READ—the following paper :—

Proceedings of the Court of Wards, dated 16th October 1889, No. 2471.

From W. H. WELSH, Esq., Acting Collector of Madura, to the Secretary to the Court of Wards, dated Madura, 30th September 1889, No. 259.

In forwarding herewith copy of a letter from the Deputy Collector and Manager, Ramnad, proposing to employ Mr. Taylor, Sub-division Officer, Ramnad, as Estate Engineer, I have the honor to request that the proposal may be submitted for the orders of Government which would be required for placing the services of that officer at the disposal of the minor zemindar. Mr. Taylor is reported to be willing to accept the post on a salary of Rs. 400 *plus* the usual pensionary contribution.

2. I request that the early orders of Government may be solicited, as it is necessary to secure an Engineer for the estate as early as possible.

3. The Manager has communicated to Mariappa Mudali that his services will not be needed. It is requested that the Court will be pleased to inform the Chief Engineer, Public Works Department, with reference to his letter No. 835 D., dated 9th September 1889, to the Court.

ENCLOSURE.

From T. RAJARAM ROW, Deputy Collector and Manager, Ramnad Estate, to the Collector of Madura, dated Ramnad, 25th September 1889, No. 155.

In continuation of my letter No. 140, dated 10th instant, I have the honor to inform you that Mr. Mariappa Mudaliar has not yet turned up, and the time allowed him for joining the appointment has already expired. I hear from the Executive Engineer of the Ganjam district that Mariappa Mudaliar was not permitted by the Superintending Engineer to accept the appointment of the Estate Engineer. I therefore, at the suggestion of the minor zemindar, gave a notice to Mariappa Mudaliar cancelling the offer made to him.

2. I consulted the minor zemindar regarding the applications (returned herewith) received with your letter No. 3293, dated 19th instant. He observes that all the applicants, except Vaikuntamayyar, belong to the northern country; that they are apparently ignorant of the vernacular of the district and of the manners and customs of the people of the estate; that their experience in the execution of the irrigation works seems to be limited; and that their services will not therefore be of much use to the estate till two or three years at least, or until they get some experience in the estate. The minor zemindar also observes that Vaikuntamayyar, though belonging to this part of the country, has evidently little or no experience in connection with the

execution of the irrigation works. He prefers the appointment of an officer who has already been in charge of the estate works, if his services can conveniently be secured. He likes to have as the Estate Engineer Mr. Taylor, the Sub-division Officer in charge of the Estate works, making some special arrangements for carrying on the works in the temples. Mr. Taylor is willing, if the Government permit him, to take up the appointment on a salary of Rs. 400 *plus* the usual pensionary contribution and allowance. The minor zemindar requests that steps may be taken to secure, on the terms proposed by him, the services of that officer before the 20th proximo, if possible, and that if there is any difficulty in obtaining the permission of the Government for transferring Mr. Taylor to the estate service, an offer may be made to Vaikuntamayyar, referred to, for the appointment of the Estate Engineer on the salary of Rs. 250 a month with usual allowance.

3. As it is absolutely necessary that an Engineer should be secured as soon as possible, I beg that you will be pleased to take the necessary steps for complying with the request of the minor zemindar at an early date.

Reference, dated 7th October 1889.

Forwarded to the Chief Engineer, Public Works Department, for favor of very early remarks. Information is also requested as to the length of Mr. Taylor's qualifying service.

Returned with the remark that the Chief Engineer has no objection to Mr. Taylor's services being made available for the purpose stated, but it is pointed out that in accordance with article 806 (ii) of the Civil Service Regulations the consent of both the Local and Supreme Governments would be necessary to the appointment of Mr. Taylor as Engineer of the Ramnad Zemindari on a salary of Rs. 400 per mensem.

The papers read above will be submitted, through the Examiner of Public Works Accounts, for the orders of Government.

2. The conditions prescribed by the Civil Service Regulations are fulfilled in this case, and the Court recommend that Mr. Taylor's services may be lent to the Zemindar of Ramnad for two years. It will be a great advantage to the zemindar if he can obtain, at the commencement, the services of an Engineer who has had considerable experience of irrigation works.

GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

READ—the following Proceedings of the Court of Wards, dated 6th July 1889, No. 1570:—

THE FULL BOARD.

Read—the following letter from E. TURNER, Esq., Collector of Madura, to the Secretary to the Court of Wards, dated Ramnad, 22nd June 1889, Cir. No. 275:—

I have the honor to forward a letter received from the minor zemindar of Ramnad for very favorable consideration.

