Resolution—dated 15th October 1889, No. 727.

The Board resolve to submit to Government the revised estimate of receipts and charges of the Canal and Ferry Fund for the current year, and the budget estimate for the ensuing year.

2. Revised estimate for 1889-90.—The following abstract compares the revised estimate with the sanctioned figures. The opening balance has been adopted from the Special Fund Report for 1888-89 :—

Districts.	RECEIPTS.				CHARGES.		Balance.
	Balance at the beginning of 1889-90.	Revised estimated receipts during the year 1889-90.	Sanctioned estimate of receipts, 1889-90.	Total of columns 2 and 3.	Revised estimated expenditure during the year 1889-90.	Sanctioned estimate of expenditure, 1889-90.

3. The probable receipts for the current year have been estimated at Rs. 1,43,532 or Rs. 1,242 in excess of the sanctioned figures. The following districts present variations as detailed against them :—

No reason is assigned by the Collector of South Canara for the large increase in his district. It is presumed that the order of Government discontinuing the contribution to the Mangalore Municipality, coupled with the diminished provision under construction of ferry boats and platforms, &c., during the current year, will leave a larger surplus balance available for transfer during the ensuing year.

10. The subjoined statement exhibits the estimated receipts and charges of the fund for 1890-91:—

Total	1,52,970	1,41,330	2,94,300	2,94,300	1,11,720

The year is expected to close with a balance of Rs. 1,11,720 to the credit of the fund, of which Rs. 86,560 appertain to Godavari. This, however, will be reduced if Government accord their sanction to the proposals submitted with Board's Proceedings, dated 23rd September 1889, No. 5785, Mis.

READ—the following office-note from the Under Secretary to Government, Public Works Department, to the Secretary to Government, Revenue Department, dated Chepāk, 2nd November 1889, No. 5030-C:—

Your office-note No. 55, dated 30th October 1889.

The Superintending Engineers concerned have brought forward only the following works for inclusion in the Incorporated Local Fund budget for 1890-91 under Canal and Ferry funds.

(1) Construction of an aqueduct over the Chollaghi river	Rs. 3,500
(2) Maintenance of the Kovur-Munjair junction canal	5,000
(3) Repair of ferry boats on the Kovur-Munjair junction canal	200
(4) Repairs to the old loading channel at Dowlaishweram	100

2. The marginally-noted works proposed for execution by the Public Works

Construction of bridges across irrigation canals and drains	Rs. 12,000
Construction of a steam launch for the Nargápar ferry	25,000

Works Department should execute the works, the necessary grants may be placed at the disposal of this department.

3. To admit of the timely issue of the Incorporated Local Fund budget estimate of works to be carried out by the Public Works Department during 1890-91, it is requested that very early intimation may be given of the grants under Canal and Ferry funds inclusive of percentage charges for establishment and tools and plant.

4. The Proceedings of the Board of Revenue received with your office-note are herewith returned.

ORDER—dated 16th November 1889, No. 914, Revenue.

Miscellaneous.

With the first of the papers read above are forwarded the revised estimate of receipts and charges of the Canal and Ferry fund for the current year and the budget estimate for 1890-91.

2. Revised estimate.—The receipts vary but slightly from the sanctioned estimate (Rs. 1,43,532 against Rs. 1,42,290—sanctioned estimate). The estimate of charges requires modification. The Board has provided only Rs. 3,063 for the completion of

the ferry steamer at Rajahmundry. The amount will be raised to Rs. 4,460 with reference to G.O., dated 17th October 1889, No. 847. From the provision (Rs. 4,577) made for cost of supervision and tools and plant, it is inferred that the work of constructing bridges across irrigation channels and drains in the Godáviri district is proposed to be executed through the agency of the Public Works Department, although it was not so entered in the appendix to G.O., dated 20th November 1888, No. 805, Revenue. This amount will be increased by Rs. 343 on account of the increased provision made as above for completing the ferry steamer at Rajahmundry. As thus amended, the revised estimate of charges will stand at Rs. 75,642 for the Godáviri district and at Rs. 1,95,406 for the whole Presidency. It is presumed that the cost of construction of a boat for the Tallapalem ferry (Rs. 460)—item "f" in paragraph 3 of Board's Proceedings, printed with G.O., dated 17th October 1889, No. 847—is included in the sum of Rs. 12,670 provided for construction and repair of boats in the revised estimate.

