Letter from the Executive Engineer Ma-
dura dt. to the Secy? Engineer Madras
No. 454 dt. 14th Nov 1889 -

3534

As provided in para 2 of my
letter No 323 dt. dated the 16th Sept/89
I have the honor to forward herewith
his estimate amounting to Rs. 5300
under General Tools & Plant for
sanction and the provision of
necessary funds. The grant for
the year under this head being
only Rs. 350 & the whole of it
required to meet other demands.

2. The amount allotted by credit
to the Vagai Bridge work on account
of Tools & Plant enormously exceeds
but is Rs. 4347 & the difference
represents provision for meeting
liabilities already incurred or to
be incurred.

3. Provision has also been made
in the estimate for value of
tools & plant handed over by
the District Board which according
to the terms of G.O. No 2281 dt. dated 10-9-86
is to be credited to the work as a
set-off against the percentage
charges due from the Board

4. Lastly I have to point out
that in the G.O. above quoted
the percentage charge payable
by the District Board is fixed
at 1 per cent, but from the Engineer's
letter No. 670 ¹²/₆ dated 23rd Sept/89
you will observe that one and
a half per cent is charged -

No. 986 m.t.

Copy together with the estimate
is submitted to the Chief Engineer
P.W.D. for sanction of Government
with reference to G.O. No. 2419 W of
the 30th August/89 -

2. There are no funds available
in the Circle, at any rate for the
present to meet the demand -

3. As none of the pulleys at the
Vaiyai Bridge form part of
the machinery handed over
by the District Board, the
consent of the President to
the transfer to the Cuddalore
Bridge Works is not necessary

as

as ordered in para 2 of the G.O.