2. The minor zemindar in paragraph 4 of his letter makes three requests—

(i) That he may be allowed to make a tour in his estate after the period of his vacation is over. He writes: "if the Court should sanction my request, I intend visiting, in company with the Deputy Collector and Manager, the southern taluks during the remaining days of July, spending three weeks of August at your office in Madura, visiting the northern and eastern taluks during the last week of August and the first two weeks of September, and then attending the Estate office until taking over charge in October." I strongly approve of this programme, and request that it may be sanctioned. The minor zemindar is "totally ignorant" of the very complicated system of administration obtaining in his zemindari, and it is advisable that he should know something about it and about his people before he takes over charge of the estate. If the tour be sanctioned, the minor will start southwards about the 16th July, stop at Kalari, and thence proceed along the bank of the Ragunatha Kaveri to Mutukulatúr; there he will halt some days, examine the taluk records, visit the neighbouring villages and tanks, and see the country people; he will next proceed to Kamudi where he will again remain for a few days and thence to Tirushuli. From Tirushuli he will proceed to Madura, and, after staying there about three weeks, he will visit the northern taluks of his estate, stopping at such places as Kannangudi, Tiruvadanai and Rajasingamangalam. If the Court of Wards are pleased to sanction the proposed tour, I request that they will be good enough to communicate their decision to the minor zemindar direct by wire, so that he may have plenty of time to make his arrangements.

(1) M.R.Ry. Dewan Bahadur Rajaram Rau Avergal, Deputy Collector and Manager.
(2) M.R.Ry. Samaiyar, Superintendent of Palace, Chattram and Devastanam of Ramnad estate, his permanent appointment under Government being that of Deputy Tahsildar of Kodaikánal on Rs. 100.
(3) Ramier, Tahsildar of Mutukulatúr taluk, his permanent appointment under Government being a clerk's post on Rs. 30 in the Collector's office.

3. (ii) That the marginally-noted Government officers, whose services have been lent to the estate, may be allowed to remain for 3 years. I strongly support this request. It is very necessary, in the interests of the estate, that these experienced officers should be retained in their present posts for at least 3 years. By that time the zemindar should have acquired practical experience of the working of the administrative machine, and will be in a position to judge for himself. At present he knows nothing whatever about it, and may fall into bad hands and get bad advice, in which case all the good work done during the management of the Court of Wards will almost

5

certainly be undone, and the estate will certainly be in debt again very soon. It is well known to the Court of Wards and to Government that the administration of this zemindari is peculiar and very difficult. In one of my reports I have called it a "speciality," and this is just what it is. The manager in charge of this estate must have "special" aptitudes and special knowledge. The revenue of all wet lands is paid in kind and in consequence special and peculiar arrangements for estimating, harvesting and disposing of the grain coming to the share of the estate must be made. These arrangements are necessarily very complicated, and a manager new to the estate and its management, however good his intentions, will be unable to prevent considerable loss to the revenues of the estate for the first two or three years of his management. This must be said even if the young zemindar obtains the services of a competent and zealous manager in place of Mr. Rajaram Rau, but if Government refuse to lend one of their own servants for a few years, the zemindar must try and obtain a good manager elsewhere, in which case he will probably choose one of his own relations with the inevitable result, as experience of previous managements has taught—widespread corruption and ruin. The present manager, Mr. Rajaram Rau, is thoroughly acquainted with every detail of the administration; he has it at his fingers' ends; he has, moreover, visited every village and tank in the estate, and knows the requirements and condition of the people, and where improvements can and should be carried out for the good of the tenants and the general improvement of the estate. Fortunately, Rajaram Rau consents to continue his management for three years more, and I earnestly request that his services may be retained. From my long acquaintance with the estate and its management, I can speak with authority on the subject of Mr. Rajaram Rau's administration. Not only has he succeeded in saving much money for the zemindar, but also his administration is most popular amongst the ryots and indeed amongst all classes throughout the zemindari.

As to Samaiyar, it is very necessary to retain his services also. He is in charge of the chattrams and devastanams of the estate, a very difficult charge for the reasons already given. He has been two years in his present appointment and has learnt the work. I strongly advise his retention for three years. Ramier is in charge of Mutukulatúr taluk. He also knows his work and may be retained with great advantage to the estate for three years.

4. As to the third request, I will make arrangements.

Resolution—dated 6th July 1889, No. 1570.

The proposed tour of the Ramnad minor zemindar and his attendance at the Collector's office to learn his duties are sanctioned. The following telegram has been despatched to him:—

"Your letter 19th ultimo to Collector, Madura. Proposed tour sanctioned."

