GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following paper:—

From W. B. DE WINTON, Esq., Executive Engineer, Nilgiri Division, to the Superintending Engineer, IV Circle, dated Ootacamund, 2nd February 1889, No. 3972.

I have the honor to forward, herewith, a copy of a letter from Colonel Jennings regarding the passage of the main pipes of the Ootacamund water-supply through his land.

2. He asks that his house shall be connected with the main at the expense of Government in compensation for the easement he gives.

3. The cost of this connection will be Rs. 163, and I thought at first that this would be excessive compensation to give him; but I have since found that compensation in land was given to Mrs. Robinson of Beverley (*vide* G.O., No. 2820 W., dated 11th September 1888) at the rate of 0·14 acres of the estimated value of Rs. 140 (Rs. 1,000 per acre) for the passage of 225 feet of main pipe through her property, so Colonel Jennings can fairly claim Rs. 163 for a length of 490 feet, and I beg that you will be good enough to obtain the sanction of Government to the payment of this sum in return for the easement and for perpetual rights of entry for inspection purposes.

4. I have also received applications for compensation from the owners of Maplecroft and Neptune Castle, through whose properties the $2\frac{1}{2}$" main above referred to as running through Beverley passes. I propose offering to connect those houses with the main pipe as in the case now submitted for sanction, and I beg that you will obtain sanction for this also and for any other similar cases which may arise and which will be very few and very moderate in cost.

5. I may mention that only Rs. 3,872 have been hitherto spent in compensation for land in connection with this water-supply scheme out of an estimate provision of Rs. 9,000, and I do not anticipate a total expenditure under this head of more than Rs. 4,500.

6. There will also be a saving of something like Rs. 4,000 on the total of the sanctioned estimate when all work is finally completed.

No. 66 E.W.

Submitted to the Chief Engineer, Public Works Department, for favor of early orders.

2. The Executive Engineer's proposal appears to be advantageous both to the Government and the parties concerned. If this meets with the approval of Government, the undersigned will take care that, before house connections are made, written

agreements are obtained from the parties for the easement and perpetual rights of Government for inspection purposes.

FEBRUARY.

Ootacamund Water-supply

Proposal of the Executive Engineer, Nilgiri division, to connect certain properties with the main pipe as compensation to the owners for permitting the passage of the pipes through their grounds, approved with remarks.

St Ann's,
Ootacamund,
January 24th, 1889.

Dear Sir,

I am in receipt of your letter of the 17th instant, (herewith returned) informing me that you are prepared to recommend the part payment by Government of the cost of laying on a supply of water to my house, as compensation for the water supply pipes having been laid through my ground. I would ask you to reconsider the case with a view to your recommending the whole of the cost (Rs 163) being defrayed by Government without my being called on to contribute. The length of piping laid through my ground is considerable — in many places it is almost on the surface preventing my using or cultivating such parts. It passes through the only available brick making soil I have, and will debar me from using the site I had

had selected as a cattle shed.

Under the circumstances I think you will see that the compensation I have asked for Viz: a good and sufficient supply of water laid on to my house is a moderate one.

Yours Truly
(Sd) C. J. Jennings.

No 3972. Nilgiri Division office,
Ootacamund, 2nd February 1889.

From,
W. B. de Winton Esq.,
Executive Engineer, Nilgiri Division,
Ootacamund,

To,
The Superintending Engineer,
Fourth Circle,
Coimbatore.

Sir,

I have the honor to forward herewith a copy of a letter from Colonel Jennings regarding the passage of the main pipes of the Ootacamund Water Supply through his land.

2. He asks that his house shall be connected with the main at the expense of Government in compensation for the easement he gives.

3. The cost of this connection will be Rs 163, and I thought at first that this would be excessive compensation to give him, but I have since found that compensation

in

in land was given to Mrs Robinson of Beverley. Vide G.O., No 2820 W, dated 11th September 1888 at the rate of 0·14 acres of the estimated value of Rs 140 (Rs 1000 per acre) for the passage of 225 feet of main pipe through her property, so Colonel Jennings can fairly claim Rs 163 for a length of 490 feet, and I beg that you will be good enough to obtain the sanction of Government to the payment of this sum in return for the easement and for perpetual rights of entry for inspection purposes.

4. I have also received applications for compensation from the owners of Maple-croft and Neptune Castle, through whose properties the 2½" main above referred to as running through Beverly passes. I propose offering to connect those houses with the main pipe as in the case now submitted for sanction, and I beg that you will obtain sanction for this also, and for any other similar Cases which may arise and which will be very few and very moderate in cost.

5.

5. I may mention that only Rs 3872 have been hitherto spent in compensation for land in connection with this water supply scheme, out of an estimate provision of Rs 9000, and I do not anticipate a total expenditure under this head of more than Rs 4500.

6. There will also be a saving of something like Rs 4000 on the total of the sanctioned estimate, when all work is finally completed.

I have &c.a
