GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Military Works.

READ—the following paper :—

From Lieutenant-Colonel W. P. TOMKINS, R.E., Superintending Engineer, Madras Command, Military Works, to the Secretary to the Government of Madras, Public Works Department, dated Ootacamund, 22nd April 1890, No. 953.

I have the honor to inform you that I am in receipt of an estimate, amounting to Rs. 8,450, for enlarging St. Mark's Church at Bangalore, and also an estimate for special repairs to St. John's Church, Bangalore, amounting to Rs. 280.

2. I have no Civil Public Works Department grants placed at my disposal, and I am therefore unable to deal with the above estimates.

3. In appendix M of the Public Works Department Code (India), section IV, rule I, it is stated that "in the case of churches in stations where there are military cantonments and the military works are under the charge of the Inspector-General * * * the necessary funds should be provided from the ordinary grant for Imperial works under Civil Buildings, Roads and Services," and rule IX of section I appears to have the same intention as regards cemeteries.

4. The Inspector-General, Military Works, has heretofore submitted an annual budget for the churches and cemeteries in military cantonments in Bengal and grants are made to him from Imperial funds under the head of "Civil Works."

5. So far as I am aware the question of churches and cemeteries in the Madras Presidency cantonments taken over by the Military Works Department has not been touched on as yet, but it is desirable that the question of funds should be considered, and I should be obliged if you would inform me what action you propose taking.

6. I think in some cases the Military Works Department officers who have taken over military works in the Madras Presidency have taken over churches and cemeteries, but I am not sure that this has been done in all cases.

ORDER—dated 28th May 1890, No. 1487 W., Public Works.

During the currency of the existing Provincial contract, Provincial funds must continue to be liable for expenditure in connection with Government churches and cemeteries in this Presidency.

2. The Superintending Engineer, Military Works, Madras Command, will be requested, in the Military Department, to take charge of Government churches and cemeteries at stations such as Bangalore and Wellington from which the Public Works Department has altogether retired, and subject to the limitations prescribed in appendix D, Madras Public Works Code, to carry out all new works and repairs for

which the Public Works Department has hitherto been responsible, the authorised contributions on account of establishment and tools and plant being made from Provincial to Imperial Military funds.

3. Plans and estimates for new works and estimates for maintenance and repairs should be prepared and submitted in the manner prescribed in appendix D, Public Works Code, and the funds required for expenditure by the Military Works Department will be allotted by the Government on application by the Superintending Engineer.

4. At stations in which there are Public Works establishments, Government churches and cemeteries will continue in charge of the Public Works Department as heretofore. At Madras, all Government churches and cemeteries will, in common with other civil works, be in charge of the Consulting Architect.

5. The foregoing orders are not intended to interfere in any way with the joint responsibilities of the ecclesiastical authorities, as laid down in appendix D, Public Works Code.