2. The request that the three officials named in paragraph 3 of the Collector's letter be lent to the zemindar for a time is reasonable. The Government are of course aware of the peculiar position in which the Ramnad estate stands. In 1876 the Government advanced Rs. 12,72,830 and subsequently a further sum of Rs. 1,50,000 to meet the zemindar's liabilities. Owing chiefly to the excellent management of the estate by its present manager, the whole of this debt with the interest on it, in all Rs. 23,29,892, has been paid off and a fair balance accumulated with which the young zemindar can begin his own management. The zemindar's letter to the Court does, the Court think, credit to him, and they are very anxious that he should be given all the assistance possible at the commencement of his career. The sudden replacement of the experienced and capable officials now in charge by new men, whom the young and inexperienced zemindar will, for a time at least, be unable to control efficiently, can hardly fail to undo to a great extent the good that has arisen from the Government management and may lead to early oppression and corruption. The zemindar's present knowledge of the men, who will be applicants for the vacant posts, must be very small, and to leave him to commence his management with the very serious and responsible task of choosing new advisers, is to court failure.

3029-30

3. As pointed out by the Collector, the estate is a large and important one, its tenures complicated and its administration peculiar and difficult. The Court consider that these circumstances justify exceptional treatment, and accordingly strongly support the Collector's recommendation that the services of the officials, referred to above, be lent to the zemindar for 3 years from the date of his assumption of charge of his estate.

4. The orders of Government are requested.

Read—memorandum from the Government of Madras, dated 1st August 1889, No. 112.

Resolution—dated 22nd August 1889, No. 1980.

Rajaram Rau's pensionable service on the 1st April last was 28 years 5 months and 6 days. As he is over fifty-five years of age, it is competent to Government to retire him now. His retention in service up to 31st March next was sanctioned in the Government Order recorded in Board's Proceedings, dated 1st May 1889, No. 2547.

2. Samaiyar appears to be forty-eight years old and to have 29 years' service. The Court are not however aware how much of the latter is non-qualifying. The Collector is requested to furnish this information and to state whether, with reference to clause (iii) of section 806 of the Civil Service Regulations, Ramier, the third officer, whose services have been asked for, has put in ten years of pensionable service. He should reply as soon as possible.

3. The Court venture to point out to Government that the zemindar's wishes will probably not be satisfied by pensioning the three officers referred to in their former Proceedings and permitting them to take up service with the zemindar. It is doubtful whether with their pensions secured they would consent to remain in the zemindari on their present salaries under the young zemindar. If, however, their services are lent to the estate, they will retain their position as Government servants and this,

6

while giving them in some degree a position independent of the zemindar, will at the same time lead them to consider themselves under an obligation to serve the estate faithfully. The Court would much prefer this arrangement to continue, and if the Government consider three years too long would suggest that it be reduced to two. What the Court desire is that the young zemindar shall not be compelled to make any change or enter into any new agreements with these officers until he has had some experience of the management of his estate. This object would not be attained by the course the Government apparently have in view.

ORDER—dated 10th September 1889, No. 770, Revenue.

Miscellaneous.

The Government agrees with the Court of Wards in thinking that it is not desirable to retire Rajaram Rau and that he should continue to be manager of the Ramnad zemindari for some time after it is made over to its proprietor. Application will accordingly be made to the Government of India for his transfer to foreign service for a period of *two* years, which the Government considers to be sufficient. In the opinion of the Government there is no necessity to transfer the other two officers referred to by the Court of Wards.

THE SECRETARY TO THE GOVERNMENT OF INDIA,

Dated Ootacamund, the 10th September 1889.

SIR,

I am directed to submit, for the early confirmation of the Government of India, the Proceedings of this Government * noted on the margin, approving the recommendation of the Court of Wards that Dewan Bahadur Rajaram Rau, Deputy Collector, fourth class, should be permitted to continue to be manager of the Ramnad zemindari for a period of two years from the date of its being made over to the minor, which is to take place in October next.

Miscellaneous.

* Dated 10th September 1889, No. 770.

2. Ramnad is an extensive zemindari, paying a peishcush of Rs. 3,13,997 to Government. Its administration is peculiarly difficult and the manager must have special aptitudes and special knowledge. The revenue of wet lands is paid in kind and the arrangements for estimating, harvesting and disposing of this grain, which falls to the share of the zemindar, are necessarily very complicated. A new manager, however competent he may be, will take one or two years to thoroughly understand his work and to be able to prevent considerable loss of revenue to the estate.

