630/1

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

Read—the following papers:—

From Colonel A. T. Fraser, R.E., Executive Engineer, West Coast Division, to the Superintending Engineer, IV Circle, dated Calicut, 30th January 1889, No. 57.

I have the honor to state, with reference to G.O., No. 101 W., dated 15th January current, para. 2, that the old museum building at Mangalore has been used for twenty-seven years or more as the Engineer's office of the South Canara district, and is at present occupied by the establishment and stores, &c., of this department, as well as a portion by the Local Board's Engineer, who can find no other accommodation.

2. Making it over to the municipality would require the erection of fresh offices at considerable expense, including space for workshop and stores the premises now afford.

3. The measure would be equivalent, therefore, to the grant of what these new buildings would cost, and the museum would not be available till they are ready.

4. The site on the busiest end of the quay adjoining the custom-house and having only a narrow street behind is rather unsuitable for a town hall, a much better position for which is to be found in that of a private house standing in its own grounds west of the station club, occasionally, it is understood, rented for municipal meetings.

5. It will be seen from the plan of the museum enclosed that below it is nothing but store-rooms, and the suites of rooms on the upper floor are divided off into compartments by large archways, which is a convenient enough arrangement for office purposes, but makes it entirely unfit for being turned into a public hall.

6. In addition to this the beams of the wood-flooring are weak and would not support a crowd. Renewing them and adapting the building by improving the staircases and in other ways would make its transfer still less economical.

7. There do not appear to be objections to making over either the site or materials of the present taluk cutcherry to the municipality for a school, though it will be some time before the new cutcherry can be built elsewhere and these had.

No. 61-E.W.

Submitted to the Chief Engineer, Public Works Department, with reference to G.O., No. 101 W., of 15th ultimo.

2. The transfer of the old museum building in question to the municipality is not advisable, nor do the buildings appear to be suitable for a public hall.

3. There appears to be no objection to make over to the municipality both the site and materials of the present taluk cutcherry after a new cutcherry has been built and the office removed thereto.

Coimbatore,
4th February 1889. (Signed) A. C. SMITH, Lieut.-Colonel, R.E.,
Superintending Engineer, IV Circle.

Office note from the Secretary to Government, Revenue Department, dated 26th February 1889, No. 12.

Order—dated 2nd March 1889, No. 630 W., Public Works.

In the address to His Excellency the Governor, dated 15th October 1888, the Municipal Councillors of Mangalore requested that the building, which was formerly the museum, might be made over to them for conversion into a town hall and a public library and reading-room; also that the site and materials of the present taluk cutcherry might be granted to them for the construction of a Municipal Middle school.

2. On inquiry the Government learn that the old museum has, for many years, been occupied by the local offices and stores of the Public Works Department and of the District Board's Engineer, and that new offices and stores would have to be constructed elsewhere if the building were made over to the municipality. In these circumstances the Government regret their inability to comply with the first request of the Municipal Council.

3. The second request cannot be considered until a new taluk cutcherry has been constructed, a work which has not yet been sanctioned. The Superintending Engineer will, however, expedite the submission of the estimate called for in G.O., No. 3248 W., dated 12th October 1888.

SUBJECT.

Erection of a new Taluq cutcherry at Mangalore

DISPOSAL.

No. Dated

Tow 630W

630/10

My note of 16.2.89 attached, was written on information supplied by the Record & Budget branches that no call for estimates for a new taluk office at Mangalore could be traced.

It now turns out that plans & estimates for a new office were called for in G.O. No 3248W of 12.10.88 —

The order drafted on Current No 1161 might perhaps be now issued with the addition of the following words at the end —

"The Deputy Engr will however expedite the submission of the estimate called for

circumstances

11

Tahsildar's cutcherry, Mangalore, has been further improved. There is no sanctioned estimate or a call for one.

The work was entered in the Provincial Budget under Class B, with the remark "estimate is awaited" - vide item 10 - 630.

630

If considered desirable the Rev. Dept might be asked to state whether there are any orders in ~~that~~ Dept. relative to a new taluk cutcherry being required.
