 15th October 1889.

3. The Superintending Engineer will report whether arrangements cannot be made to reduce the number of sheds in the Bellary division by concentrating the depôts.

4. The sanction accorded in para. 1 of these Proceedings has been registered as Provincial No. 47 W. of 1889-90, and classified as Establishment, Temporary.

GENERAL.
ESTABLISHMENT.

Govt. of {1889} Madras.

PUBLIC WORKS.

Dated November, 20th.

Recd. Encl.

G.O., 20th Nov. 1889, No. 3298 W.

NOVEMBER.

Temporary Establishment

The — required for watching the tools' sheds in the Bellary, Cuddapah and Kurnool divisions, sanctioned with remarks.

3298

Note for the Honorable Member with reference to his remarks on draft order on C Nos 8472, 8747, 9899 and 10602.

The tools are famine tools, which under the order of Govt: have to be stored in readiness in the several divisions.

The proposed large expenditure of Rs 1200 per ann for watching them attracted the attention of the undersigned, when the application first came up, and the Supg: Engineer was asked to explain the necessity for this establishment and to report the number of sheds in each division and the distance between each shed Vide Memo. No 4214C dated 19 September 1889.

The Supg: Engineer accordingly submitted a list of sheds in each division with his No 2055 dated 15th October 1889, on receipt of which he was again asked to report why

X3

the

the arrangements made in the Kurnool Division for looking after several of the sheds without the employment of watchmen could not be made in the Bellary and Cuddapah Divisions Vide Memo No. 4942C dated 30th. October 1889 In reply the Supg. Engineer reported that the tools in the Kurnool Dn. were for the most part stored in sheds on the banks of the Canal where they were watched by lascars or other Canal employees and that there was no such establishment in the Cuddapah and Bellary Dns.

As regards the sheds in the Cuddapah Dn. the Supg. Engineer had already reported that steps would be taken to abolish several of the sheds as soon as part of the Makal at Cuddapah was handed over to the P. W. department.

The cost of the establishment in the Bellary Division being excessive, it was proposed in

para

3298

para 3 of the draft order to ask the Supg. Engineer to report whether arrangements could not be made to reduce the number of sheds in the Division, but the words "by concentrating the Depots" have now been added to make the para more clear.

The tools may be concentrated as desired by the Honorable Member but it has been reported by the Supg. Engineer that the existing sheds do not provide sufficient accommodation and new sheds will have to be constructed. This will involve additional expenditure and the tools will probably have to be conveyed back to the stations where they are at present stored on the outbreak of famine.

In these circumstances draft order sanctioning the establishment was submitted for approval in view to the necessary action being taken on receipt of the report

What tools are these? Here is Rs 1200 per ann— being spent on them. For that amount they might doubtless be concentrated in two or three depots.