3. Budget estimate for 1890-91.—The receipts are estimated at Rs. 1,41,330 or Rs. 2,202 less than the revised estimate. The decrease occurs chiefly in the Godáviri district, which is stated to be due to the estimate being based upon the average of three years. At the time of the preparation of the estimates, the Board had not received the orders of Government on their proposals for the utilisation of the balance in favor of the fund at the end of 1889-90 in the Godáviri district. Those orders are contained in G.O., dated 17th October 1889, No. 847, and with reference thereto, provision will be made for the following works:—

i. Construction of an iron-girder bridge over the Mattalapalem salt-creek	Rs. 30,850
ii. Construction of three ballacuts	1,500
iii. Cost of supervision and tools and plant for (i)	7,558

The provision of Rs. 12,000 entered as for construction of bridges across irrigation channels and drains is, it is presumed, intended to meet the estimated outlay during the year on works (b) to (e) specified in paragraph 3 of the Board's Proceedings disposed of in G.O., dated 17th October 1889, No. 847, Revenue. The Board is requested to report upon the point. The estimate of charges as thus revised amounts to Rs. 1,12,855 for the Godáviri district and to Rs. 2,22,488 for the whole Presidency.

4. The estimates, as modified and approved, and a statement of particulars of expenditure for 1890-91 are appended.

16TH NOVEMBER 1888, No. 3632 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following paper:—

From Colonel H. M. VIBART, R.E., Superintending Engineer, V Circle, to the
Chief Engineer, Public Works Department (through the Examiner, Public
Works Accounts), dated Bangalore, 9th October 1888, No. 2942 A.

In para. 4 of G.O., No. 858 W., dated 30th March 1886, it was ordered that a
trial should be given to the suggestion made by the then Superintending Engineer
that for works undertaken at the Public Works Workshops, the General Superinten-
dent's estimates for any job, as approved by the customer who ordered it, shall be
binding both upon the General Superintendent and upon the customers. This is still in
force, as mentioned in para. 31 of the Deputy Examiner's note in G.O., No. 3474 W.,
dated 20th December 1887.

2. In para. 4 of my letter No. 2403, dated 2nd September 1887, I suggested that,
as far as all Government work is concerned, estimates might be abolished and actual
cost *plus* percentages charged without undue profit or loss.

3. The General Superintendent, Public Works Workshops, considers that estimates
should be treated as estimates only both for Government departments as well as for
private individuals, and that charges made for work done should be the actual cost of
the work *plus* the percentages in all cases, in accordance with para. 2 of chapter VII of
the Government of India Public Works Code, volume III of 1887, and that the practice
of treating estimates as binding whereby considerable extra profits accrue to the
workshops is unfair to the customers. I would advocate the adoption of the procedure
laid down in the Government of India Code paragraph alluded to, and would suggest
that when estimates are framed under this ruling for private individuals and sent to
them for approval, a copy of the Government of India Code paragraph should be attached
to each estimate and, if the parties refuse to agree to the condition therein mentioned,
the work will not be carried out. I would remark, however, that no prohibitory orders
have been passed in G.O., No. 3474 W., dated 20th December 1887, on the instances
brought to notice by the Deputy Examiner of extra profits derived by the workshops
from actual cost of work falling below the cost previously estimated, and I would further
observe that in cases of work undertaken by the workshops for private individuals
turning out to be bad and having to be done over again, as in the case of the rams
ordered by Messrs. Stanes and Co., it cannot be expected that the cost of doing the
work a second time will be borne by the person who ordered it, and in such cases
the loss will fall on the workshops, and there will be nothing as a set off against
such losses if any balances remaining from estimates after deducting the actual cost
plus the percentages were not to be credited to the workshops as extra profits.

