Colonel J. Pennycuik, R.E.
Superintending Engineer
Periyar Project

Most honoured Sir,

* In marsh last.

I respectfully beg to hand you the following explanation to satisfy the objections raised by the Examiner M. A. A. in reference to the leave I was compelled to take through illness contracted in malarial district - where the Periyar Project is now in active construction. 52

I was entitled to cumulative privilege leave for a period of about two months, - but thinking that it was not necessary for me to take the whole at a stretch, I applied for and obtained one month's privilege leave from the 23rd November to 22nd December 87, - and finding that I was still ailing I wrote for and acquired the sanction of my Superior officer, Mr. Taylor Esquire, to permit me to remain ^{at Madras} through the Christmas Holidays which began the day following the expiry of my leave. This being a Government concession, was accordingly not considered as an extension to my previous leave. But on the expiry of the Christmas Holidays

* please see letter enclosed.

Holidays, I joined my duty, and unfortunately I was still unwell and had therefore to apply for another months privilege leave which the Examiner chose to consider as one long run of sick leave thereby making me forfeit my right to the privilege leave and mulcting me to the extent of \$65 from my salary. The two months privilege leave I am distinctly entitled to, as the office records will prove, and the interval, namely, the Christmas Holidays should not be taken into consideration as it is a matter left entirely to the option of the Superior, who can authorize subordinates to avail themselves of the same. I further beg to state that sickness was so prevalent there that no body except myself volunteered for service in the Project with no increase of salary, and the arduous nature of my duties eventually tried my constitution to such an extent that I almost completely broke down which necessitated my taking the leave. I am naturally of a hardy constitution and in no way was my illness the result of my own imprudence. I had to do what was expected of me and in the discharge of my duties I fell a victim to climatic influence. Were it possible to get even the ordinary

32
ordinary requirements of food &c, the evils of malaria might have been mitigated, - but to procure even the common necessities of life was so difficult a matter that even ordinary beings found it difficult to contend with numerous obstacles thrown in the way of procuring food. Mrs and Mr Taylor, who I had the honour to work under, were so excessively kind to me that I would consider it were I not to mention that if it had not been for their unremitting attention when I was ill and alone with not a soul to help me, I should have been a dead man.

In conclusion I beg that under the special circumstances above mentioned you will be kindly pleased to submit the same to Government for their favorable consideration and that I may be treated as though I was on privilege leave for so much of the period of my absence as privilege leave was due to me, and thereafter as though on duty.

Further more I beg to mention that it is very hard on employees in the Department, who are compelled by virtue of their work to reside in malarial districts when sickness must necessarily follow and when they do happen to fall

fall sick that no cession should be allowed them. I at the sacrifice of health and every other consideration wishing to do my duty, worked hard at my post with the result that I have shattered my constitution and from the time I went into the Punjab valley I have for over a year been compelled to take sick leave off and on causing me a loss in salary to a considerable extent, besides what I had to pay for my journeys to and fro, and for medicines and medical attendance.

Finally I beg therefore that the present objection by the Examiners may be removed and that full amount of the salary due to me may be passed.

For which act of justice, I shall never fail to show my unfeigned sense of gratitude as long as I am alive.

I beg to remain,
Most honoured Sir,
your most obedient servant.

Submitted to the Chief Engineer P.W.D. for consideration & disposal.

2- The facts are simple enough, but I am not aware how far it is possible for the concession which Mohammed Abdul Aziz asks for to be granted.

3. My own wish is that any indulgence which is possible should be shown to him as he worked exceedingly well & deserves consideration.

No 4592 C of 20 November 88

To be.

No 1143 PR

For favour of remarks.
2. The clerk states that he returned to duty at Thekady on the first working day after the Christmas holidays, and that his second period of leave was granted after he had been at work for a day or two.

3. In these circumstances cannot he be held to have returned to duty at the end of his first period of privilege leave / 23 Decr 1887/, and the second period of leave be converted into sick leave from date of availing?

Leave Code addendum No. 114.

2. If the clerk has been
hardly dealt with, it is not the
fault of this office. The return
of the clerk to duty (if he did
return) was never intimated to my
office. The Executive Engineer
simply extended his leave to a period
in excess of that admissible to him
and it was then necessary to point
out that the whole leave must be
commuted into sick leave. Had the
return to duty been reported, this
would not have been said.

3. It seems desirable to
ascertain distinctly from the
Executive Engineer whether the clerk
did actually return to duty, as there
is not on record by the Executive
Engineer any statement to that
effect, and it is possible that he
may have returned to Thekady, but
that, being sick, he did not do duty
after his return.

too unwell to take
up his duties, he
accordingly applied
for an extension of
Privilege leave for
6 weeks - as the
Clerk was not consid-
ered to have return-
ed to duty - this
period of 6 weeks
commenced on the
23rd December 1887 and
ended on the 3rd February
1888.

4. He returned to
duty on the 6th Febru-

and a further extension
of 3 days was granted.

5. The Examiner P.W.
Accounts did not
admit the leave granted
as "Privilege" it was
accordingly treated
as "Leave on Medical