3. The present manager, Rajaram Rau, has been in the zemindari for some years and is thoroughly acquainted with every detail of the administration. He has visited every village and every tank in it and knows the requirements and the condition of the people and also what improvements should be carried out for the good of the tenants and the general improvement of the estate. He found the estate deeply involved in debt to Government, which, by his excellent management, he has paid off with the interest thereon, amounting in all to Rs. 23,29,892. The young zemindar, whose letter is enclosed for the information of the Government of India, is anxious to retain the services of this officer for a period of three years by which time he may be expected to have acquired sufficient practical experience of the working of the administrative machine to enable him to judge for himself. This request of the zemindar is strongly supported by the Collector and the Court of Wards.

4. From a consideration of the circumstances of the zemindari and its owner, His Excellency the Governor in Council is of opinion that the zemindar's request is reasonable and should be complied with. At present the zemindar knows nothing whatever about the estate and it is very desirable that the good work accomplished during the management of the Court of Wards should not be undone. This result will not be attained if he has to commence his management with the very serious and responsible task of choosing new advisers. Rajaram Rau should therefore be permitted on public grounds to continue in the service of the zemindar for a period of two years after the latter attains his majority, after which the zemindar must be left to make his own arrangements.

8

5. I am, therefore, to request that, under these circumstances, His Excellency the Governor-General in Council will be pleased to sanction the transfer of Rajaram Rau to foreign service of the first kind under articles 806 (ii) and 820 of the Civil Service Regulations.

Sir,

In continuation of my letter No. 140 dated 10 Instant, I have the honor to inform you that Mr. Mariappa Mudaliar has not yet turned up and the time allowed him for joining the appointment has already expired. I hear from the Executive Engineer of the Ganjam District, that Mariappa Mudaliar was not permitted by the Superintending Engineer to accept the appointment of the Estate Engineer. I, therefore, at the suggestion of the Minor Zemindar, gave a notice to Mariappa Mudaliar cancelling the offer made to him.

2. I consulted the Minor Zemindar regarding the applications received with your letter No. 3293 dated 19th Instant

× returned herewith

&c

He observes that all the applicants except Vaikuntamayyar belong to the northern country, that they are apparently ignorant of the vernacular of the District and of the manners and Customs of the people of the Estate; that their experience in the execution of the irrigation works seems to be limited and that their services will not therefore be of much use to the Estate till two or three years at least, or until they get some experience in the Estate. The minor zemindar also observes that Vaikuntamayyar though belonging to this part of the country has evidently little or no experience in connection with the execution of the Irrigation Works. He prefers the appointment of an officer who has already been in charge of the Estate works, if his services can conveniently be secured. He likes to have as the Estate Engineer, Mr. Taylor the Sub Division officer in charge of the Estate works, making some special arrangements for

3029-30

for carrying on the works in the interior. Mr. Taylor is willing, if the Government permit him, to take up the appointment on a salary of Rs 400 plus the usual pensionary contribution and allowances. The minor zemindar requests that steps may be taken to secure, on the terms proposed by him, the services of that officer before the 20th Proximo, if possible, and that if there is any difficulty in obtaining the permission of the Government for transferring Mr. Taylor to the Estate Service, an offer may be made to Vaikuntamayyar, referred to, for the appointment of the Estate Engineer on the Salary of Rs 250 a month with usual allowance.

Memorandum.

From the Court of Wards No 2688 dated 7th October 1889, forwarding for remarks an application from the Minor Zemindar of Rannad for the services of Mr Taylor, Supervisor for appointment as Engineer of the Zemindary.

Returned with the remark that the Chief Engineer has no objection to Mr Taylor's services being made available for the purpose stated, but it is pointed out that in accordance with article 806(11) of the Civil Service Regulations the consent of both the Local and Supreme Governments would be necessary to the appointment of Mr Taylor as Engineer of the Rannad Zemindary on a salary of Rs 400 per mensem.

COURT OF WARDS OFFICE MADRAS

3029-30

Proceedings of the Court of Wards.

Dated 16 October 1889.

No. 2471.

READ letter from the Collector of Madura Dated 20 September 1889 No. 259 and the following reference thereon to the chief Engineer P.W.D. dated 7.10.89. —

Forwarded to the Chief Engineer P.W.D. for favor of very early remarks. Information is also requested as to the length of Mr. Taylor's qualifying service. —

Read also Endorsement from the Chief Engineer P.W.D dated 12 Oct. 1889 No. 4619.C. —

Resolution

The papers read above will be submitted through the Examiner of Public Works Accounts for the orders of Government.

2. The Conditions prescribed by the Civil

Civil Service Regulations are fulfilled in this case and the Court recommend that Mr. Taylor's services may be lent to the Zemindar of Ramnad for two years. It will be a great advantage to the Zemindar if he can obtain at the commencement, the services of an Engineer who has had considerable experience of irrigation works.
