I had been thought that in
the present case Colonel Ross
Thompson R.E. might have
been left in the Presidency
and Bangalore Div.

If, as my Honble Colleague
states the present condition
of the P.W.D. the posting of
a Civil Engineer to the Executive
Charge of our two most
important Military Districts,
one of them containing all our
Coast defences, must become
the rule - and that even for
the higher Charge of Supply
Engineers as Officers R.E. will
not always be available, then
the sooner a Military Works Dept
is formed the better.

Perhaps the conclusion arrived

one - But in addition to
what my Honble Colleague has
written says, dealing with
existing facts relating to the
Department - It is to be

remembered
that St Thomas Mount
Pallavaram Pullamda
will not be under the
St Thomas: but will
remain as they are now.
So that practically the
St Thomas duties will be
(with one important exception
alluded to by His Excellency)
confined mainly to
Military buildings -
The exception I allude to is
Coast Batteries - No doubt
this is a very important consideration
but I think the note
meets the objection to
a question about stray when
the Subdivisional Officers
are Military men
