that there is so much work as to show that

to my letter No 3595 of the 27th

arrears of work existing in any
draftsman's office necessitates
the employment of a temporary

of references within a measurable

enough to obtain the sanction of Govern-

of the temporary Draughtsman³²² for six

amount of extra work is entailed in
the Nilgiri Division office consequent
on requirements for troops at Welling-

will be impossible for the Executive Eng^r

To
 The Chief Engineer

 Madras

Sir,

In reply to your Memo. No. 368.C
 of 25th Instant, I have the honor to report
 that prior to submitting the application
 of the Executive Engineer Nilgiris for
 the sanction of an extra draftsman for
 six months, I had satisfied myself of the
 necessity for the same.

2. There are now to be designed and
 estimated 5 new buildings in Wellington
 alone all urgently called for viz:-

- (1) Quarter master stores and office
- (2) Hospital ward
- (3) Quarters for Milling Engineer
- (4) Regimental Institute
- (5) Hut barracks to accommodate
 500 men.

besides.

besides many references from my office
of 18 months standing and the constantly
recurring work of repairs and other estimates
in Ottawamund &c and it is impossible
for Mr de Monte (whom I know from ex-
perience to be a very good man) to get
through all this work with only the aid of
one assistant who is little more than
a tracer and copyist.

3. Mr de Winton applied for one
of my draftsmen to be lent him but
as my Head draftsman is absent on
privilege leave (given after cautious
service of $7\frac{1}{2}$ years) I could not spare a
man for the purpose.

4. My experience of all 1st class
Division Offices is that they are sadly
deficient in the drawing department
and until this is recognised by the
permanent increase of establishment
applications for special establishment
like the one now submitted must be expected.

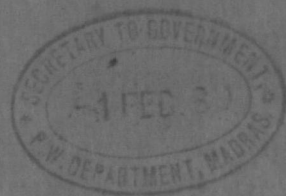

I have the honor to be
