19TH OCTOBER 1889, No. 2950 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

READ—the following paper :—

From W. HUGHES, Esq., Executive Engineer, Madura Division, to the Superintending Engineer, VI Circle, Trichinopoly, dated 1st October 1889, No. 349 S.E.

In reply to your endorsement No. 664 M.D., dated 26th September 1889, I would recommend that sanction be obtained for the new sub-division establishment from 1st December. The Vaigai bridge will, I hope, be practically finished then, and it will also be time to begin laying out the Tank Restoration works in Tirumangalam taluk, estimates for which are now coming in. If there are to be any transfers of present sub-division officers, it would be convenient to make them at the same time.

2. I beg to suggest that for the present you make the limits of the new sub-division to include the Melúr, Madura and Tirumangalam taluks with any Government works there may be in Sivaganga and Ramnad. There will be only some Rs. 10,000 or Rs. 20,000 including Tenkarai channel and tank to spend on ordinary irrigation works, and the works though scattered will not be very numerous.

3. No Tank Restoration works will probably be sanctioned for the Melúr taluk until late in the season, and I do not think besides we shall be able to do much on them until the Periyár works are in a more forward state than now. In Tirumangalam taluk only the Tirumangalam minor basin has been taken up. The only buildings at any considerable distance from head-quarters will be the Sub-Magistrate's office at Sivaganga and the Munsif's court at Paramagudi, both of which can be reached by transit, and possibly the Sub-Registrar's offices at Devakóta and Mutukulatúr.

4. If you wish me to keep any works under my direct charge, I shall have to take a whole taluk as the number of subordinates is limited, and it will not do as a permanent arrangement to have any of them serving under two officers.

No. 746 M.D.

Submitted, together with the required statement of proposition for Sub-division Office establishment, to the Chief Engineer, Public Works Department, with reference to G.O., No. 2654 W. of 23rd September 1889.

2. The Executive Engineer's proposals in paras. 1 to 3 are reasonable and meet with the approval of the Superintending Engineer.

3. When the Ramnad division is finally closed, and when the present demand (which must be only temporary) for extra officers and upper subordinates in other parts of the Presidency is reduced to the normal state, it is hoped that the Madura division will have its full complement of subordinates. It is advisable that the Executive Engineer should be left for the *free* management of the division alone and that he should not have *direct* charge of any taluk.

1. The new sub-division is to be formed from the 1st December 1889, and as it is advisable that the sub-division should be treated as permanent, the cost of Office and Petty establishments is shown under the column "Permanent." It is suggested that provision be accordingly made in the next year's budget, and that for the three months of the current year the establishment be treated as temporary.

2. In G.O., No. 1250 W., of 11th May 1889, 4 lascars have been sanctioned for the whole year for the Assistant in charge of the Vaigai bridge work; when the head quarter sub-division is formed, these lascars will not be required.
