GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following paper :—

From the Director-General of Stores, to the Secretary to Government, Public Works Department, dated India Office, Whitehall, S.W., 20th September 1889, No. S/12092.

I have the honor to inform you that difficulties occasionally arise in supplies of hose from uncertainty as to the exact sizes and descriptions required, and I have therefore to suggest that, in all future demands, the following information may be given, to ensure the supply being of the correct size and description :—

Delivery Hose.—The length of the hose in feet should be stated and (if without couplings) the waterway or internal diameter of the couplings for which the hose is required. If with couplings, the waterway or internal diameter of couplings and the outside diameter of male screw thread and shape of thread V or round.

Suction Hose.—If suction hose is required for steam fire-engines, the maker's name and year of manufacture with number of engine should be stated in addition to the length in feet, waterway or internal diameter of couplings and outside diameter of male thread V or round.

Couplings.—The same particulars should be given when branch pipes, nozzles or couplings without hose are required.

ORDER—dated 21st October 1889, No. 2977 W., Public Works.

Communicated to officers of the Public Works Department for information and guidance.

(True Extract.)

Captain, R.E.,
Under-Secy. to Govt., P.W.D.

To the Chief Engineer for Irrigation.
„ Chief Engineer, Periyár Project.
To Superintending Engineers.
To the Consulting Architect to Government.

India Office,

Whitehall, S.W.,

20th September 1889.

Sir,

I have the honour to inform you that difficulties occasionally arise in supplies of hose from uncertainty as to the exact sizes and descriptions required and I have therefore to suggest that, in all future demands, the following information may be given, to ensure the supply being of the correct size and description:

Delivery hose.

The length of the hose in feet should be stated and (if without couplings) the waterway or internal diameter of the couplings for which the hose is required. If with couplings, the waterway or internal diameter of couplings and the outside diameter of male screw thread and shape of thread V or round.

Suction hose.

If suction hose is required for steam fire engines, the make, name and year of manufacture with number of engine should be stated in addition to the length in feet, waterway or internal diameter of couplings and outside diameter of male thread V or round.

Couplings.

The same particulars should be given when branch pipes, nozzles or couplings without hose are required.

I have the honour to be, Sir,
Your obedient servant,

Secretary to Government,
Public Works Department,
Madras.

Chs L. Shm
Director General of Stores.
