GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following paper:—

From T. M. HORSFALL, Esq., Registrar of the High Court of Judicature, Appellate Side, to the Chief Secretary to Government, dated Madras, 26th August 1889, No. 2088.

I am directed to forward, for the information of Government, copy of letter, No. 747, dated the 10th instant, from the District Judge, South Malabar, requesting that funds may be provided, without delay, for the construction of the new District Munsif's Court at Chávakád, the estimate for which was sanctioned in G.O., dated 27th March 1888, No. 988 W.

2. I am to point out that more than five years ago (*vide* Mr. Nicholson's letter printed in G.O., dated 29th July 1884, No. 1841 W.) this building was pronounced unsafe, and that Mr. Moore now describes it as positively dangerous to human life to continue to hold court in it.

ENCLOSURE.

From L. MOORE, Esq., District Judge, Calicut, to the Registrar, High Court, Appellate Side, Madras, dated 10th August 1889, No. 747.

The District Munsif of Chowghat reports that the building in which he now holds court is in a very dangerous condition. He writes that "in some parts the walls are crumbling, that the court is held upstairs and that a crowded court-day is simply dangerous." The building is one of the oldest in the district and has been pronounced by the officers of the Public Works Department to be unfit for use.

The Government have by G.O., dated 27th March 1888, No. 988 W., sanctioned a sum of Rs. 19,245 for the construction of a new court-house. As nothing further has been done up to this, I request that the Government may be moved to provide funds as soon as possible.

Transferred to the Public Works Department in view to the provision of the requisite funds.

3rd September 1889.

(Signed) A. G. CARDEW,
Under-Secretary.

ORDER—dated 20th September 1889, No. 2611 W., Public Works.

Communicated to the Superintending Engineer, IV Circle, who will arrange for the commencement of the work in anticipation of an allotment which will be made on receipt of information from the Superintending Engineer, as to the amount that can be spent on the work during the current official year.

2. The present court-house should be carefully examined, and if in an unsafe condition, it should be vacated.

(True Extract.)

(Signed) R. B. E. DRAKE-BROCKMAN, Lt.-Col., R.E.,
Ag. Joint Secy. to Govt., P.W.D.

To

The Superintending Engineer
4th Circle

Dated 5th }
Despatched 6th } December 1889

No. 629

It has the honor to state with
reference to Government Order
No. 2611 W of 20th September 1889, para 2,
that the present Court House in
Chavakad on examination proves
to be of mud walls with an upper
plank floor some 18 feet wide of which
a longitudinal summer in the
middle on posts, bears more than
half the weight.

2. It is a low two storied
thatched building of native pattern,
and has been in apparently much
the same state for a number of
years, showing no signs of immediate
failure.

3

There

3. There is no doubt the walls if wet might give were the court crowded.

4. This could be prevented by putting in a summer like that in the middle close to each side wall supported by posts underneath and an additional fifth post inserted in the rather wide gap under the middle and existing summer would be useful.

5. Beyond this easily done by the Department concerned, nothing seems required, till the new Munsiff Court is ready.

Sgt A. J. Fraser R.E.
Executive Engineer

A. 552
G.W.

Copy submitted to the
Chief Engineer R.W. Department
for information with reference
to para 2 of G. O. No. 2611 D of 20th
September 1889. The Executive En-
gineer has been ordered to get the
protective measures proposed in
para

- para 4 of his letter carried out at
once in order to make the building
safe till the new court is ready.
