P.W. Store Department,

No 8855. Madras 5 October 1889

297

From Lieut Col S.B. Clarke R.E.

General Superintendent

P.W. Stores &c

To

The Superintending Engineer

5th Circle

Sir

With reference to the G.O. No 1848W of the 11 July 1889 approving of the proposals made by the Examiner, in his office Note dated 2d June 1889 para 5.

I have the honor to request you will be good enough to bring to the notice of the Government the impracticability of the Examiner's proposition, for me me to demande the Mathematical cases (now complete and ready for immediate issue) of various instruments, as indented for by Executive Engineers; it might probably occur that we should have but a very small number of cases complete when indented for.

Spare Instruments (excepting Horn curves and Iron Protractors &c) can be made up by the Instrument Department and an Indent can be submitted for the early supply of a certain number of Mathematical Instruments, such as are generally indented for to meet pressing wants. but I can see no good reason for demanding the existing complete cases to make good certain difficiencies which arise in most

instances, not very urgently required.

Now that all the mathematical instrument cases are about to be transferred to the Stationery Department, it is more incumbent upon me, to transfer all the cases in the Stores ~~offe~~ as complete as possible.

I have &c
pop W. B. Clarke Lt Col R.E.
Genl Supt B.W. Stores.

№ 4456

Forwarded to the Chief Engineer B.W. Department

2. It is neither expedient nor advisable to carry out the Examiner's suggestion in para 5 of his office note alluded to by which new boxes in Stores must be made incomplete and unserviceable until the pieces taken out from them for supplying difficiencies in old boxes, are replaced.

3. There is a stock of spare instruments available as shown in para 2 of my letter № 3172 dated 9th August 1869 from which the deficiencies in boxes now in the Divisions may be supplied as far as practicable and such of the instruments as cannot be supplied from this stock be made at the Workshops.

4. If these spare instruments are to be obtained from England the boxes must remain incomplete at least for a year until the annual Indent is supplied: as Students may not be sent for such spare instruments as may be required from time to time. Nor can it be known beforehand what spare Instruments may be required to admit of a stock being previously laid in to meet all future requirements

I have &c.

Colonel R.E.
Supty Engineer 5th Circle
