Copy of letter No 23 dated
15th April 1890 from J. C. Johnston
Esquire Executive Engineer Turnool
Division to the Suptg Engineer 3rd Field
Battary.

In reply to your memo No
3806 dated 21st March/90, I have
the honor to inform you that the
discrepancy of 0-9-0 noticed
by the Examiner between the value
of stock articles issued for boat
repairs in April/88 and that
credited in the work abstract for
the same is only apparent and
does not require any adjustment
for the value of stock articles issued
actually is Rs 24-2-1 and this
sum is credited in the work abstract
correctly but the entries in the abstract
of stock materials issued for the
month were complete at the time of
examination and lead me to suppose
that the total value of the articles
issued from stock for boat repairs
was Rs 23-9-1

The particulars of the issues were

S. S. S.

Timber Rs 23-9-1

Leaves iron 0-9-0

Total - 24-2-1

In the abstract of issues the 2nd item
0-9-0 though entered was not
carried on to the total to be posted
in the column value of materials
expended on each item but it was
included in grand total. Thus
the discrepancy noticed was
simply a clerical omission which
has since been rectified. The
enclosures of the Memorandum
under reply are herewith returned

No 148