No. 2561.

Forwarded with the remark that, from an accounts point of view, it will be very
much simpler to charge actual cost in all cases as proposed by the Superintending
Engineer.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following papers: -

- (1) Proceedings of the Board of Revenue (L. R), 2/15 October 1887 No 727.
 - (2) Office note to P. W. S. 2/30 October 1887 No 55 forwarding the budget estimate of receipts and charges of the Canal and Ferry Fund for 1890-91, for information as to whether it provides for all the works proposed to be executed by the D. P. W. during the next year from those funds.
 - (3) Office note from P. W. S. 2/2 November 1887 No 5030 C & endorsement of the Revenue Department - thereon, 2/5 November 1887 No 7130.
 - (4) the following Proceedings of the Board of Revenue (L. R) 2/7 November 1887 No 6819 mis. on endorsement of the Secretary to Govt. R. S. 2/5 November 1887 No 7130, on office note from the Under Secretary to Govt. P. W. S. 2/2 November 1887 No 5030 C.
- Resolution.

The Board begs to state that the two works named in the margin of para 2 of the office note from the P. W. S. are intended to be executed by that Department and that they are so entered by the Collector in his budget estimate, with reference to para 4 of Board's Proceedings dated 12 November 1888 No 6642 mis. read in P. O. 20 November 1888 No 805.

Order thereon, 16 November 1889, No 914.

With the first of the papers read above, are forwarded the revised estimate of receipts and charges of the Canal and Ferry fund for the current year and the budget estimate for 1890-91.

2. Revised Estimate. The receipts vary but slightly from the sanctioned estimate (Rs 1,43,532 against Rs 1,42,290 - sanctioned estimate). The estimate of charges requires modification. The Board has provided only Rs 3063 for the completion of the ferry steamer at Rajahmundry. The amount will be raised to Rs 4,460 with reference to G.O. 17 October 1889 No 847. From the provision (Rs 4,577) made for cost of supervision and tools and plant, it is inferred that the work of constructing bridges across irrigation channels and drains in the Godavari district is proposed to be executed through the agency of the Public Works Department, although it was not mentioned in the Appendix to G.O. 20 November 1888 No 805 Revenue. This amount will be increased by Rs 343 on account of the increased provision made as above for completing the ferry steamer at Rajahmundry. As thus amended, the Revised Estimate of charges will stand at Rs 75,641 for the Godavari district and at Rs 1,95,406 for the whole Presidency. It is presumed that the cost of construction of a boat for the Tallapalem Ferry

Ferry (Rs 460) - item "f" in para 3 of Board's Proceedings printed with G.O. 17 October 1889 No 847 - is included in the sum of Rs 12,670 provided for construction and repair of boats in the revised estimate.

3. Budget Estimate for 1890-91. The receipts are estimated at Rs 1,41,330 or Rs 2,202 less than the revised estimate. The decrease occurs chiefly in the Godavari district which is stated to be due to the estimate being based upon the average of three years. At the time of the preparation of the estimates, the Board had not received the orders of Government on their proposals for the utilization of the balance in favour of the fund at the end of 1889-90 in the Godavari district. Those orders are contained in G.O. 17 October 1889 No 847 and with reference thereto provision will be made for the following works.

i. Construction of an iron girder bridge over the Mattala-paluu salt creek. Rs 30,850

ii. Construction of three ballacils. Rs 1,500

iii. Cost of supervision and tools and plant for i. Rs 755-8

The provision of Rs 12,000 entered as for construction of bridges across irrigation channels and drains is, it is presumed, intended to meet the estimated outlay during the year on works (b) to (e) specified in para 3 of the Board's Proceedings disposed of in G.O. 17 October 1889 No 847 Revenue. The Board

175
P.O. No. 10979

is requested to report upon the point. The estimate of charges as thus revised amounts to Rs 1,12,855 for the Godavari district and to Rs 2,22,488 for the whole Presidency.

4. The estimates as modified and approved and a statement of particulars of expenditure for 1890-91 are appended.
