Order—

Ordered that the foregoing be communicated to the Government of Madras for information and guidance, with the request that 35 * printed copies of the budget estimate, as now passed, may be submitted so as to reach the Government of India not later than the 1st May 1889.

(Signed) A. G. BEGBIE, Lieut.-Col., R.E.,
Offg. Dy. Secy. to the Govt. of India.

ORDER—dated 22nd April 1889, No. 1071 W., Public Works.

In the preliminary issue of the Imperial Civil Works budget for 1889-90, a sum of Rs. 25,325, which included a provision of Rs. 4,225 for the construction of a combined Post and Telegraph office at Naduvatam, was proposed for expenditure during the current official year. It having been subsequently brought to notice (*vide* G.O., No. 603 W., dated 1st March 1889) that the question of constructing a Government building for the Post office at that station at a large outlay had been abandoned owing to a rented building being available, the grant for the building proposed by the Director-General of the Post office has been omitted and the budget estimate for 1889-90 reduced to Rs. 21,100, which has been confirmed by the Government of India.

2. The revised estimate of charges for 1888-89 as shown in the preliminary issue of the budget amounted to Rs. 21,668; but the modifications of allotments since sanctioned reduced the estimate to Rs. 20,511. The Government of India having passed the revised estimate for Rs. 20,500 in round numbers, that sum has been adopted in the final issue of the budget for 1889-90 and the necessary reductions have been made under Departmental heads.

3. The grant of Rs. 4,000 provided for Telegraph minor works will be placed at the disposal of the Director-General of Telegraphs, to whom Superintending Engineers and the Consulting Architect will apply direct for funds required for incomplete and new works under that head.

4. As the Director-General of the Post office has intimated that the grant for Postal minor works will remain at his disposal as in 1888-89, Superintending Engineers and the Consulting Architect will apply to that officer direct for funds required under that head.

5. In para. 4 of G.O., No. 3864 W., dated 8th December 1888, it was said that on receipt, early in 1889-90, of detailed proposals from Superintending Engineers and the Consulting Architect regarding the grants required for incomplete and minor new works under Postal and Telegraph, the Directors-General concerned would be requested to make the necessary appropriations. As this procedure would involve considerable delay in obtaining the required grants, it has been decided that Superintending Engineers and the Consulting Architect should apply direct to the Directors-General concerned for funds required for incomplete and minor new works. Applications for funds should not be made in the case of incomplete works of the previous year which can be completed in the current year at a cost of less than Rs. 500, as, under para. 1908, rule III of the Public Works Code, no appropriation of funds is necessary.

6. The grants for repairs under Postal and Telegraph will, as usual, be held at the disposal of Government and distributed on receipt of detailed proposals from Superintending Engineers and the Consulting Architect with reference to para. 1322 of the Public Works Code.

7. With these remarks the final issue of the Imperial Civil Works budget for 1889-90 will be printed and circulated for the information and guidance of the officers concerned, and 35 copies as shown in the margin forwarded to the Government of India.
