ARMOURY FOR NATIVE CAVALRY REGIMENTS.

NOTE.—This design is intended as a guide for the size of the building and the arrangement of the arm racks, and not for details of construction, such as floor and roof covering, which, however, should be of a permanent and substantial nature; the latter to be designed especially with a view to the safety of the arms.

ARMOURY FOR NATIVE INFANTRY

FIG. I
(1) WING ARMOURY
WITH COMPARTMENTS FOR 4 COMPANIES, 4 × 112 RIFLES

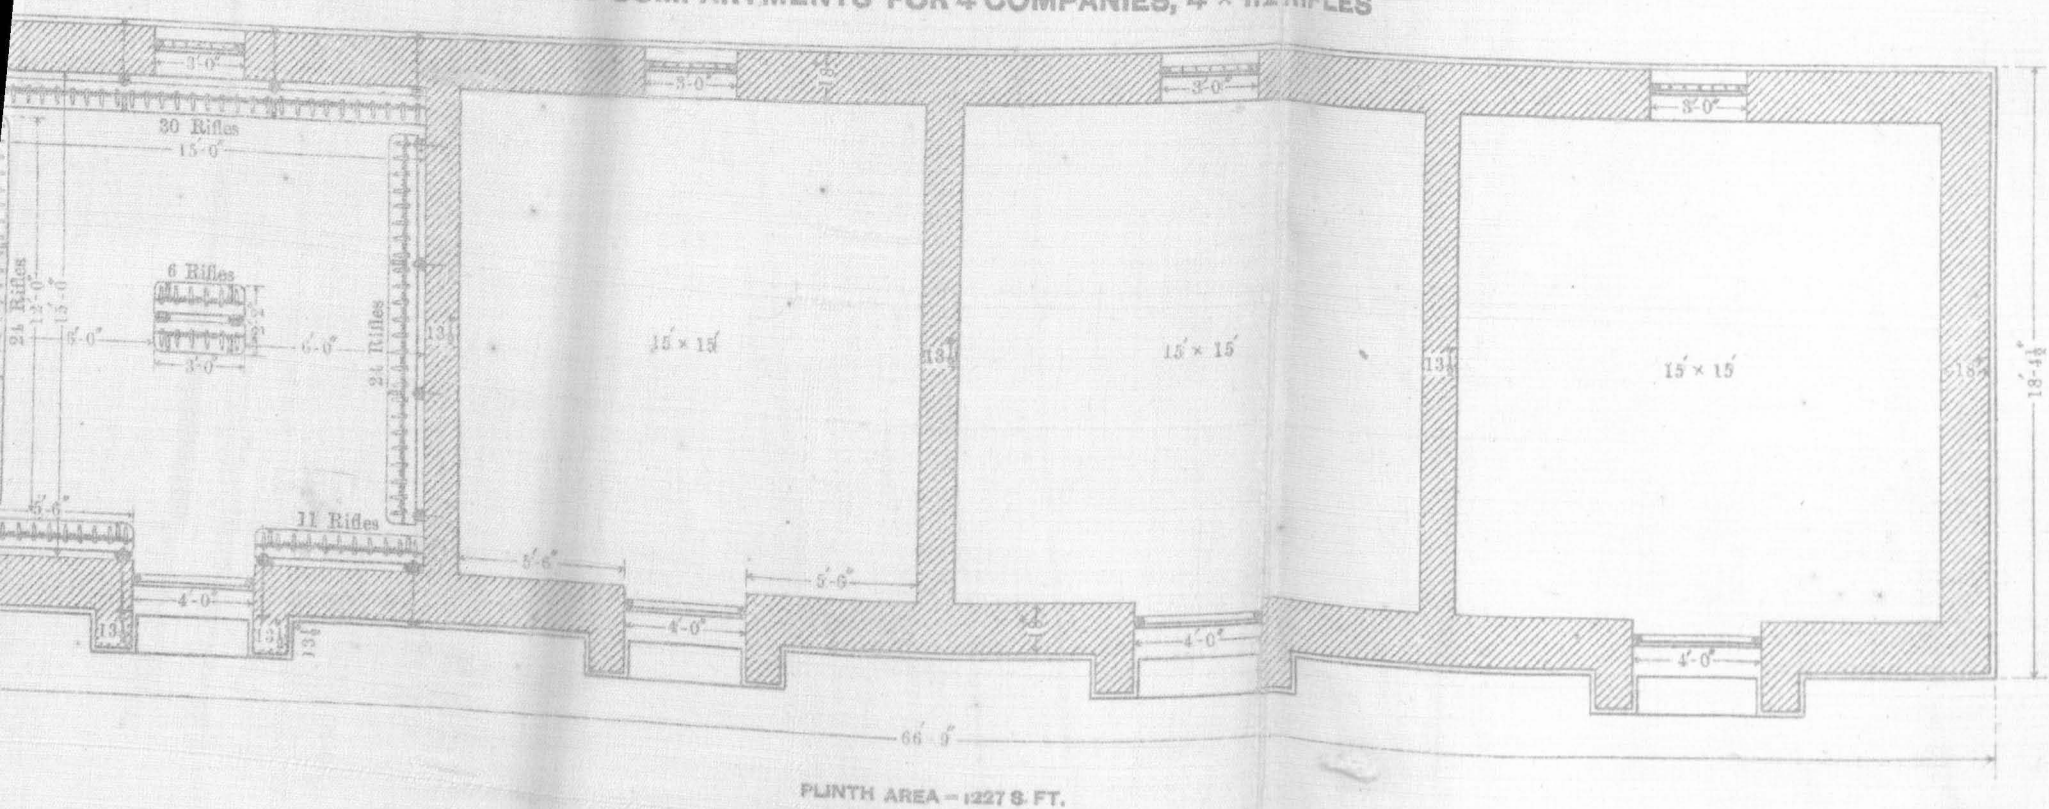

FIG. II
