The enclosed telegram reports the death of Lieut Knowles Asst Engineer at Kurnool which is 27 miles from the head of the Potungay Agency in Vizagapatam district.

This officer who landed in India Oct 1885 and has on the Potungay Agency work and has engaged on Irrigation Works since January 1886. He was a very promising young officer and his death is I consider a loss to the service.

Tho' I am as yet no acquainted but I have no doubt but that from and conversing on the Agencies of which he never complained had much to do with his death.

Sir,

In continuation of
this office No. 1662 dated
5th instant I have the
honor to inform that I
am in receipt of a demi
official letter from the
District Surgeon in which
he writes as follows:-

"From the record of the late
Mr. Knowles' case I am
of opinion that the pro-
ximate cause of death
was haemorrhage from
bladder due probably
to ulcerati"

Surgeon further states that "His system I think must have been in a very bad state, probably from malarial poisoning, to have caused so sudden and great a collapse"

2. In conclusion I have only to state that the late Mr. Knowles even when in ill health never spared himself in the discharge of his duties and that by his death Government have lost a most hard-working and promising officer.
