No. 32

Executive Engineer's Office.

WEST COAST DIVISION,

CALICUT

3rd February 1890

FROM

Col. A. J. Fraser R.E.

EXECUTIVE ENGINEER,

WEST COAST DIVISION.

TO

The Superintending Engineer,
K. Coode.

SIR,

ENCLOSURE.

I have the honor with refer-
ence to your no. 35 of 27th January
1890 and G. O. no. 74 of 11th Idem,
page 3, no 37, to state that it
appears of the 4782 Cts of Corrugate
Iron includes some roofing ma-
terial purchased (under a Govern-
ment order for emergent work)
in the Vizagapatam Division
1886-87. The cost can hardly have
been correctly entered by whoever
compiled the Secretary of State's
return at Madras for want
of

of particulars.

2. There were no corrugated sheets bought separately, but the price comprised in one sum the iron work of complete trusses, purlins, stays, bolts and nuts as well as fitted sheets which would very well bring ^{it} much over what the cost of the plain sheets would have been at India office rates.

3. Unless I am much mistaken the Engineer's Office have merely taken the area of the roofing. The corresponding weight of corrugated sheeting has been calculated and the cost added as it stood without allowing for the other ironwork.

4. There is no reason, as the source of supply, Calcutta, was the same, that the price should have been any higher than in

Sum

Sum No 46 for Assam.

I have the honor to be
Dear
Your obedient servant

W. Fraser Colk
Executive Engineer

OFF. SUPERINTENDING ENGINEER, V CIRCLE,

To

THE Chief Engineer

P.W. Department.

SIR,

Enclosures.

In returning your Enclosure
ment No. 989 dated 24 February
1890, I have the honor to state
that the 478½ Cwts of corrugated
iron alluded to, was, as has
since been ascertained from
the Superintendent Engineer, V Circle,
obtained for the Chilgiri Divi-
sion, not for the Vizagapatam
Division, as stated in
Colonel Fraser's letter No. 32 of
3rd February 1890.

2. Mr. Joyce General Super-
intendent P.W. Stores in his
letter No. 776 of 28 October 1889
explained the cause of the
mistake in the calculation
of cost of the corrugated iron