(2) WING ARMOURY
WITH COMPARTMENTS FOR 2 DOUBLE COMPANIES, 2 × 224 RIFLES

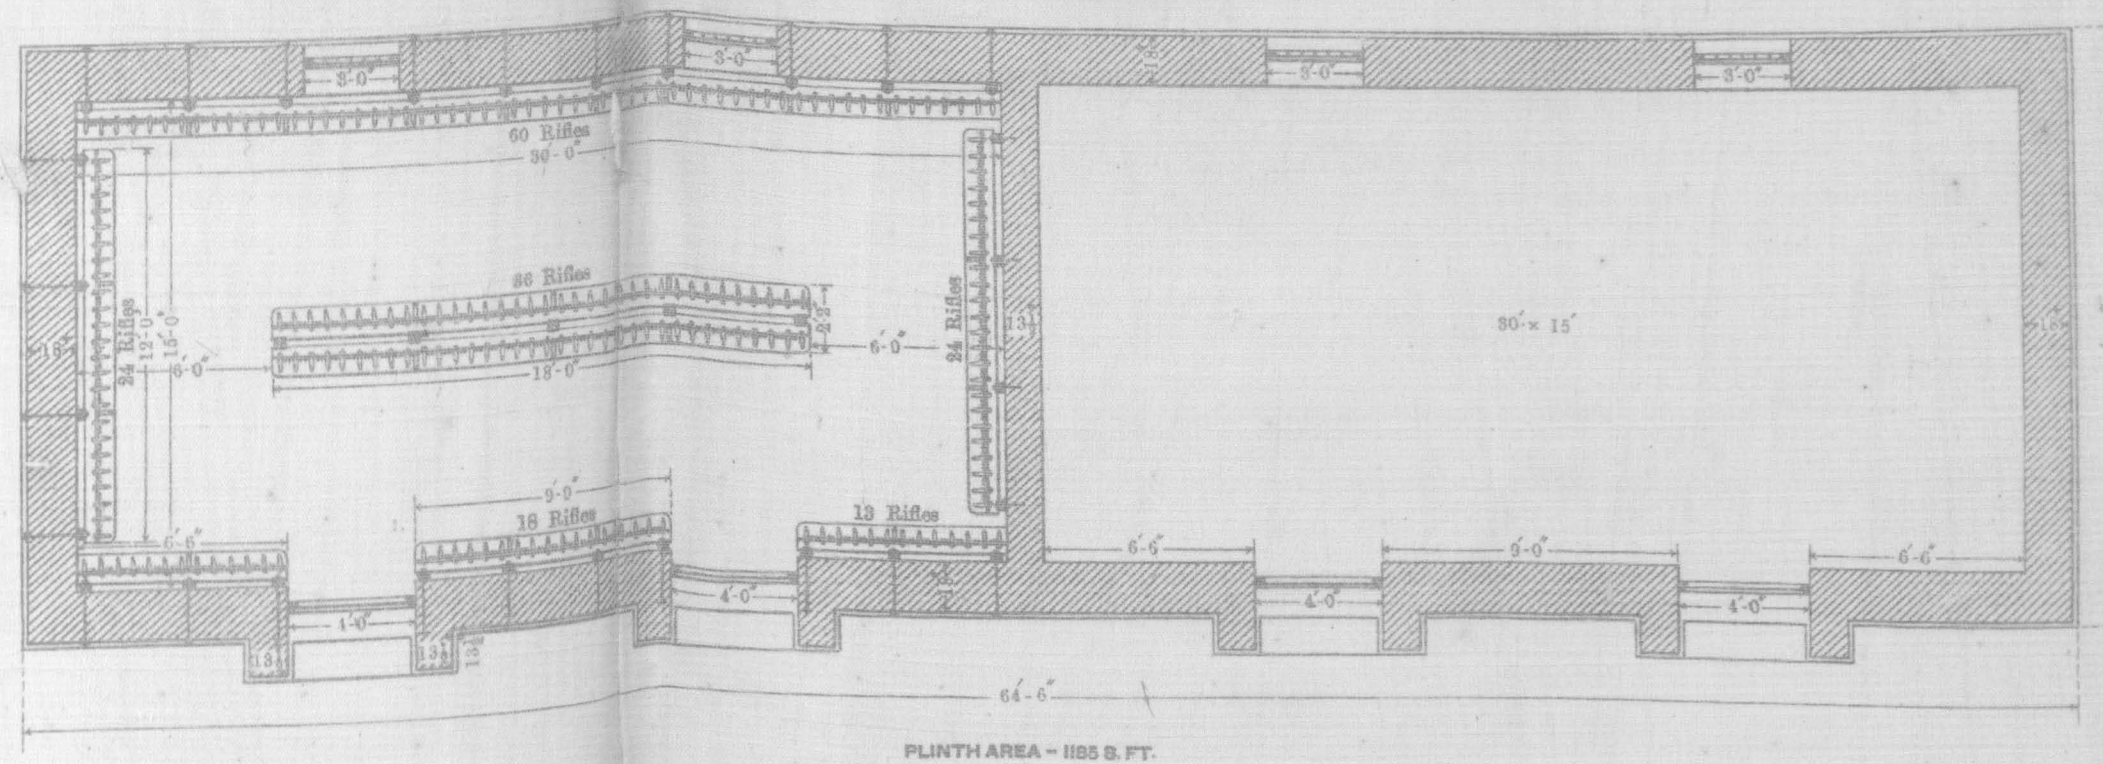

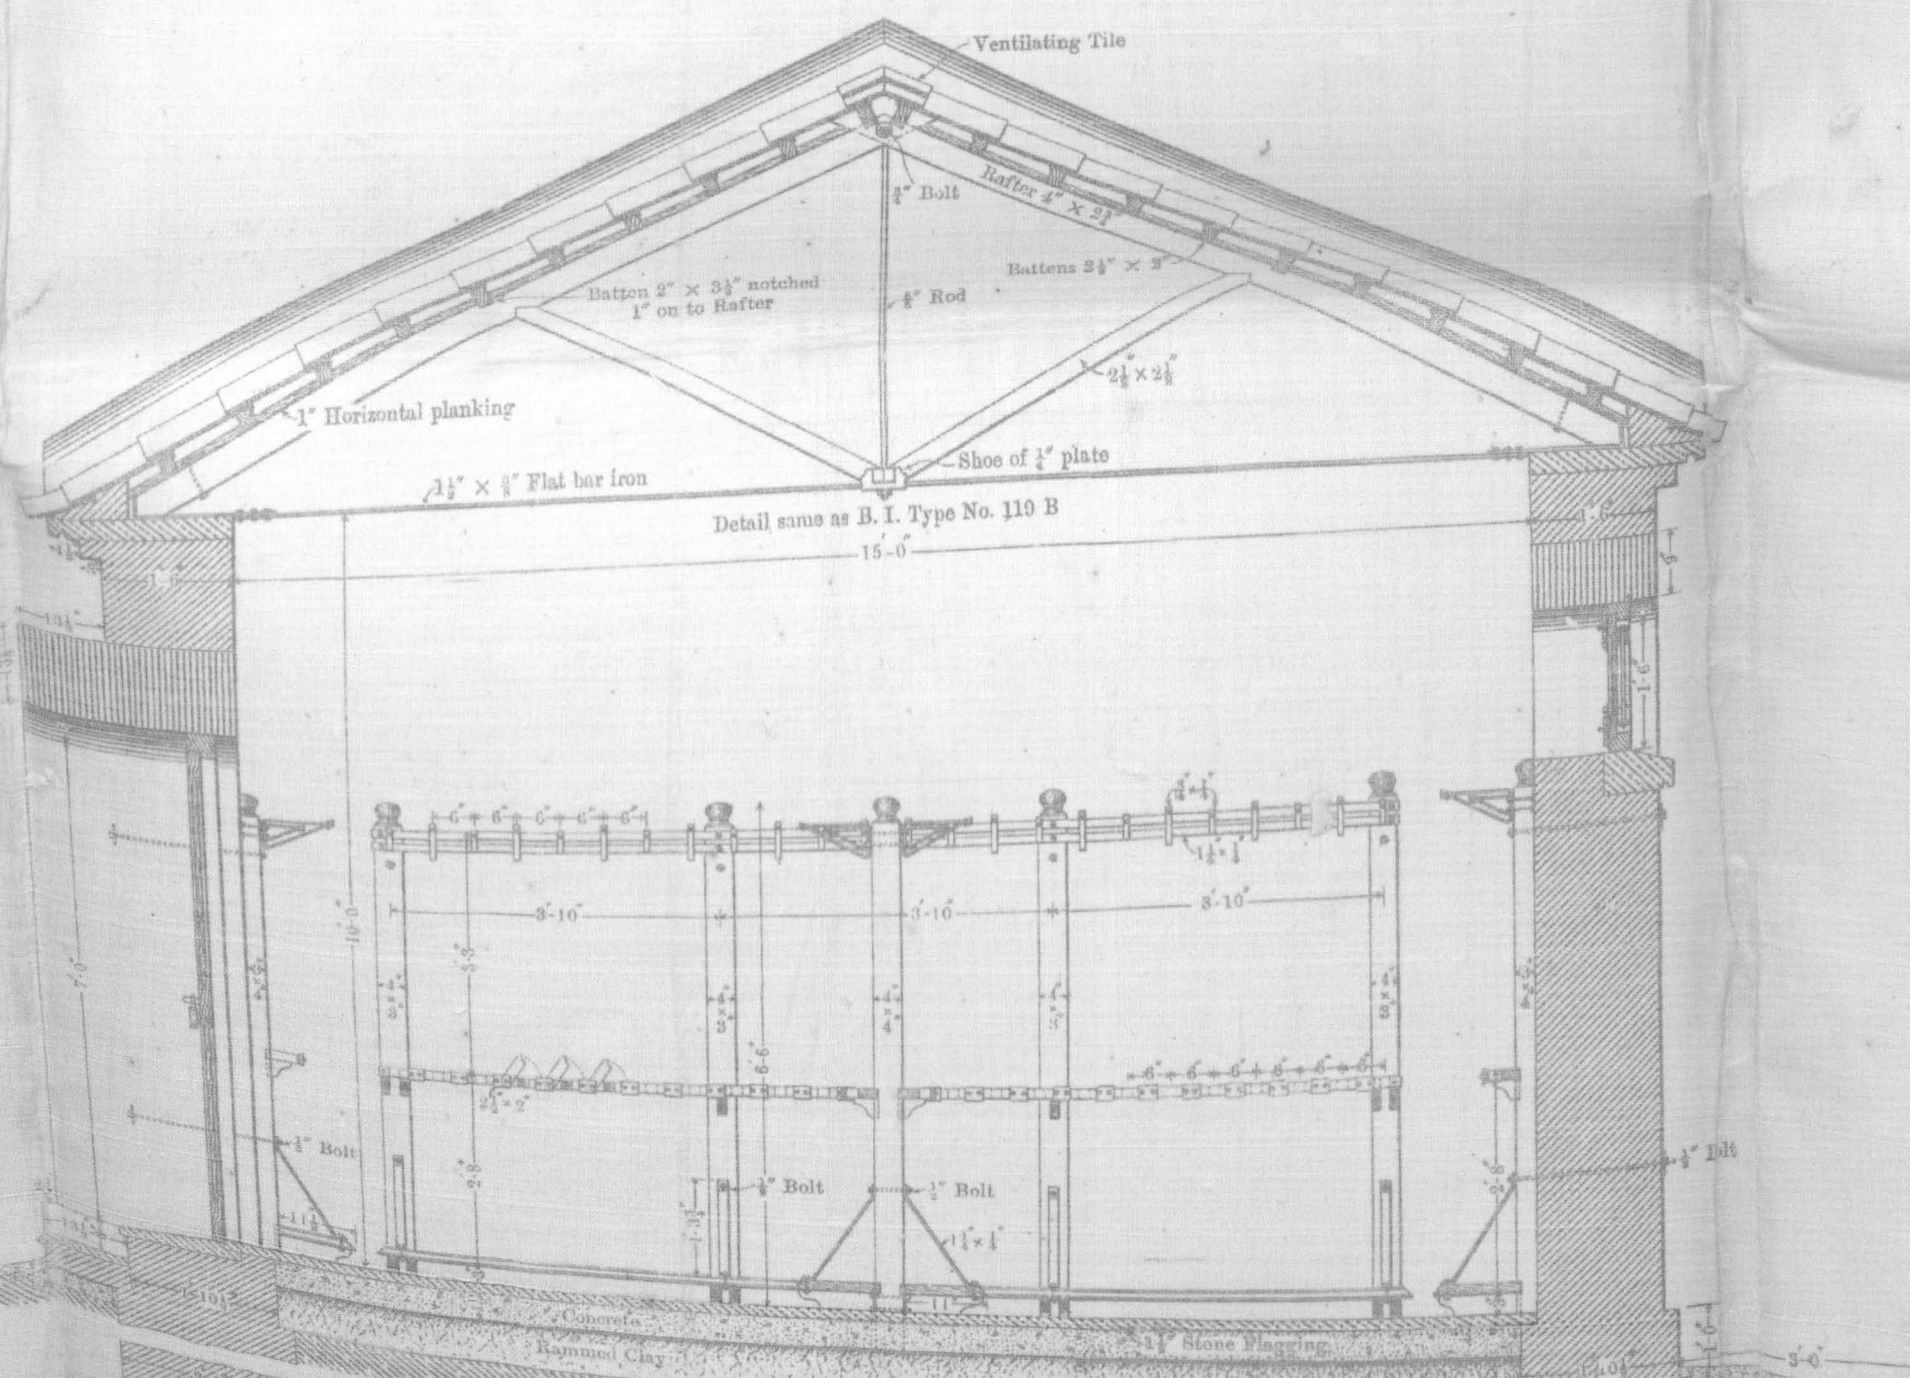

FIG. III
CROSS SECTION

Scales.

For Plans & Elevation 1 inch.

For Section 1/4 inch = 1 foot.

NOTE

The Plan that should be usually adopted is Fig. (1); should however special circumstances exist at certain stations, rendering such a course necessary, Plan (2) might be followed. When the Men's Huts are very much scattered (as may happen in the case of Hill Stations) & Armouries might be given per Battalion, each building to contain the Arms of a Double Company.

The Details for the Arm-racks and Accessory Pegs will be the same as shown in Figs. V. to VIII. of Type drawing No. 2 Native Cavalry Series.
