PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following paper

From the Surgeon General with the Government of Madras. N^o 53, of 16th December 1888.

I have the honor to submit to the Right Honorable the Governor in Council, a letter from the medical officer in charge of the Leper Hospital, Madras, in which he brings to notice that the quarters of the apothecary attached to the hospital are in too close proximity to the wards.

2. I have on two occasions carefully examined the buildings in question and consider that it is not right to compel any healthy person to live so near lepers.

3. The occupants of the house referred to cannot look outside without seeing lepers in all stages of the disease and at certain times of the year the smell of the sores invades the premises.

4. According to modern ideas, leprosy is a contagious disease, and I am of opinion that residence in the apothecary's present quarters

quarters must entail a certain amount of risk.

5 I consider therefore that quarters should be provided for the apothecary of this institution outside the walls either in the shape of a Government building or a hired house.

Order:— 11 February 1889 No 137.

In the circumstances brought to notice in the foregoing papers, the Government approve of the recommendation to provide the apothecary attached to the Leper hospital with quarters outside that institution.

2. The Surgeon General will accordingly submit plans and estimates for the erection of new quarters, and report whether the present building can be utilized for the purposes of the hospital.
