From E. C. O'BRIEN, Esq., Assistant Director-General of the Post Office of India, to the Secretary to the Government of Madras, Public Works Department, dated Calcutta, 21st November 1889, No. 6982.

Referring to para. 2 of the Government of India, Public Works Department, Resolution, No. 374 A—C.W, dated the 31st ultimo, regarding the provisional grants for 1890-91 for Imperial Civil Works, and in continuation of this office letter No. 4629, dated the 4th September last, I have the honor to inform you that the work in connection with the General Post Office, Madras, has been omitted as sufficient funds are not available.

2. With regard to the grants for Minor Works the Government of India in the Department of Public Works have been requested to place a lump sum at the disposal of this office as "Reserve with the Government of India." From this amount appropriations for Postal Minor Works in the several provinces will be sanctioned in the same manner as in the last two years. Under these circumstances it is not necessary to include anything for Post Office Minor Works in the Imperial Budget estimate of your Province for the year 1890-91.

Telegram from the Secretary to the Government of Madras, Public Works Department, to the Secretary to the Government of India, Public Works Department, Calcutta, dated Madras, 3rd December 1889, No. 5665 C.

Director-General Post states that provision for Postal Minor Works made in your No. 374 A—C.W., 31st October, need not be included in budget of this Presidency, and that he requested you to place a lump sum at his disposal as reserve with India as in last two years. Please wire if this can be done.

2. The provisional grant sanctioned by the Government of India has been reduced by Rs. 5,000,* being the allotment for Postal Minor Works which will be held in reserve with the Government of India, and the budget estimate for 1890-91 has been prepared for the balance Rs. 24,900 as shown below :—

* Rs. 5,200 inclusive of the percentage charges for establishment.

Establishment	4,600
Tools and Plant	300
Total ...	24,900

3. The following works have been brought forward by the Superintending Engineers concerned and the Consulting Architect to Government for inclusion in the budget for 1890-91 :—

4. With reference to item No. (3), the Director-General of the Post Office of India has reported in para. 1 of his letter No. 6982, dated 21st November 1889, that the work was omitted as sufficient funds were not available. As regards items (1) and (2), the Directors-General concerned will be requested to take the necessary steps to provide funds if the works are considered urgent.

5. The Superintending Engineer, III Circle, will lose no time in submitting plans and estimate for the Telegraph Office at Guntakal called for in para. 2 of G.O., No. 2598 W., dated 19th September 1889.

8. The difference between the budget and the revised estimates of charges for 1889-90 is due to the transfer, to Bombay and Punjab, of Rs. 2,428 under Telegraph Minor Works, and to the several appropriations made during the year by the Director-General of the Post Office of India for Postal Minor Works in this Presidency.

ORDER—dated 22nd June 1889, No. 1636 W., Public Works.

With the papers above recorded, Superintending Engineers and the Consulting Architect to Government submit statements of demands under Imperial Military and Civil Works for repairs, incomplete works of 1888-89, and for new works proposed to be undertaken in the current official year.

2. The demands for Military Minor Works, Ordinary, amount to—

	RS.
Incomplete works	2,784
New works	38,637
Total ...	41,421

and the budget grant for incomplete minor works is Rs. 10,000. In the case of incomplete works, funds have been provided only for item 48 (*a*) of the statement B printed with these Proceedings, as no appropriation is required for the rest under Code para. 1908, part III. A sum of Rs. 1,850 has also been allotted for one of the minor new works (*vide* item No. 48 of the statement), as a liability of Rs. 1,708 is reported to have been already incurred on it. The Superintending Engineer, V Circle, will explain the circumstances in which the grant provided for this item in 1888-89 was not utilised. Deducting Rs. 3,523 allotted in the statement B for incomplete and new works, the balance of the reserve for incomplete new works will amount to Rs. 6,477. Of this sum, Rs. 5,443 will be transferred to incomplete major works, under which the demands are much in excess of the budget provision, and the balance Rs. 1,034 will be placed at the disposal of the officers commanding divisions and districts to whom Superintending Engineers will apply for funds required under Military Minor Works.

3. The demands for Ordnance Works amount to—

	RS.
Incomplete works	3,707
New works	277
Total ...	3,984

while the budget grant for incomplete works under that head is only Rs. 3,050. Funds have been provided for all the incomplete works with the exception of item 50, for which Rs. 110 only, being the balance of the available grant, has been allotted. The Inspector-General of Ordnance will be requested to propose a transfer of the balance, Rs. 657, required for this item from the grants for other ordnance works in the Presidency.

4. The demands for Military Major Works amount to Rs. 89,623—

	RS.
Incomplete works	32,941
New works	56,682
Total ...	89,623

while the grant provided in the budget for incomplete major works is Rs. 13,900. Adding to this amount Rs. 5,443 transferred from the reserve for incomplete minor works (*vide* para. 2 of these Proceedings), the total sum available for distribution is Rs. 19,343, which has been allotted in the statement B. In the case of items 60 and 70 of the statement, the demands are in addition to the grants already provided in the budget and have not been complied with as the reserve at the disposal of Government is limited. Funds have not been provided for item 69 of the statement, as the expenditure incurred on it up to 1888-89 is much in excess of the sanctioned estimate and as no revised estimate has yet been sanctioned. The Superintending Engineer, V Circle, will explain the circumstances in which the outlay on this item was allowed to exceed the sanctioned estimate. Provision has been made for all other incomplete major works brought forward by Superintending Engineers.

5. The demands under Military repairs amount to Rs. 3,35,000 against the budget grant of Rs. 2,95,650. Allotments have therefore been made to the extent of the available grant.

6. Under "Civil Works" the demands for Original Works, Telegraph, amount to Rs. 1,257, but in the case of items 2, 3 and 4 no appropriation is necessary under Code para. 1908, part III. The Superintending Engineer, IV Circle, will apply to the Director-General of Telegraphs for the allotment required for alterations to the outhouses attached to the Telegraph office at Ootacamund.

7. The demands under Postal repairs amount to Rs. 7,730 against the budget grant of Rs. 9,000. As the requirements under Telegraph repairs are much in excess of the budget provision, the sanction of the Government of India to the transfer of Rs. 1,000 from Postal to Telegraph repairs will be separately applied for. Of the balance Rs. 8,000 thus available under Postal repairs, allotments have been made to the extent of Rs. 7,730 applied for by Superintending Engineers and the Consulting Architect, and the difference Rs. 270 will be held in reserve.

8. The demands under Telegraph repairs amount to Rs. 5,010, while the budget grant is only Rs. 4,000. The latter sum has been distributed to all the divisions, except the Architect's, for which the necessary allotment will be made on receipt of the sanction of the Government of India to the transfer of funds proposed in para. 7 of these Proceedings.

9. As the system of distributing the repair grants in the statements of demands is productive of inconvenience, these grants will be finally distributed in the budgets of ensuing years. Superintending Engineers and the Consulting Architect to Government in framing their budgets of future years will carefully consider the requirements under Repairs and include the same in their budget estimates.
